

board of directors (including a majority of the directors who are not interested persons of the fund) finds to be not material. Accordingly, we estimate that annually there will be no transactions under rule 17d-1 that will result in this aspect of the collection of information.

Based on these calculations, the total annual hour burden is estimated to be 1,232 hours and the total annual cost burden is estimated to be \$745,048.

The estimate of average burden hours is made solely for the purposes of the Paperwork Reduction Act. The estimate is not derived from a comprehensive or even a representative survey or study of the costs of Commission rules. Complying with these collections of information requirements is necessary to obtain the benefit of relying on rule 17d-1. Responses will not be kept confidential. SECURITIES AND EXCHANGE COMMISSION

Submission for OMB Review; Comment Request

Upon Written Request, Copies Available From: U.S. Securities and Exchange Commission, Office of Investor Education and Advocacy, Washington, DC 20549-0213.

Extension:

Rule 104; SEC File No. 270-411; OMB Control No. 3235-0465.

Notice is hereby given that pursuant to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), the Securities and Exchange Commission ("Commission") has submitted to the Office of Management and Budget ("OMB") a request for approval of extension of the existing collection of information provided for in the following rule: Rule 104 of Regulation M (17 CFR 242.104).

Rule 104 permits stabilizing by a distribution participant during a distribution so long as the distribution participant discloses information to the market and investors. This rule requires disclosure in offering materials of the potential stabilizing transactions and that the distribution participant inform the market when a stabilizing bid is made. It also requires the distribution participants (*i.e.* the syndicate manager) to maintain information regarding syndicate covering transactions and penalty bids.

There are approximately 745 respondents per year that require an aggregate total of 149 hours to comply with this rule. Each respondent makes an estimated 1 annual response. Each response takes approximately 0.20 hours (12 minutes) to complete. Thus, the total compliance burden per year is 149 burden hours. The total internal labor compliance cost for the respondents is approximately \$9,983.00, resulting in an estimate of \$13.40 (*i.e.*, \$9,983.00/745 responses) per response.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid control number. Background documentation for this information collection may be viewed at the following link, <http://www.reginfo.gov>.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-64292; File No. SR-ISE-2011-22]

Self-Regulatory Organizations; International Securities Exchange, LLC; Notice of Filing and Immediate Effectiveness of Proposed Rule Change Relating to Network Fees

April 11, 2011.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (the "Act"),¹ and Rule 19b-4 thereunder,² notice is hereby given that on April 7, 2011, the International Securities Exchange, LLC (the "Exchange" or the "ISE") filed with the Securities and Exchange Commission the proposed rule change, as described in Items I, II, and III below, which items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The ISE is proposing to adopt fees for a 10 Gigabit network connection. The text of the proposed rule change is available on the Exchange's Web site (<http://www.ise.com>), at the principal office of the Exchange, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The self-regulatory organization has prepared summaries, set forth in sections A, B and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The purpose of this proposed rule change is to amend the Exchange's Schedule of Fees to adopt fees for a 10 Gigabit (GB) network connection. The Exchange currently has a tiered

¹ 15 U.S.C. 78s(b)(1).

² 17 CFR 240.19b-4.

structure for the Ethernet/Managed Service Provider fee charged to Members. The Ethernet/Managed Service Provider fee is a fee charged to ISE Members to access the ISE's trading system via an Ethernet connection or via a third-party managed service provider. The Ethernet/Managed Service Provider connection carries the same information (such as quotation and trade information) as other forms of connection (such as T-1 and T-3 point-to-point connections).

An Ethernet/Managed Service Provider connection enables users to acquire bandwidth in megabit increments. The Exchange currently charges Members \$100 per month for a member's purchase of up to 10 Megabits (MBs) of connection speed, \$250 per month for the purchase of 11-100 MBs of connection speed and \$500 per month for the purchase of 101 MBs—1 GB of connection speed. These fees are charged on a per connection basis.

The Exchange is scheduled to launch an enhanced trading platform called Optimise on April 11, 2011. Upon transitioning to the Optimise trading platform, ISE will offer a new network connectivity option for Members. One of the many perceived advantages that the Optimise trading platform will offer is greatly improved capacity and throughput. To allow Members to maximize Optimise's low latency, ISE will offer a connectivity option of 10 GBs. ISE proposes to charge Members a fee of \$4,000 per month for this 10 GB connection. ISE will retain the current Ethernet connectivity options that are available to Members today.

Once Optimise is rolled out, and until the Exchange has fully transitioned from the current trading platform to the Optimise trading platform, market makers will be required to maintain connections to both trading systems. Therefore, ISE proposes to waive the new 10 GB fee for all members until the migration is entirely completed. The Exchange notes that the fees proposed herein are intended to cover and are reasonably related to ISE's costs of rolling out and supporting the new service.

The Exchange has designated this proposal to be operative on April 11, 2011.

2. Statutory Basis

The Exchange believes that the proposed rule change is consistent with the provisions of Section 6 of the Act,³ in general, and with Section 6(b)(4) of the Act,⁴ in particular, in that it

provides for the equitable allocation of reasonable dues, fees and other charges among Exchange members and other persons using its facilities. In particular, the proposed rule change will provide greater transparency into the connectivity options available to market participants. The proposed rule change treats similarly situated Members in the same manner by assessing the same fees to all Members based on their connectivity needs. The Exchange notes that the 10 GB connectivity option proposed herein is similar to that currently in place at other exchanges. For example, NASDAQ OMX PHLX, Inc. ("PHLX"), NASDAQ OMX BX, Inc. ("BX") and the NASDAQ Stock Market LLC ("NASDAQ") each offer a 10GB network connection option to their members, albeit at a higher cost than that proposed by ISE.⁵

B. Self-Regulatory Organization's Statement on Burden on Competition

The proposed rule change does not impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

The Exchange has not solicited, and does not intend to solicit, comments on this proposed rule change. The Exchange has not received any unsolicited written comments from members or other interested parties.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A)(ii) of the Act.⁶ At any time within 60 days of the filing of such proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

⁵ See Exchange Act Release Nos. 62639 (August 4, 2010), 75 FR 48391 (August 10, 2010) (SR-PHLX-2010-89); 62969 (September 22, 2010), 75 FR 59777 (September 28, 2010) (SR-BX-2010-064); and 62663 (August 9, 2010), 75 FR 49543 (August 13, 2010) (SR-NASDAQ-2010-077). PHLX, BX and NASDAQ each charges \$5,000 per month for a 10 GB connection.

⁶ 15 U.S.C. 78s(b)(3)(A)(ii).

Section 404(d)(3) of the Uruguay Round Agreements Act (19 U.S.C. 3601(d)(3)) authorizes the President to allocate the in-quota quantity of a TRQ for any agricultural product among supplying countries or customs areas. The President delegated this authority to the United States Trade Representative under Presidential Proclamation 6763 (60 FR 1007).

On April 11, 2011, The Secretary of Agriculture announced an additional in-quota quantity of the TRQ for raw cane sugar for the remainder of FY 2011 (ending September 30, 2011) in the amount of 294,835 metric tons, raw value (MTRV). This quantity is in addition to the minimum amount to

These allocations are based on the countries' historical shipments to the United States. The allocations of the raw cane sugar TRQ to countries that are net importers of sugar are conditioned on receipt of the appropriate verifications of origin and certificates for quota eligibility must accompany imports from any country for which an allocation has been provided.

Conversion factor: 1 metric ton = 1.10231125 short tons.
