SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-64108; File No. SR-Phlx-2011-35]

Self-Regulatory Organizations; Notice of Filing and Immediate Effectiveness of Proposed Rule Change by NASDAQ OMX PHLX LLC To Extend the FLEX No Minimum Value Pilot Program

March 22, 2011.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”),¹ and Rule 19b-4² thereunder, notice is hereby given that on March 15, 2011, NASDAQ OMX PHLX LLC (“Phlx” or “Exchange”) filed with the Securities and Exchange Commission (“SEC” or “Commission”) the proposed rule change as described in Items I and II, below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

The Exchange is filing with the Commission a proposal to extend a pilot program that eliminates minimum value sizes for FLEX index options and FLEX equity options (together known as “FLEX Options”).³

The Exchange requests that the Commission waive the 30-day operative delay period contained in Exchange Act Rule 19b-4(f)(6)(iii).⁴

The text of the proposed rule change is available on the Exchange’s Web site at <http://nasdaqomxphlx.cchwallstreet.com/>

² 17 CFR 240.19b-4.

³ In addition to FLEX Options, FLEX currency options are also traded on the Exchange. These flexible index, equity, and currency options provide investors the ability to customize basic option features including size, expiration date, exercise style, and certain exercise prices; and may have expiration dates within five years. See Rule 1079. FLEX currency options traded on the Exchange are also known as FLEX World Currency Options (“WCO”) or Foreign Currency Options (“FCO”). The pilot program discussed herein does not encompass FLEX currency options.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The purpose of this proposed rule change is to amend Phlx Rule 1079 (FLEX Index, Equity and Currency Options) to extend a pilot program that eliminates minimum value sizes for FLEX Options (the “Pilot Program” or “Pilot”).

Rule 1079 deals with the process of listing and trading FLEX equity, index, and currency options on the Exchange. Rule 1079(a)(8)(A) currently sets the minimum opening transaction value size in the case of a FLEX Option in a newly established (opening) series if there is no open interest in the particular series when an Request-for-Quote (“RFQ”) is submitted (except as provided in Commentary .01 to Rule 1079): (i) \$10 million underlying equivalent value, respecting FLEX market index options, and \$5 million underlying equivalent value respecting FLEX industry index options;⁵ (ii) the lesser of 250 contracts or the number of contracts overlying \$1 million in the underlying securities, with respect to FLEX equity options (together the “minimum value size”).⁶

Presently, Commentary .01 to Rule 1079 states that by virtue of the Pilot Program ending March 28, 2011, there shall be no minimum value size requirements for FLEX Options as noted

⁵ Market index options and industry index options are broad-based index options and narrow-based index options, respectively. See Rule 1000A(b)(11) and (12).

⁶ Subsection (a)(8)(A) also provides a third alternative: (iii) 50 contracts in the case of FLEX currency options. However, this alternative is not part of the Pilot Program.

in subsections (a)(8)(A)(i) and (a)(8)(A)(ii) above.⁷

The Exchange now proposes to extend the Pilot Program for a period of one year ending March 30, 2012.⁸

The Exchange believes that there is sufficient investor interest and demand in the Pilot Program to warrant extension for an additional year. The Exchange believes that the Pilot Program has provided investors with additional means of managing their risk exposures and carrying out their investment objectives. Extension of the Pilot Program would continue to provide greater opportunities for traders and investors to manage risk through the use of FLEX Options, including investors that may otherwise trade in the unregulated over the counter ("OTC") market where similar size restrictions do not apply.⁹

In support of the proposed extension of the Pilot Program, the Exchange has submitted to the Commission a Pilot Program Report ("Report") that provides an analysis of the Pilot Program covering the period during which the Pilot has been in effect. This Report includes: (i) data and analysis on the open interest and trading volume in (a) FLEX equity options that have an opening transaction with a minimum size of 0 to 249 contracts and less than \$1 million in underlying value; (b) FLEX index options that have an opening transaction with a minimum opening size of less than \$10 million in underlying equivalent value; and (ii) analysis of the types of investors that initiated opening FLEX Options transactions (*i.e.*, institutional, high net worth, or retail). The Report has been submitted to the Commission on a confidential basis.

If, in the future, the Exchange proposes an additional extension of the Pilot Program, or should the Exchange propose to make the Pilot Program permanent, the Exchange will submit, along with any filing proposing such amendments to the Pilot Program, an additional Pilot Program Report

⁷ See Securities Exchange Act Release No. 62900 (September 13, 2010), 75 FR 57098 (September 17, 2010)(SR-Phlx-2010-123) (notice of filing and immediate effectiveness of proposal to institute Pilot Program).

