

the statutory and regulatory requirements.

In order to clarify the appropriate interpretation and application of statutory provisions, FAA regulations and FAA policy in connection with U.S. registration of aircraft to owner trustees, the FAA seeks a discussion with interested members of the public about the factors that would weigh in favor of or against a finding that a trustee is an "owner" of an aircraft.

The following questions are intended to elicit robust discussion:

1. What are the appropriate obligations to impose on a trustee of a trust with beneficiaries that are neither U.S. citizens nor resident aliens in order to satisfy the statute and regulations?

2. In the case of a trust with beneficiaries that are neither U.S. citizens nor resident aliens, which rights and actions must be prohibited on the part of the beneficiaries in order to satisfy the statute and regulations?

3. Which forms of granting possession, use or operational control of an aircraft by a trustee to its beneficiaries that are not U.S. citizens or resident aliens are permitted and which are prohibited under the statute and regulations?

4. What are the specific elements of "the trustee's authority" (14 CFR 47.7(c)(iii)) about which the FAA should be concerned, and what are the forms of influence or limitation that the FAA should proscribe?

5. How may a beneficiary that is not a U.S. citizen or resident alien participate in the decision to remove a trustee in accordance with the statute and regulations?

6. To what extent, if any, are the FAA interpretations cited above in need of amendment?

7. Which, if any, knowledge and information requirements (e.g., address of operator, location of maintenance records, principal hangar location) are appropriate for the FAA to impose on trustees of trusts beneficiaries that are not U.S. citizens or resident aliens?
