appeals disposed in 2010 from which a national sample can be drawn for the SSCCA. It is estimated that it should take 3 hours for each of the nation's 143 appellate courts to generate an appropriate sample list. The burden hour component regarding case level data collection involves copying the necessary appellate court documentation from three major sources for submission to the data collection agent including (1) the submitted legal briefs, (2) the opinions produced by the courts, and (3) the docketing information. Assuming 35 appeals per court (5,000 appeals/143 courts = 35)appeals) and 10 minutes to copy each legal brief or opinion, the burden hours to copy these paper documents for each court should be about 6 hours for the legal briefs and 6 hours for the opinions (35 appeals * .17 hours per opinion/ brief = 6 hours). In addition to providing copies of legal briefs and opinions, it is estimated that each appellate court will require 3 hours to provide the necessary docketing information.

(6) An Estimate of the Total Public Burden (in hours) Associated with the collection: The estimated public burden associated with this collection is 1,224 hours. The burden hour computation is calculated by identifying those appellate courts that have limited online accessibility necessitating the submission of legal briefs, docketing materials, or court opinions for coding by the data collection agent. No burden hours are associated with collecting data from appellate courts with complete internet accessibility because all data can be obtained online. It is estimated that a total of 795 hours will be needed for the appellate courts with limited internet accessibility to provide the documentation in the form of mailed legal briefs/opinions or docket extracts to complete the SSCCA data collection. The 795 number is calculated by first computing the total burden hours appellate courts need to provide copies of submitted legal briefs (90 courts * 6 hours per court to provide copies of submitted legal briefs = 540 hours); and secondly, by computing the total burden hours for providing data extracts of docketing information (57 courts * 3 hours per court to provide extracts of docketing information = 171 hours); and thirdly, by computing the total burden hours for providing copies of court opinions (14 courts * 6 hours per court to provide copies of court opinions = 84 hours). Hence, 540 hours for providing copies of submitted briefs + 171 hours for providing data extracts of docketing information + 84 hours for providing copies of court opinions = 795 hours.

When the burden hours for sample list generation are added, the total burden hours for the SSCCA project sums to 1,224 hours (795 hours to provide necessary case documentation + 429 hours for sample list generation = 1,224 hours).

(1) Type of information collection: Reinstatement, with change, of a previously approved collection for which approval has expired.

(2) The title of the form/collection: Police Public Contact Survey.

(3) The agency form number, if any, and the applicable component of the Department sponsoring the collection: PPCS-1. Bureau of Justice Statistics, Department of Justice.

(4) Affected public who will be asked or required to respond, as well as a brief abstract: Primary: Eligible individuals must be age 16 or older. Other: None. The Police Public Contact Supplement fulfills the mandate set forth by the Violent Crime Control and Law Enforcement Act of 1994 to collect, evaluate, and publish data on the use of excessive force by law enforcement personnel. The survey will be conducted as a supplement to the National Crime Victimization Survey in

all sample households for a six (6) month period.

The estimated time to complete the control information on the PPCS form, read the introductory statement, and administer the first two contact screener questions to the respondents is approximately 2 minute per person. Furthermore, we estimate that the remaining 18.5 percent of the interviewed persons or 13,400 persons will report a face-to-face contact with the police during the 12 month reference period prior to the date of interview. The time to ask the detailed questions regarding the nature of the contact is estimated to take an average of 10 minutes. Respondents will be asked to respond to this survey only once during the six month period.
