[60-Day 11–0138]

Proposed Data Collections Submitted for Public Comment and Recommendations

In compliance with the requirement of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 for opportunity for public comment on proposed data collection projects, the Centers for Disease Control and Prevention (CDC) will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the data collection plans and instruments, call 404–639–5960 or send comments to Carol Walker, CDC Acting Reports Clearance Officer, 1600 Clifton Road, MS D–74, Atlanta, GA 30333 or send an e-mail to omb@cdc.gov.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency’s estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the

burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Written comments should be received within 60 days of this notice.

Proposed Project

Pulmonary Function Testing Course Approval Program, 29 CFR 1910.1043 (OMB No. 0920–0138)—Extension—The National Institute for Occupational Safety and Health (NIOSH), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

NIOSH has the responsibility under the Occupational Safety and Health Administration’s Cotton Dust Standard, 29 CFR 1920.1043, for approving courses to train technicians to perform pulmonary function testing in the cotton industry. Successful completion of a NIOSH-approved course is mandatory under the Standard. To carry out its responsibility, NIOSH maintains a Pulmonary Function Testing Course Approval Program. The program consists of an application submitted by potential sponsors (universities, hospitals, and private consulting firms) who seek NIOSH approval to conduct courses, and if approved, notification to NIOSH of any course or faculty changes during the approval period, which is limited to five years. The application form and added materials, including an

agenda, curriculum vitae, and course materials are reviewed by NIOSH to determine if the applicant has developed a program which adheres to the criteria required in the Standard. Following approval, any subsequent changes to the course are submitted by course sponsors via letter or e-mail and reviewed by NIOSH staff to assure that the changes in faculty or course content continue to meet course requirements. Course sponsors also voluntarily submit an annual report to inform NIOSH of their class activity level and any faculty changes. Sponsors who elect to have their approval renewed for an additional 5 year period submit a renewal application and supporting documentation for review by NIOSH staff to ensure the course curriculum meets all current standard requirements. Approved courses that elect to offer NIOSH-Approved Spirometry Refresher Courses must submit a separate application and supporting documents for review by NIOSH staff. Institutions and organizations throughout the country voluntarily submit applications and materials to become course sponsor and carry out training. Submissions are required for NIOSH to evaluate a course and determine whether it meets the criteria in the Standard and whether technicians will be adequately trained as mandated under the Standard.

There are no costs to respondents other than their time.

ESTIMATED ANNUALIZED BURDEN HOURS

Respondents	Number of respondents	Number of responses per respondent	Average burden per response (in hours)	Total burden (in hours)
Initial Application	3	1	3.5	11
Annual Report	35	1	30/60	18
Report for Course Changes	12	1	45/60	9
Renewal Application	13	1	6.0	78
Refresher Course Application	10	1	8.0	80
Total				196

Dated: April 25, 2011.

[30 Day–11–0445]

Agency Forms Undergoing Paperwork Reduction Act Review

The Centers for Disease Control and Prevention (CDC) publishes a list of information collection requests under review by the Office of Management and Budget (OMB) in compliance with the Paperwork Reduction Act (44 U.S.C.

Chapter 35). To request a copy of these requests, call the CDC Reports Clearance Officer at (404) 639–5960 or send an e-mail to omb@cdc.gov. Send written comments to CDC Desk Officer, Office of Management and Budget, Washington, DC or by fax to (202) 395–5806. Written comments should be received within 30 days of this notice.

Proposed Project

School Health Policies and Practices Study 2012 (formerly titled School Health Policies and Programs Study, OMB No. 0920–0445, exp. 11/30/2008)—Reinstatement with Changes—

National Center for Chronic Disease Prevention and Health Promotion (NCCDPHP), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

CDC has previously examined the role that schools play in addressing the health risk behaviors through the School Health Policies and Programs Study (SHPPS, OMB No. 0920-0445), a series of data collections conducted at the state, district, school, and classroom levels in 1994 (OMB. No. 0920-0340, exp. 1/31/1995), in 2000 (OMB No. 0920-0445, exp. 10/31/2002), and in 2006 (OMB No. 0920-0445, exp. 11/30/2008).

Clearance is being requested for one year for CDC to conduct SHPPS 2012.

The purpose of the study is to collect updated information to assess the characteristics of eight components of school health programs at the elementary, middle, and high school levels. The components are: Health education, physical education, health services, mental health and social services, nutrition services, healthy and safe school environment, faculty and staff health promotion, and family and community involvement. Twenty-two questionnaires will be used: Six at the state level, seven at the district level, seven at the school level, and two at the classroom level. Data collection at the state and district levels will be self-administered via the Internet. Data collection at the school and classroom

levels will be conducted via computer-assisted personal interviews. SHPPS 2012 also will include vending machine observations in the schools.

SHPPS 2012 data will have significant implications for policy and program development for school health programs nationwide. The data will also be used to provide the only national source of data to measure 14 Healthy People 2020 national health objectives, and will provide the only nationally representative dataset of snack and beverage offerings available to students through school vending machines.

There are no costs to respondents other than their time. The total estimated burden hours are 13,262.

ESTIMATED ANNUALIZED BURDEN HOURS

Type of respondent	Form name	Number of respondents	Number responses per respondent	Average burden per response (in hours)
State Officials	State Health Education	51	1	30/60
	State Physical Education and Activity	51	1	30/60
	State Health Services	51	1	30/60
	State Nutrition Services	51	1	30/60
	State Healthy and Safe School Environment	51	1	30/60
	State Mental Health and Social Services	51	1	30/60
	State Recruitment Script	51	1	1
District Officials	District Health Education	685	1	30/60
	District Physical Education and Activity	685	1	40/60
	District Health Services	685	1	40/60
	District Nutrition Services	685	1	30/60
	District Healthy and Safe School Environment	685	1	1
	District Mental Health and Social Services	685	1	30/60
	District Faculty and Staff Health Promotion	685	1	20/60
