SUPPLEMENTARY INFORMATION: On March 23, 2010, the President signed into law the Affordable Care Act (ACA), Public Law 111-148. ACA is designed to improve and expand the scope of health care coverage for Americans. Cost savings through disease prevention is an important element of this legislation and ACA has established a Prevention and Public Health Fund (PPHF) for this purpose. Specifically, the legislation states in Section 4002 that the PPHF is to "provide for expanded and sustained national investment in prevention and public health programs to improve health and help restrain the rate of growth in private and public sector health care costs." In addition, under Section 5314, Fellowship training in public health (Part E of title VII of the Public Health Service Act (42 U.S.C. 294n *et seq.*, as amended by section 5206, is further amended by Sec. 778), CDC is authorized to expand existing fellowship training programs in the critical areas of applied public health epidemiology, public health laboratory science and public health informatics. Supplemental ACA funding, as referenced in this notice, will enhance the work of national, state and local public health laboratories in the U.S. through expansion of the Emerging Infectious Diseases (EID) Laboratory Fellowship Program. The EID Fellowship, sponsored by the

Association of Public Health Laboratories (APHL) and CDC and funded through a cooperative agreement with APHL, trains and prepares scientists for careers in public health laboratories and supports public health initiatives related to infectious disease research. The program aims to promote quality public health laboratory practice, improve public health laboratory infrastructure, strengthen the public health laboratory system, and develop a well-trained public health laboratory workforce. Activities that promote the development of a well-trained public health laboratory workforce are outlined in section 10 of the cooperative agreement. Therefore, the programmatic activities CDC proposes to support with these ACA funds are consistent with the intent of the Affordable Care Act and Prevention and Public Health Fund (PPHF), Section 4002.
