SUPPLEMENTARY INFORMATION:

Oglethorpe proposes to own, operate, and maintain the Proposal in Warren County, Georgia. The purpose of the Proposal is to provide a reliable, long-term supply of renewable and sustainable energy at a reasonable cost to meet part of the electric energy needs of Oglethorpe's members. Three alternatives are evaluated in detail in the Draft EIS; the no action alternative, and the proposed action at two different locations: Warren County (the Proposal) and Appling County (the Alternate). Alternatives were evaluated in terms of cost-effectiveness, technical feasibility, and environmental factors. The Draft EIS evaluated and eliminated from detailed consideration 8 alternatives for renewable generation, one other generation alternative, demand side management, three alternative sites, two alternatives for cooling, and two alternatives for water supply.

The Proposal would be constructed on an approximately 343-acre site located three-fourths mile east of the city limit of Warrenton. The tallest structure would be the stack, with a maximum estimated height of approximately 220 feet. The construction schedule of the Proposal is currently unknown.

A Notice of Intent to Prepare an EIS and Hold a Scoping Meeting was published in the **Federal Register** at 74 FR 30520, on June 26, 2009, and local newspapers. The scoping meeting for the EIS was held in the project area on July 9, 2009, and public comments were accepted from June 26, 2009, through

July 27, 2009. RUS issued a Scoping Report in March 2010.

In accordance with Section 106 of the National Historic Preservation Act and its implementing regulation, "Protection of Historic Properties" (36 CFR part 800) and as part of its broad environmental review process, RUS must take into account the effect of the proposal on historic properties Pursuant to 36 CFR 800.2(d)(3), RUS is using its procedures for public involvement under NEPA to meet its' responsibilities to solicit and consider the views of the public during Section 106 review. Any party wishing to participate more directly with RUS as a "consulting party" in Section 106 review may submit a written request to the RUS contact provided in this notice. Subsequent to a 30-day public review period of the Final EIS and resolution of any additional comments, RUS will then issue and publish a Record of Decision.

Because the Proposal may involve impacts to wetlands, this Notice of Availability also serves as a notice of potential impacts to wetlands. In accordance with Executive Order 11990, the Draft EIS includes a wetland assessment and statement of no practicable alternatives to proposed impacts to wetlands.

Any final action by RUS related to the proposal will be subject to, and contingent upon, compliance with all relevant Federal, State and local environmental laws and regulations, and completion of the environmental review requirements as promulgated in RUS' Environmental Policies and Procedures (7 CFR part 1794).

DEPARTMENT OF COMMERCE

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).
 Title: Reporting of Sea Turtle Entanglements in Fixed Gear Fisheries.
 OMB Control Number: 0648-0496.
 Form Number(s): NA.

Type of Request: Regular submission (extension of a current information collection with revisions).

Number of Respondents: 59.

Average Hours per Response:

Telephone calls and written reports, 1 hour; interviews, 30 minutes.

Burden Hours: 99.

Needs and Uses: This notice is for extension, with revisions, of a current information collection.

This collection of information involves sea turtles becoming accidentally entangled in active or discarded fixed fishing gear or marine debris. These entanglements may prevent the recovery of endangered and threatened sea turtle populations. National Marine Fisheries Service (NMFS) Northeast Region (Maine to Virginia) has established the Sea Turtle Disentanglement Network to promote reporting and increase successful disentanglement of sea turtles. This Network is made up of sea turtle stranding network organizations, as well as federal, state, and municipal agencies. NMFS relies on the Network and on opportunistic reports from fishermen and recreational boaters for information about entangled turtles. The information provided will help NMFS better assess the threat of sea turtle entanglement in vertical line from fixed gear fisheries (lobster, whelk/conch, crab, fish trap, gill net), discarded gear and marine debris. Our understanding of the prevalence and nature of sea turtle entanglement in fixed gear fisheries is necessary to ensure sea turtles are being conserved and protected, as mandated by the Endangered Species Act of 1973, as amended (ESA).

Affected Public: Individuals or households; not for profit institutions.

Frequency: On occasion.

Respondent's Obligation: Voluntary.

OMB Desk Officer:

OIRA_Submission@omb.eop.gov.

Copies of the above information collection proposal can be obtained by calling or writing Diana Hynek, Departmental Paperwork Clearance Officer, (202) 482-0266, Department of Commerce, Room 6616, 14th and Constitution Avenue, NW., Washington, DC 20230 (or via the Internet at dHynek@doc.gov).

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this

notice to

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: Alaska Region Bering Sea & Aleutian Islands (BSAI) Crab Economic Data Reports.

OMB Control Number: 0648-0518.

Form Number(s): NA.

Type of Request: Regular submission (renewal with revisions of a current information collection).

Number of Respondents: 132.

Average Hours per Response: Catcher vessel and catcher/processor economic data reports (EDRs), 37 hours; stationary floating processor and shoreside processor EDRs, 48 hours; EDR certifications only, 1 hour; verification of data, 8 hours.

Burden Hours: 4,534.

Needs and Uses: The National Marine Fisheries Service (NMFS) manages the crab fisheries in the waters off the coast of Alaska under the Fishery Management Plan (FMP) for the Bering Sea and Aleutian Islands (BSAI) Crab. The Magnuson-Stevens Fishery Conservation and Management Act, 16 U.S.C. 1801 *et seq.* (Magnuson-Stevens Act) mandated the Secretary of Commerce to implement the Crab Rationalization Program (CR Program) for the BSAI Management Area (BSAI) crab fisheries. The CR Program allocates BSAI crab resources among harvesters, processors, and coastal communities and monitors the "economic stability for harvesters, processors, and coastal communities." The Magnuson-Stevens Act provides specific guidance on the CR Program's mandatory EDR used to assess the efficacy of the CR Program. Data from the EDR will directly contribute to ongoing evaluation of potential anti-trust and anti-competitive practices in the crab industry.

Affected Public: Business or other for-profit organizations.

Frequency: Annually.
