DEPARTMENT OF AGRICULTURE

Submission for OMB Review; Comment Request

April 5, 2011.

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104-13. Comments regarding (a) Whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology should be addressed to: Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), *OIRA_Submission@OMB.EOP.GOV* or fax (202) 395-5806 and to Departmental Clearance Office, USDA, OCIO, Mail Stop 7602, Washington, DC 20250-7602. Comments regarding these information collections are best assured of having their full effect if received within 30 days of this notification. Copies of the submission(s) may be obtained by calling (202) 720-8681.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it

displays a currently valid OMB control number.

Agricultural Marketing Service

Title: Tobacco Reports.

OMB Control Number: 0581-0004.

Summary of Collection: The Tobacco Statistics Act of 1929 (7 U.S.C. 501-508) provides for the collection and publication of statistics of tobacco by USDA with regard to quantity of leaf tobacco in all forms in the United States and Puerto, owned by or in the possession of dealers, manufacturers, growers' cooperative associations, and others with the exception of the original growers of the tobacco. The information furnished under the provisions of this Act shall be used only for statistical purposes for which it is supplied.

Need and Use of the Information: The basic purpose of the information collection is to ascertain the total supply of unmanufactured tobacco available to domestic manufacturers and to calculate the amount consumed in manufactured tobacco products. This data is also used for the calculation of production quotas for individual types of tobacco and for price support calculations. Without the information USDA would not be able to disseminate marketing information as directed and authorized in the Act.

Description of Respondents: Business or other for-profit.

Number of Respondents: 57.

Frequency of Responses: Reporting: Quarterly.

Total Burden Hours: 204.

Agricultural Marketing Service

Title: Regulations Governing the Voluntary Grading of Shell Eggs.

OMB Control Number: 0581-0128.

Summary of Collection: The Agricultural Marketing Act of 1946 (60 Stat. 1087-1091, as amended; 7 U.S.C. 1621-1627) (AMA) directs and authorizes the Department to develop standards of quality, grades, grading programs, and services to enable a more orderly marketing of agricultural products so trading may be facilitated and so consumers may be able to obtain products graded and identified under USDA programs. The Agricultural Marketing Service (AMS) carries out regulations, which provide a voluntary program for grading shell eggs on the basis of U.S. standards, grades, and weight classes. In addition, the shell egg industry and users of the products have requested that other types of voluntary

services be developed and provided under these regulations. This program is voluntary where respondents would need to request or apply for the specific service they wish.

Need and Use of the Information: Only authorized representatives of the USDA use the information collected. The information is used to administer, conduct and carry out the grading services requested by the respondents. If the information were not collected, the agency would not be able to provide the voluntary grading service authorized and requested by congress, provide the types of services requested by industry, administer the program, ensure properly grade-labeled products, calculate the cost of the service or collect for the cost furnishing service.

Description of Respondents: Business or other for profit.

Number of Respondents: 600.

Frequency of Responses: Reporting: On occasion; Semi-annually; Monthly; Annually; Other (daily).

Total Burden Hours: 5,254.

Rural Utilities Service

Title: Public Television Digital Transition Grant Program

OMB Control Number: 0572-0134

Summary of Collection: The Omnibus Appropriations Act (Pub. L. 108-7) provided grant funds in the Distance Learning and Telemedicine Grant Program budget, the Consolidated Appropriations Act (Pub. L. 108-199) and the Consolidated Appropriations Act, 2005 (Pub. L. 108-447) provided additional funds for public broadcasting systems to meet the digital transition. As part of the nation's transition to digital television, the Federal Communications Commission (FCC) required all television broadcasters to initiate the broadcast of a digital television signal and to cease analog television broadcasts on February 18, 2009. While stations must broadcast its main transmitter signal in digital, many rural stations often have translators serving small or isolated areas and some of these have not completed the transition to digital or fully converted its production and studio equipment to digital. Because the FCC deadline did not apply to translators, they are allowed to continue broadcasting in analog. The digital transition also created some service gaps where households receiving an analog signal cannot receive a digital signal. For these reasons the grant program has continued past the FCC digital transition deadline of June 2009. The Rural Utilities Service (RUS) will develop and issue requirements for the grant program to finance the conversion of television

services from analog to digital broadcasting for public television stations serving rural areas.

Need and Use of the Information: Applicants will submit grant applications to RUS for review. The information will consist of the following: Standard Form (SF) 424, "Application for Federal Assistance, executive summary, evidence of eligibility and compliance with other Federal statutes and any other supporting documentation. RUS will use the information to score and rank applications for funding. Scoring will consist of three categories: Rurality; per capita income; and special disadvantaging factors facing the station's transition plans. If this information is not collected, there would be no basis for awarding grant funding.

Description of Respondents: Not-for-profit institutions; State, Local or Tribal Government

Number of Respondents: 40

Frequency of Responses: Reporting; On occasion

Total Burden Hours: 950

Food Safety and Inspection Service

[Docket No. FSIS-2005-0044]

Not Applying the Mark of Inspection Pending Certain Test Results

AGENCY: Food Safety and Inspection Service, USDA.

ACTION: Notice; Request for comment.

SUMMARY: The Food Safety and Inspection Service (FSIS) is announcing its intention to change its procedures and withhold a determination as to whether meat and poultry products are not adulterated, and thus eligible to enter commerce, until all test results that bear on the determination have been received. Inspection program personnel periodically sample products for adulterants to verify an establishment's regulatory compliance. The Agency's practice has been to allow these products to bear the mark of inspection, and to enter commerce, even though the test results have not been received. FSIS has asked, but has not required, official establishments to maintain control of products represented by a sample pending test results.
