

### Export-Price Sales

With respect to EP sales, for these preliminary results, we divided the total dumping margins (calculated as the difference between normal value and EP) for each examined exporter's importer or customer by the total number of units the exporter sold to that importer or customer. We will direct CBP to assess the resulting per-unit dollar amount against each unit of merchandise in each of that importer's/customer's entries under the relevant order during the review period.

### Constructed Export-Price Sales

For CEP sales (sampled and non-sampled), we divided the total dumping margins for the reviewed sales by the total entered value of those reviewed sales for each importer. We will direct CBP to assess the resulting percentage margin against the entered customs values for the subject merchandise on each of that importer's entries under the relevant order during the review period. See 19 CFR 351.212(b).

### Cash-Deposit Requirements

The following deposit requirements will be effective upon publication of the notice of final results of administrative reviews for all shipments of subject merchandise entered, or withdrawn from warehouse, for consumption on or after the date of publication, as provided by section 751(a)(1) of the Act: (1) The cash-deposit rates for the reviewed companies will be the rates established in the final results of the reviews; (2) for previously reviewed or investigated companies not listed above, the cash-deposit rate will continue to be the company-specific rate published for the most recent period; (3) if the exporter is not a firm covered in these reviews, a prior review, or the less-than-fair-value investigations but the manufacturer is, the cash-deposit rate will be the rate established for the most recent period for the manufacturer of the merchandise; (4) the cash-deposit rate for all other manufacturers or exporters will continue to be the all-others rate for the relevant order made effective by the final results of reviews published on July 26, 1993. See *Final Results of Antidumping Duty Administrative Reviews and Revocation in Part of an Antidumping Duty Order*, 58 FR 39729 (July 26, 1993). For ball bearings from Italy, see *Antifriction Bearings (Other Than Tapered Roller Bearings) and Parts Thereof From France, et al.; Final Results of Antidumping Duty Administrative Reviews and Partial Termination of Administrative Reviews*, 61 FR 66472, 66521 (December 17,

1996). These rates are the all-others rates from the relevant less-than-fair-value investigations. These deposit requirements, when imposed, shall remain in effect until further notice.

### Notification to Importers

This notice also serves as a preliminary reminder to importers of their responsibility under 19 CFR 351.402(f) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Department's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of doubled antidumping duties.

These preliminary results of administrative reviews and preliminary results of changed-circumstances review are issued and published in accordance with sections 751(a)(1), 751(b)(1), and 777(i)(1) of the Act.

Dated: April 14, 2011.

**Ronald K. Lorentzen,**

*Deputy Assistant Secretary for Import Administration.*

### National Institute of Standards and Technology

#### National Fire Codes: Request for Comments on NFPA Technical Committee Reports

**AGENCY:** National Institute of Standards and Technology, Commerce.

**ACTION:** Notice.

**SUMMARY:** The National Institute of Standards and Technology (NIST) is publishing this notice on behalf of the National Fire Protection Association (NFPA) to announce the availability of and request comments on the technical reports that will be presented at NFPA's 2012 Annual Revision Cycle.

**DATES:** Thirty-eight reports are published in the 2012 Annual Cycle Report on Proposals and will be available on June 24, 2011. Comments received by 5 p.m. EST/EDST on or before August 30, 2011 will be considered by the respective NFPA Committees before final action is taken on the proposals.

**ADDRESSES:** The 2012 Annual Revision Cycle Report on Proposals is available and downloadable from NFPA's Web site—<http://www.nfpa.org>, or by requesting a copy from the NFPA,

Fulfillment Center, 11 Tracy Drive, Avon, Massachusetts 02322. Comments on the report should be submitted to Amy Beasley Cronin, Secretary, Standards Council, NFPA, 1 Batterymarch Park, Quincy, Massachusetts 02169-7471.

#### FOR FURTHER INFORMATION CONTACT:

Amy Beasley Cronin, Secretary, Standards Council, NFPA, 1 Batterymarch Park, Quincy, Massachusetts 02169-7471, (617) 770-3000.

