ACTION: Notice of two SEDAR 25 South Atlantic assessment webinars for black sea bass and golden tilefish.

SUMMARY: The SEDAR 25 assessments of the South Atlantic black sea bass and golden tilefish will consist of a series of workshops and webinars: This notice is for two webinars associated with the Data and Assessment portions of the SEDAR process. See **SUPPLEMENTARY INFORMATION**.

DATES: The SEDAR 25 'post-data, pre-assessment' webinars will be held between May 25, 2011 and June 8, 2011. Please see list below for exact dates and times. The established times may be adjusted as necessary to accommodate the timely completion of discussion relevant to the assessment process. Such adjustments may result in the meeting being extended from, or completed prior to the time established by this notice.

SUPPLEMENTARY INFORMATION: The Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils, in conjunction with NOAA Fisheries and the Atlantic and Gulf States Marine Fisheries Commissions

have implemented the Southeast Data, Assessment and Review (SEDAR) process, a multi-step method for determining the status of fish stocks in the Southeast Region. SEDAR is a three-step process including: (1) Data Workshop, (2) Assessment Process utilizing webinars and workshops (3) Review Workshop. The product of the Data Workshop is a data report which compiles and evaluates potential datasets and recommends which datasets are appropriate for assessment analyses. The product of the Assessment Process is a stock assessment report which describes the fisheries, evaluates the status of the stock, estimates biological benchmarks, projects future population conditions, and recommends research and monitoring needs. The

assessment is independently peer reviewed at the Review Workshop. The product of the Review Workshop is a Summary documenting Panel opinions regarding the strengths and weaknesses of the stock assessment and input data. Participants for SEDAR Workshops are appointed by the Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils and NOAA Fisheries Southeast Regional Office, HMS Management Division, and Southeast Fisheries Science Center. Participants include data collectors and database managers; stock assessment scientists, biologists, and researchers; constituency representatives including fishermen, environmentalists, and NGOs; International experts; and staff of

Councils, Commissions, and state and Federal agencies.

SEDAR 25 'pre-Data, post-Assessment' Webinar series:

Using datasets recommended from the Data Workshop, participants from both the data workshop and the assessment workshop will come together for two webinars to provide early modeling advice.

Special Accommodations

These meetings are physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to the Council office (see **ADDRESSES**) at least 10 business days prior to the meeting.
