Comments regarding these information collections are best assured of having their full effect if received within 30 days of this notification. Copies of the submission(s) may be obtained by calling (202) 720-8681.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

Rural Utilities Service

Title: Public Television Digital Transition Grant Program

OMB Control Number: 0572-0134

Summary of Collection: The Omnibus Appropriations Act (Pub. L. 108-7) provided grant funds in the Distance Learning and Telemedicine Grant Program budget, the Consolidated Appropriations Act (Pub. L. 108-199) and the Consolidated Appropriations Act, 2005 (Pub. L. 108-447) provided additional funds for public broadcasting systems to meet the digital transition. As part of the nation's transition to digital television, the Federal Communications Commission (FCC) required all television broadcasters to initiate the broadcast of a digital television signal and to cease analog television broadcasts on February 18, 2009. While stations must broadcast its main transmitter signal in digital, many rural stations often have translators serving small or isolated areas and some of these have not completed the transition to digital or fully converted its production and studio equipment to digital. Because the FCC deadline did not apply to translators, they are allowed to continue broadcasting in analog. The digital transition also created some service gaps where households receiving an analog signal cannot receive a digital signal. For these reasons the grant program has continued past the FCC digital transition deadline of June 2009. The Rural Utilities Service (RUS) will develop and issue requirements for the grant program to finance the conversion of television

services from analog to digital broadcasting for public television stations serving rural areas.

Need and Use of the Information: Applicants will submit grant applications to RUS for review. The information will consist of the following: Standard Form (SF) 424, "Application for Federal Assistance, executive summary, evidence of eligibility and compliance with other Federal statutes and any other supporting documentation. RUS will use the information to score and rank applications for funding. Scoring will consist of three categories: Rurality; per capita income; and special disadvantaging factors facing the station's transition plans. If this information is not collected, there would be no basis for awarding grant funding.

Description of Respondents: Not-for-profit institutions; State, Local or Tribal Government

Number of Respondents: 40

Frequency of Responses: Reporting: On occasion

Total Burden Hours: 950

Charlene Parker,

Departmental Information Collection Clearance Officer.

Food Safety and Inspection Service

[Docket No. FSIS-2005-0044]

Not Applying the Mark of Inspection Pending Certain Test Results

AGENCY: Food Safety and Inspection Service, USDA.

ACTION: Notice; Request for comment.

SUMMARY: The Food Safety and Inspection Service (FSIS) is announcing its intention to change its procedures and withhold a determination as to whether meat and poultry products are not adulterated, and thus eligible to enter commerce, until all test results that bear on the determination have been received. Inspection program personnel periodically sample products for adulterants to verify an establishment's regulatory compliance. The Agency's practice has been to allow these products to bear the mark of inspection, and to enter commerce, even though the test results have not been received. FSIS has asked, but has not required, official establishments to maintain control of products represented by a sample pending test results.

Because establishments, including official import inspection