⁸ The Exchange notes that any positions established under this Pilot would not be impacted by the expiration of the Pilot. For example, a 10-contract FLEX equity option opening position that overlies less than \$1 million in the underlying security and expires in January 2015 could be established during the Pilot. If the Pilot Program were not extended, the position would continue to exist and any further trading in the series would be subject to the minimum value size requirements for continued trading in that series.

⁹ The Exchange has not experienced any adverse market effects with respect to the Pilot Program.

covering the period during which the Pilot Program was in effect and including the details referenced in the prior paragraph. The Exchange will also provide the nominal dollar value of each trade. The Pilot Program Report would be submitted to the Commission at least two months prior to the expiration date of the Pilot Program and would be provided on a confidential basis.

2. Statutory Basis

The Exchange believes that its proposal is consistent with Section 6(b) of the Act¹⁰ in general, and furthers the objectives of Section 6(b)(5) of the Act¹¹ in particular, in that it is designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in facilitating transactions in securities, and to remove impediments to and perfect the mechanisms of a free and open market and a national market system. Specifically, the Exchange believes that the proposed extension of the Pilot Program, which eliminates the minimum value size applicable to FLEX Options, would provide greater opportunities for investors to manage risk through the use of FLEX Options. The Exchange notes that it has not experienced any adverse market effects with respect to the Pilot Program.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were either solicited or received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The Exchange has filed the proposed rule change pursuant to Section 19(b)(3)(A)(iii) of the Act¹² and Rule 19b-4(f)(6) thereunder.¹³ Because the proposed rule change does not (i) significantly affect the protection of investors or the public interest; (ii) impose any significant burden on

competition; and (iii) become operative prior to 30 days from the date on which it was filed, or such shorter time as the Commission may designate, if consistent with the protection of investors and the public interest, the proposed rule change has become effective pursuant to Section 19(b)(3)(A) of the Act and Rule 19b-4(f)(6) (iii) thereunder.

A proposed rule change filed under Rule 19b-4(f)(6)¹⁴ normally does not become operative prior to 30 days after the date of the filing. However, pursuant to Rule 19b4(f)(6)(iii),¹⁵ the Commission may designate a shorter time if such action is consistent with the protection of investors and the public interest. The Exchange has requested that the Commission waive the 30-day operative delay to permit the current pilot to continue uninterrupted. The Commission finds that waiver of the operative delay is consistent with the protection of investors and the public interest. The Commission notes in waiving the 30-day operative delay that Phlx's original pilot was published for comment in the **Federal Register** and that the Commission did not receive any comments on the proposed rule change.¹⁶

Further, Phlx is proposing to extend the existing pilots on the same terms and conditions as they were originally approved by the Commission. This includes, as described in more detail above, a representation that Phlx will continue to monitor the pilot and submit certain interim reports during the extended pilot period, as well as a final report covering the pilot period should the Exchange decide to extend or file for permanent approval of the pilot. Finally, the Commission notes that the Exchange has represented that it has not experienced any adverse market effects with respect to the pilot program.

Based on the above, the Commission finds that it is consistent with investor protection and the public interest to waive the 30-day operative delay in accordance with Rule 19b-4(f)(6)(iii) so that the pilot can continue on an uninterrupted basis, and therefore

¹⁴ 17 CFR 240.19b-4(f)(6). In addition, Rule 19b-4(f)(6)(iii) requires that a self-regulatory organization submit to the Commission written notice of its intent to file the proposed rule change, along with a brief description and text of the proposed rule change, at least five business days prior to the filing of the proposed rule change, or such shorter time as designated by the Commission. The Commission notes that the Exchange has satisfied this requirement.

designates the proposal operative upon filing.¹⁷

At any time within 60 days of the filing of such proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

IV. Solicitation of Comments

To help the Commission process and review your comments more efficiently, please use only one method. March 23, 2011.

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of those statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant parts of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange hereby proposes to amend its option trading rules to extend the operation of its Pilot Program regarding minimum value sizes for FLEX Options, currently scheduled to expire on March 28, 2011,⁴ until March 30, 2012. This filing does not propose any substantive changes to the Pilot Program and contemplates that all other terms of FLEX Options will remain the same. The Exchange believes that extending the Pilot Program will benefit public customers and other market participants who will be able to use FLEX Options to manage risk for smaller portfolios.

In support of the proposed extension of the Pilot Program, and as required by the terms of the Pilot Program's implementation,⁵ the Exchange has submitted to the Securities and Exchange Commission ("SEC" or "Commission") a Pilot Program Report that provides an analysis of the Pilot Program covering the period during which the Pilot Program has been in effect. This Pilot Program Report includes (i) data and analysis on the open interest and trading volume in (a) FLEX Equity Options that have opening transactions with a minimum size of 0 to 249 contracts and less than \$1 million in underlying value; (b) FLEX Index Options that have opening transactions with a minimum opening size of less than \$10 million in underlying equivalent value; and (ii) analysis on the
