SUPPLEMENTARY INFORMATION:

I. Background: The Division of Coal Mine Workers' Compensation

administers the Black Lung Benefits Act (30 U.S.C. 901 *et seq.*), which provides benefits to coal miners totally disabled due to pneumoniosis, and their surviving dependents. The CM-623, Representative Payee Report is used to collect expenditure data regarding the disbursement of the beneficiary's benefits by the representative payee to assure that the beneficiary's needs are being met. The CM-623S, Representative Payee—Short Form, is a shortened version of the CM-623 that is used when the representative payee is a family member residing with the beneficiary. The CM-787, Physician's/Medical Officer's Statement is used to gather information from the beneficiary's physician about the capability of the beneficiary to manage monthly benefits. This form is used by OWCP to determine if it is in the beneficiary's best interest to have his/her benefits managed by another party. The regulatory authority for collecting this information is in 20 CFR 725.506, 510, 511, and 513. This information collection is currently approved for use through September 30, 2011.

SUPPLEMENTARY INFORMATION: **Title:** Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery.

Abstract: The proposed information collection activity provides a means to garner qualitative customer and stakeholder feedback in an efficient, timely manner, in accordance with the Administration's commitment to improving service delivery. By qualitative feedback we mean information that provides useful insights on perceptions and opinions, but are not statistical surveys that yield quantitative results that can be generalized to the population of study. These collections will allow for ongoing, collaborative and actionable communications between the Agency and its customers and stakeholders. It will also allow feedback to contribute directly to the improvement of program management.

The solicitation of feedback will target areas such as: Timeliness, appropriateness, accuracy of information, courtesy, efficiency of service delivery, and resolution of issues with service delivery. Responses will be assessed to plan and inform efforts to improve or maintain the quality of service offered to the public. If this information is not collected, vital feedback from customers and stakeholders on the Agency's services will be unavailable.

The Agency will only submit a collection for approval under this generic clearance if it meets the following conditions:

- The collections are voluntary;