#### SUPPLEMENTARY INFORMATION:

Since 1896, the National Fire Protection Association (NFPA) has accomplished its mission by advocating scientifically based consensus codes and standards, research, and education for safety related issues. NFPA's *National Fire Codes*®, which holds over 290 documents, are administered by more than 238 Technical Committees comprised of approximately 7,200 volunteers and are adopted and used throughout the world. NFPA is a nonprofit membership organization with approximately 80,000 members from over 70 nations, all working together to fulfill the Association's mission.

The NFPA process provides ample opportunity for public participation in the development of its codes and standards. All NFPA codes and standards are revised and updated every three to five years in Revision Cycles that begin twice each year and that take approximately two years to complete. Each Revision Cycle proceeds according to a published schedule that includes final dates for all major events in the process. The code revision Process contains five basic steps that are followed for developing new documents as well as revising existing documents: Call for Proposals; Report on Proposals (ROP); Call for Comments on the Committee's disposition of the Proposals and publication of these Comments in the Report on Comments (ROC); the Association Technical Meeting at the NFPA Conference & Expo; and finally, the Standards Council Consideration and Issuance of documents.

**NOTE:** NFPA rules state that, anyone wishing to make Amending Motions on the Technical Committee Reports (ROP and ROC) must signal his or her intention by submitting a Notice of Intent to Make a Motion by the Deadline of 5 p.m. EST/EDST on or before April 6, 2012. Certified motions will be posted by May 4, 2012. Documents that receive notice of proper Amending Motions (Certified Amending Motions) will be presented for action at the Annual 2012

Association Technical Meeting. Documents that receive no motions will be forwarded directly to the Standards Council for action on issuance at its May 29, 2012 meeting.

For more information on these new rules and for up-to-date information on schedules and deadlines for processing NFPA Documents, check the NFPA Web site at <http://www.nfpa.org>, or contact NFPA Codes and Standards Administration.

The purpose of this notice is to request comments on the technical reports that will be presented at NFPA's 2012 Annual Revision Cycle. The publication of this notice by the National Institute of Standards and Technology (NIST) on behalf of NFPA is being undertaken as a public service; NIST does not necessarily endorse, approve, or recommend any of the standards referenced in the notice.

**Background**

The National Fire Protection Association (NFPA) develops building, fire, and electrical safety codes and standards. Federal agencies frequently use these codes and standards as the basis for developing Federal regulations concerning fire safety. Often, the Office of the Federal Register approves the incorporation by reference of these standards under 5 U.S.C. 552(a) and 1 CFR part 51.

**Request for Comments**

Interested persons may participate in these revisions by submitting written data, views, or arguments, to Amy Beasley Cronin, Secretary, Standards Council, NFPA, 1 Batterymarch Park, Quincy, Massachusetts 02169-7471. Commenters may use the forms provided for comments in the Reports on Proposals. Each person submitting a comment should include his or her name and address, identify the notice, and give reasons for any

recommendations. Comments received by 5 p.m. EST/EDST on or before August 30, 2011 for the 2012 Annual Cycle Report on Proposals will be considered by the NFPA before final action is taken on the proposals.

Copies of all written comments received and the disposition of those comments by the NFPA committees will be published as the 2012 Annual Cycle Report on Comments by February 24, 2012. A copy of the Report on Comments will be sent automatically to each commenter. Reports of the Technical Committees on documents that do not receive a Notice of Intent to Make a Motion will automatically be forwarded to the Standards Council for action on issuance. Action on the reports of the Technical Committees on documents that do receive a Notice of Intent to Make a Motion will be taken at the Association Technical Meeting, which is held at the NFPA Conference & Expo, June 4-7, 2012 in Las Vegas, Nevada, by the NFPA membership.

