

4. *Title:* Commercial Fishing Industry Vessel Safety Regulations.

OMB Control Number: 1625-0061.

Type of Request: Revision of a currently approved collection.

Respondents: Owners, agents, individuals-in-charge of commercial fishing vessels, and insurance underwriters.

Abstract: This information collection is intended to improve safety on board vessels in the commercial fishing industry. The requirements apply to those vessels and to seamen on them.

Forms: None.

Burden Estimate: The estimated burden has increased from 5,917 hours to 5,945 hours a year.

Authority: The Paperwork Reduction Act of 1995; 44 U.S.C. Chapter 35, as amended.

Dated: April 7, 2011.

D. M. Dermanelian,

Captain, U.S. Coast Guard, Acting Assistant Commandant for Command, Control, Communications, Computers and Information Technology.

BILLING CODE 9110-04-P

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. FR-5477-N-16]

Federal Property Suitable as Facilities To Assist the Homeless

AGENCY: Office of the Assistant Secretary for Community Planning and Development, HUD.

ACTION: Notice.

SUMMARY: This Notice identifies unutilized, underutilized, excess, and surplus Federal property reviewed by HUD for suitability for possible use to assist the homeless.

FOR FURTHER INFORMATION CONTACT:

Juanita Perry, Department of Housing and Urban Development, 451 Seventh Street, SW., Room 7262, Washington, DC 20410; telephone (202) 708-1234; TTY number for the hearing- and speech-impaired (202) 708-2565, (these telephone numbers are not toll-free), or call the toll-free Title V information line at 800-927-7588.

SUPPLEMENTARY INFORMATION: In accordance with the December 12, 1988 court order in *National Coalition for the Homeless v. Veterans Administration*, No. 88-2503-OG (D.D.C.), HUD publishes a Notice, on a weekly basis, identifying unutilized, underutilized, excess and surplus Federal buildings and real property that HUD has reviewed for suitability for use to assist the homeless. Today's Notice is for the

purpose of announcing that no additional properties have been determined suitable or unsuitable this week.

Dated: April 14, 2011.

Mark R. Johnston,

Deputy Assistant Secretary for Special Needs.

BILLING CODE 4210-67-P

DEPARTMENT OF THE INTERIOR

Bureau of Ocean Energy Management, Regulation and Enforcement

Cape Wind Energy Project

AGENCY: Bureau of Ocean Energy Management, Regulation and Enforcement (BOEMRE), Interior.

ACTION: Notice of the Availability (NOA) of an Environmental Assessment (EA); NOA of a Record of Decision (ROD).

SUMMARY: Pursuant to the Council on Environmental Quality (CEQ) regulation implementing the National Environmental Policy Act (NEPA) at 40 CFR 1506.6, BOEMRE announces the availability of an EA, a Finding of No New Significant Impact (FONNSI), and a ROD on whether to approve, approve with modifications, or disapprove a Construction and Operations Plan (COP) for the Cape Wind Energy Project located on the Outer Continental Shelf (OCS) in Nantucket Sound, off the coast of Massachusetts. BOEMRE prepared the EA to determine whether there are any substantial changes in the proposed action or whether there is new information since the first ROD (2010 ROD) approving the issuance of a lease to Cape Wind Associates (CWA) that would require preparation of a Supplemental Environmental Impact Statement (SEIS). This EA was also prepared to assist BOEMRE in deciding whether to approve, approve with modifications, or disapprove CWA's COP for a commercial wind facility. On the basis of the analysis contained in the EA, BOEMRE has determined that a SEIS is not required and has prepared a FONNSI supporting that determination (See Section 2 of this notice). After careful consideration, BOEMRE has decided to issue this second ROD (2011 ROD) approving CWA's COP with modifications (See Section 3 of this notice).

Availability: The EA, FONNSI, and ROD are available at <http://www.boemre.gov/offshore/RenewableEnergy/CapeWind.htm>.

FOR FURTHER INFORMATION CONTACT: Michelle Morin, BOEMRE Office of

Offshore Alternative Energy Programs, 381 Elden Street, MS 4090, Herndon, Virginia 20170-4817, (703) 787-1340 or michelle.morin@boemre.gov.

Authority: The NOA of an EA, FONNSI, and ROD is published pursuant to 43 CFR 46.305.

SUPPLEMENTARY INFORMATION:

1. Background

In November 2001, CWA applied for a permit from the U.S. Army Corps of Engineers (USACE) under the Rivers and Harbors Act of 1899 to proceed with its proposal to construct an offshore wind power facility on the OCS in Nantucket Sound, on Horseshoe Shoal. In 2005, the Energy Policy Act of 2005 (EPA) was passed amending the Outer Continental Shelf Lands Act (OCSLA). The OCSLA amendments granted the Secretary of the Department of the Interior (DOI) the authority to issue leases, easements, or rights-of-way for renewable energy projects on the OCS. The Secretary delegated that authority to the Minerals Management Service (now BOEMRE). During the fall of 2005, BOEMRE reviewed the CWA proposal and determined that BOEMRE would proceed with the review by preparing a Cape Wind Draft Environmental Impact Statement (DEIS).

BOEMRE published the DEIS on January 18, 2008 (73 FR 3482), which was followed by publication of the Final Environmental Impact Statement (FEIS) (74 FR 3635) on January 21, 2009. On May 4, 2010, BOEMRE published the NOA of the 2010 EA (75 FR 23798) and the NOA of the 2010 ROD, which authorized the issuance of a lease to CWA (75 FR 34152). On October 6, 2010, BOEMRE and CWA signed a lease, effective on November 1, 2010, that granted CWA the exclusive right to submit, for BOEMRE's approval, a COP detailing the construction, operation, and decommissioning of its proposed project. CWA submitted its COP to BOEMRE on October 29, 2010, and a revised version of the COP on February 4, 2011.

As detailed in the COP, the Proposed Action remains substantially the same as that described in the FEIS (FEIS, pp. 2-1 to 2-32). The Proposed Action calls for 130, 3.6 +/- MW wind turbine generators (WTG), each with a maximum blade height of 440 feet (ft), to be constructed in a grid pattern on the OCS in Nantucket Sound offshore Cape Cod, Martha's Vineyard, and Nantucket Island, Massachusetts (the Islands). With a maximum electric output of 468 MW and an average anticipated output of approximately 182 MW, the facility is projected to generate
