

day (D/th) of natural gas; however, production has declined and the current line usage is approximately four percent of capacity. Gulf South further states that Field Services would use the facilities to transport high Btu-content shale gas being developed in the Eagle Ford shale formation in South Texas. Gulf South also states that its proposed abandonment would not have an adverse effect on Gulf South's current shippers.

Any questions regarding this application should be directed to M. L. Gutierrez, Director, Regulatory Affairs, Gulf South Pipeline Company, LP, 9 Greenway Plaza, Suite 2800, Houston, Texas 77046, or by telephone (713) 215-4015, facsimile (713) 479-1745, or e-mail to Nell.Gutierrez@bwpmlp.com.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date stated below, file with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 14 copies of filings made with the Commission and must mail a copy to the applicant and to every other party in the proceeding. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission.

Environmental commenters will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission's environmental review process. Environmental commenters will not be required to serve copies of filed documents on all other parties. However, the non-party commenters will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

Comments, protests and interventions may be filed electronically via the Internet in lieu of paper. See, 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site under the "e-Filing" link.

BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP11-128-000]

National Fuel Gas Supply Corporation; Notice Application

Take notice that on March 7, 2011, National Fuel Gas Supply Corporation (National Fuel), filed an application in Docket No. CP11-128-000 pursuant to section 7(c) of the Natural Gas Act and Part 157 of the Commission's Regulations, for a certificate of public convenience and necessity to construct and operate its Northern Access Project. National Fuel requests authorization to: (1) Construct a new compressor station in East Aurora, Erie County, New York, (2) make piping changes at the Concord Compressor Station in Erie County, New York to permit bi-directional flow, and (3) install two additional compressor units at its existing Ellisburg Compressor Station in Potter County, Pennsylvania. National Fuel also proposes to upgrade facilities at Rose Lake near Ellisburg, to serve as a new interconnection facility with Tennessee Gas Pipeline Company (Tennessee). In a related application submitted by Tennessee in Docket No. CP11-133-000 on March 9, 2011, National Fuel and Tennessee propose to modify and

upgrade certain facilities on the jointly-owned Niagara Spur Loop Line (NSLL) facilities so that the NSLL can be operated bi-directionally (Station 230C Project). Both proposals will allow for bi-directional firm transportation service of 320,000 Dekatherms per day of natural gas from the Rose Lake interconnect to the facilities of TransCanada PipeLines, Ltd. at Niagara, all as more fully set forth in the applications which are on file with the Commission and open for public inspection. The estimated total cost of the Northern Access Project and the Station 230C Project is \$59,991,948.

Any questions regarding this application should be directed to Antoinetta Mucilli, Senior Attorney for National Fuel, 6363 Main Street, Williamsville, New York 14221, or call at (716) 857-7067.

Pursuant to section 157.9 of the Commission's rules, 18 CFR 157.9, within 90 days of this Notice the Commission staff will either: complete its environmental assessment (EA) and place it into the Commission's public record (eLibrary) for this proceeding; or issue a Notice of Schedule for Environmental Review. If a Notice of Schedule for Environmental Review is issued, it will indicate, among other milestones, the anticipated date for the Commission staff's issuance of the final environmental impact statement (FEIS) or EA for this proposal. The filing of the EA in the Commission's public record for this proceeding or the issuance of a Notice of Schedule for Environmental Review will serve to notify federal and state agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all federal authorizations within 90 days of the date of issuance of the Commission staff's FEIS or EA.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date stated below, file with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 7 copies of filings made with the Commission and must mail a copy to

the applicant and to every other party in the proceeding. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commentors will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission's environmental review process. Environmental commentors will not be required to serve copies of filed documents on all other parties. However, the non-party commentors will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

The Commission strongly encourages electronic filings of comments, protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 7 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov>, using the "eLibrary" link and is available for review in the Commission's Public Reference Room in Washington, DC. There is an "eSubscription" link on the web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please e-mail FERCOnlineSupport@ferc.gov, or call (866) 208-3676 (toll free). For TTY, call (202) 502-8659.

[Docket No. PR11-98-000; Docket No. PR11-99-000; Not Consolidated]

Humble Gas Pipeline Company; Cobra Pipeline Ltd.; Notice of Baseline Filings

Take notice that on March 28, 2011, the applicants listed above submitted a revised baseline filing of their Statement of Operating Conditions for Services provided under section 311 of the Natural Gas Policy Act of 1978 ("NGPA").

Any person desiring to participate in this rate proceeding must file a motion to intervene or to protest this filing in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. Such notices, motions, or protests must be filed on or before the date as indicated below. Anyone filing an intervention or protest must serve a copy of that document on the Applicant. Anyone filing an intervention or protest on or before the intervention or protest date need not serve motions to intervene or protests on persons other than the Applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 7 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov>, using the "eLibrary" link and is available for review in the Commission's Public Reference Room in Washington, DC. BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Project No. 12680-003; Project No. 12711-003]

Ocean Renewable Power Company, LLC; Notice of Change in Docket Number

On July 24, 2009, Ocean Renewable Power Company, LLC (ORPC) filed a draft hydrokinetic pilot license application (DLA) for the proposed Eastport Tidal Energy Project, a proposal that unified two preliminary permits held by ORPC, the Cobscook Bay Tidal Energy Project preliminary permit (P-12711-004) and the Western Passage Tidal Energy Project preliminary permit (P-12680-004). The DLA was assigned a single docket number, P-12680-003, to represent the Eastport Tidal Energy Project pre-filing proceeding. ORPC has since dropped the Western Passage preliminary permit area from its pilot project proposal and is pursuing a pilot project license solely for the Cobscook Bay preliminary permit area. Due to this change in project proposal, ORPC has changed the name of its proposed pilot project from the Eastport Tidal Energy Project to the Cobscook Bay Tidal Energy Project.¹ Due to Western Passage no longer being a part of the pilot project proposal, the docket number P-12680-003 has been closed and the docket number P-12711-003 has been created and assigned to the Cobscook Bay Tidal Energy Project pre-filing proceeding. As part of this change in docket number, all current filings and issuances associated with the Eastport Tidal Energy Project pre-filing proceeding have been cross-referenced with P-12711-003. All future issuances and filings for the Cobscook Bay Tidal Energy Project pre-filing proceeding should solely reference docket number P-12711-003.

¹ ORPC letter filed March 16, 2011.