2012 ANNUAL MEETING—REPORT ON PROPOSALS

NFPA 13	Standard for the Installation of Sprinkler Systems	P
NFPA 13D	Standard for the Installation of Sprinkler Systems in One- and Two-Family Dwellings and Manufactured Homes	P
NFPA 13R	Standard for the Installation of Sprinkler Systems in Residential Occupancies up to and Including Four Stories in Height	P
NFPA 20	Standard for the Installation of Stationary Pumps for Fire Protection	P
NFPA 24	Standard for the Installation of Private Fire Service Mains and Their Appurtenances	P
NFPA 51	Standard for the Design and Installation of Oxygen-Fuel Gas Systems for Welding, Cutting, and Allied Processes	P
NFPA 55	Compressed Gases and Cryogenic Fluids Code	P
NFPA 61	Standard for the Prevention of Fires and Dust Explosions in Agricultural and Food Processing Facilities	P
NFPA 68	Standard on Explosion Protection by Deflagration Venting	P
NFPA 72	National Fire Alarm and Signaling Code	P
NFPA 80	Standard for Fire Doors and Other Opening Protectives	P
NFPA 101A	Guide on Alternative Approaches to Life Safety	P
NFPA 105	Standard for the Installation of Smoke Door Assemblies and Other Opening Protectives	P
NFPA 110	Standard for Emergency and Standby Power Systems	P
NFPA 111	Standard on Stored Electrical Energy Emergency and Standby Power Systems	P
NFPA 291	Recommended Practice for Fire Flow Testing and Marking of Hydrants	P
NFPA 301	Code for Safety to Life from Fire on Merchant Vessels	P
NFPA 400	Hazardous Materials Code	P
NFPA 402	Guide for Aircraft Rescue and Fire-Fighting Operations	P
NFPA 415	Standard on Airport Terminal Buildings, Fueling Ramp Drainage, and Loading Walkways	P
NFPA 424	Guide for Airport/Community Emergency Planning	P
NFPA 450	Guide for Emergency Medical Services and Systems	P
NFPA 472	Standard for Competence of Responders to Hazardous Materials/Weapons of Mass Destruction Incidents	P
NFPA 473	Standard for Competencies for EMS Personnel Responding to Hazardous Materials/Weapons of Mass Destruction Incidents	P
NFPA 555	Guide on Methods for Evaluating Potential for Room Flashover	P
NFPA 654	Standard for the Prevention of Fire and Dust Explosions from the Manufacturing, Processing, and Handling of Combustible Particulate Solids	P
NFPA 1001	Standard for Fire Fighter Professional Qualifications	P
NFPA 1122	Code for Model Rocketry	P
NFPA 1124	Code for the Manufacture, Transportation, Storage, and Retail Sales of Fireworks and Pyrotechnic Articles	P
NFPA 1127	Code for High Power Rocketry	P
NFPA 1128DS	Draft Standard for Standard Method of Fire Test for Flame Breaks	N
NFPA 1129DS	Draft Standard for Standard Method of Fire Test for Covered Fuse on Consumer Fireworks	N
NFPA 1144	Standard for Reducing Structure Ignition Hazards from Wildland Fire	P
NFPA 1221	Standard for the Installation, Maintenance, and Use of Emergency Services Communications Systems	P
NFPA 1500	Standard on Fire Department Occupational Safety and Health Program	P
NFPA 1582	Standard on Comprehensive Occupational Medical Program for Fire Departments	P
NFPA 1801	Standard on Thermal Imagers for the Fire Service	P
NFPA 1917	Standard for Automotive Ambulance	N

P = Partial revision; W = Withdrawals; R = Reconfirmation; N = New; C = Complete revision.

Dated: March 28, 2011.

## DEPARTMENT OF COMMERCE

### National Institute of Standards and Technology

#### National Fire Codes: Request for Proposals for Revision of Codes and Standards

**AGENCY:** National Institute of Standards and Technology, Commerce.

**ACTION:** Notice.

**SUMMARY:** The National Institute of Standards and Technology (NIST) is publishing this notice on behalf of the National Fire Protection Association (NFPA) to announce the NFPA's proposal to revise some of its fire safety codes and standards and requests proposals from the public to amend existing or begin the process of developing new NFPA fire safety codes and standards. The purpose of this request is to increase public participation in the system used by NFPA to develop its codes and standards.

**DATES:** Interested persons may submit proposals by 5 p.m. EST/EDST on or before the date listed with the code or standard.

**ADDRESSES:** Amy Beasley Cronin, Secretary, Standards Council, NFPA, 1 Batterymarch Park, Quincy, Massachusetts 02169-7471.

