Public Comments

We will accept written comments and information during this reopened comment period for the proposed rule to list the dunes sagebrush lizard (*Sceloporus arenicolus*) that was published in the **Federal Register** on December 14, 2010 (75 FR 77801). We intend that any final action resulting from this proposed rule will be based on the best scientific and commercial data available and be as accurate and as effective as possible. Therefore, we

request comments or information from the public, other concerned government agencies, the scientific community, industry, or other interested parties concerning this proposed rule. Verbal testimony or written comments may also be presented during the public hearing. We will consider information and recommendations from all interested parties. We are particularly interested in comments concerning:

- (1) Information on the dunes sagebrush lizard relevant to the factors that are the basis for making a listing determination for a species under section 4(a) of the Endangered Species Act of 1973, as amended (Act) (16 U.S.C. 1531 *et seq.*). These factors are:

- (a) The present or threatened destruction, modification, or curtailment of its habitat or range;
- (b) Overutilization for commercial, recreational, scientific, or educational purposes;

- (c) Disease or predation;
- (d) The inadequacy of existing regulatory mechanisms; or
- (e) Other natural or manmade factors affecting its continued existence.

- (2) Additional information concerning the range, distribution, and population size of this species, including the locations of any additional populations of this species.

- (3) Any information on the biological or ecological requirements of the species.

If you submitted comments or information on the proposed rule (75 FR 77801, December 14, 2010) during the initial comment period from December 14, 2010, to February 14, 2011, please do not resubmit them. We will incorporate them into the public record as part of this comment period, and we will fully consider them in the preparation of our final determination. Our final determination will take into consideration all written comments and any additional information we receive during both comment periods.

You may submit your comments and materials concerning the proposed rule by one of the methods listed in the **ADDRESSES** section.

We will post your entire comment—including your personal identifying information—on <http://www.regulations.gov>. will be available for public inspection on <http://www.regulations.gov> at Docket No. FWS-R2-ES-2010-0041, or by appointment, during normal business hours, at the U.S. Fish and Wildlife Service, New Mexico Ecological Services Field Office (see **FOR FURTHER INFORMATION CONTACT**). You may obtain copies of the proposed rule on the Internet at <http://www.regulations.gov> at Docket Number FWS-R2-ES-2010-0041, or by mail from the New Mexico Ecological Services Field Office (see **FOR FURTHER INFORMATION CONTACT** section).

Background

It is our intent to discuss only those topics directly relevant to the proposed rule to list the dunes sagebrush lizard as endangered in this document.

On December 14, 2010, we published a proposed rule (75 FR 77801) to list the dunes sagebrush lizard, a lizard known from southeastern New Mexico and adjacent west Texas, as endangered under the Act. For a description of previous Federal actions concerning the dunes sagebrush lizard (formerly known as the sand dunes lizard), please refer to the proposed rule. In response to comments received during the initial public comment period, we have decided to allow the public more time to submit comments and to hold informational sessions as described previously.

If we finalize the rule as proposed, it would extend the Act's protections to this species. We have determined that critical habitat for the dunes sagebrush lizard is prudent but not determinable at this time. The final decision on whether to list the dunes sagebrush lizard as endangered will be based on the best scientific data available, including information obtained during the comment period.

Fisheries of the Northeastern United States; Northeast Multispecies Fishery; Notice of a Control Date for the Purpose of Limiting Excessive Accumulation of Control in the Northeast (NE) Multispecies Fishery; NE Multispecies Fishery Management Plan (FMP)

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Advance notice of proposed rulemaking (ANPR); request for comments.

SUMMARY: At the request of the New England Fishery Management Council (Council), this notification announces that the Council and NMFS is considering and seeking public comment on, potential changes to the Northeast Multispecies Fishery Management Plan that would be implemented through proposed rulemaking, under the authority of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act), to limit the accumulation of excessive control or ownership of fishing privileges in the NE multispecies groundfish fishery. The date of publication of this notification, April 7, 2011, shall be known as the "control date," and may be used as a reference date for future management measures related to such rulemaking. In particular this notification is intended to promote awareness of this possible rulemaking; provide notice to the public that any current or future accumulation of fishing privilege interests in the NE multispecies fishery may be affected, restricted, or even nullified; and to discourage speculative behavior in the market for fishing privileges while the Council considers whether and how such limitations on accumulation of fishing privileges should be developed. This notification also gives the public notice that interested participants should locate and preserve records that substantiate and verify their ownership or control of groundfish permits and other fishing privileges in the NE multispecies fishery in Federal waters.

DATES: April 7, 2011, shall be known as the "control date" and may be used as

a reference date for future management measures related to the maintenance of a fishery with characteristics consistent with the Council's objectives and applicable Federal laws. Written comments must be received on or before 5 p.m., local time, May 9, 2011.

ADDRESSES: You may submit comments, identified by RIN 0648-BA88, by any one of the following methods:

- Written comments (paper, disk, or CD-ROM) should be sent to Paul J. Howard, Executive Director, New England Fishery Management Council, 50 Water Street, Mill 2, Newburyport, MA 01950. Mark the outside of the envelope, "Comments on Multispecies Accumulation Limits Control Date."
- Comments also may be sent via facsimile (fax) to (978) 465-3116.

- Submit all electronic public comments via the Federal e-Rulemaking Portal: <http://www.regulations.gov>.

Instructions: Comments will be posted for public viewing as they are received. All comments received are a part of the public record and will generally be posted to <http://www.regulations.gov> without change. All Personal Identifying Information (for example, name, address, etc.) voluntarily submitted by the commenter may be publicly accessible. Do not submit Confidential Business Information or otherwise sensitive or protected information.

SUPPLEMENTARY INFORMATION: The NE Multispecies FMP manages 20 individual stocks comprised of the following species: Cod, haddock, white hake, pollock, Acadian redfish, yellowtail flounder, winter flounder, witch flounder, American plaice, windowpane flounder, Atlantic halibut, ocean pout, and Atlantic wolffish. The Council has managed most of these species as a unit under the FMP since 1985. Many of these stocks remain overfished, and strict regulations have been adopted to control catch and promote stock rebuilding. Current management measures include limited and open-access permit categories, limits on fishing time through days-at-sea (DAS) allocations, gear requirements, closed areas, retention limits, and sector allocation.
