

special grants established by the 2009 American Recovery and Reinvestment Act (ARRA) including Tax Credit Assistance Program (TCAP), Community Development Block Grant-Recovery (CDBG-R), and Homelessness Prevention & Rapid Re-housing Program (HPRP). All of these grants programs have review requirements that must be met. Collecting the information is necessary to determine if each program's money was spent on eligible activities as well as verify that grantees are complying with all the statutory and regulatory provisions in the use of the grants funds.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Grantees have access only to information for their own grant funded activities. They report to HUD on the activities on which grant funds are used, draw program funds, and report on activity accomplishments. HUD staff has access to information for all grantees for which they are responsible. HUD staff access the system for the purposes of monitoring grantee performance and to help determine what activities should be reviewed via on-site monitoring visits.

STORAGE:

Electronic files are stored on servers located at an offsite, contractor owned and operated data center (HITS Contract). Data is backed up to a secure off site disaster recovery facility (HITS Contract).

RETRIEVABILITY:

Information is retrieved by activity. The personal information is stored as accomplishment information for an activity.

SAFEGUARDS:

Electronic records are maintained in a secured computer network behind a firewall. Access to records is limited to authorized personnel. Personable Identifiable Information (PII) does not appear on any generated reports. CPD staff review all information before responding to FOIA request to verify that Personable Identifiable Information (PII) is not being released. If the Department suspects or has confirmed that the security or confidentiality of information in the system of records has been compromised; or if the Department has determined that as a result of the suspected or confirmed compromise there is a risk of harm to economic or property interests, identity theft or fraud, or harm to the security or integrity of this system, then the disclosure made to such agencies,

entities, and persons is reasonably necessary to assist in connection with the HUD's efforts to respond to the suspected or confirmed compromise and prevent, minimize, or remedy such harm.