**FOR FURTHER INFORMATION CONTACT:** Amy Beasley Cronin, Secretary, Standards Council, at above address, (617) 770-3000.

**SUPPLEMENTARY INFORMATION:** The National Fire Protection Association (NFPA) proposes to revise some of its fire safety codes and standards and requests proposals from the public to amend existing or begin the process of developing new NFPA fire safety codes and standards. The purpose of this request is to increase public participation in the system used by NFPA to develop its codes and standards. The publication of this notice of request for proposals by the National Institute of Standards and Technology (NIST) on behalf of NFPA is being undertaken as a public service; NIST does not necessarily endorse, approve, or recommend any of the standards referenced in the notice.

The NFPA process provides ample opportunity for public participation in

the development of its codes and standards. All NFPA codes and standards are revised and updated every three to five years in Revision Cycles that begin twice each year and take approximately two years to complete. Each Revision Cycle proceeds according to a published schedule that includes final dates for all major events in the process. The code revision Process contains five basic steps that are followed for developing new documents as well as revising existing documents: Call for Proposals; Report on Proposals (ROP); Call for Comments on the Committee's disposition of the Proposals, and publication of these Comments in the Report on Comments (ROC); the Association Technical Meeting at the NFPA Conference & Expo; and finally, the Standards Council Consideration and Issuance of documents.

**Note:** NFPA rules state that, anyone wishing to make Amending Motions on the Technical Committee Reports (ROP and ROC) must signal his or her intention by submitting a Notice of Intent to Make a Motion by 5 p.m. EST/EDST of the Deadline stated in the ROC. Certified motions will then be posted on the NFPA Web site. Documents that receive notice of proper Amending Motions (Certified Amending Motions) will be presented for action at the Association Technical Meeting at the NFPA Conference & Expo. Documents that receive no motions will be forwarded directly to the Standards Council for action on issuance.

For more information on these rules and for up-to-date information on schedules and deadlines for processing NFPA Codes and Standards, check the NFPA Web site at <http://www.nfpa.org>, or contact NFPA Codes and Standards Administration.

#### Background

The National Fire Protection Association (NFPA) develops building, fire, and electrical safety codes and standards. Federal agencies frequently use these codes and standards as the basis for developing Federal regulations concerning fire safety. Often, the Office of the Federal Register approves the incorporation by reference of these standards under 5 U.S.C. 552(a) and 1 CFR part 51.

When a Technical Committee begins the development of a new or revised NFPA code or standard, it enters one of two Revision Cycles available each year. The Revision Cycle begins with the Call for Proposals, that is, a public notice asking for any interested persons to submit specific written proposals for developing or revising a code or standards. The Call for Proposals is published in a variety of publications.

Interested parties have approximately twenty weeks to respond to the Call for Proposals.

Following the Call for Proposals period, the Technical Committee holds a meeting to consider and accept, reject or revise, in whole or in part, all the submitted Proposals. The Committee may also develop its own Proposals. A document known as the Report on Proposals, or ROP, is prepared containing all the Public Proposals, the Technical Committee's action on each Proposal, as well as all Committee-generated Proposals. The ROP is then submitted for the approval of the Technical Committee by a formal written ballot. If the ROP does not receive approval by a two-thirds vote calculated in accordance with NFPA rules, the Report is returned to the Committee for further consideration and is not published. If the necessary approval is received, the ROP is published in a compilation of Reports on Proposals issued by NFPA twice yearly for public review and comment, and the process continues to the next step.

The Reports on Proposals are sent automatically free of charge to all who submitted Proposals and each Committee member, as well as anyone else who requests a copy. All ROP's are also available for free downloading at <http://www.nfpa.org>.

Once the ROP becomes available, there is a 60-day comment period during which anyone may submit a Public Comment on the proposed changes in the ROP. The Committee then reconvenes at the end of the comment period and acts on all Comments.

As before, a two-thirds approval vote by written ballot of the eligible members of the Committee is required for approval of actions on the Comments. All of this information is compiled into a second report, called the Report on Comments (ROC), which, like the ROP, is published, and is made available for public review for a seven-week period.

The process of public input and review does not end with the publication of the ROP and ROC. Following the completion of the Proposal and Comment periods, there is further opportunity for debate and discussion through the Association Technical Meeting that takes place at the NFPA Conference & Expo.

The Association Technical Meeting provides an opportunity for the final Technical Committee Report (*i.e.*, the ROP and ROC) on each proposed new or revised code or standard to be presented to the NFPA membership for the debate and consideration of motions
