

judicial review are met. Pursuant to 42 CFR 418.311 (which incorporates 42 CFR part 405, subpart R), the provider may appeal an intermediary's cap determination in accordance with the requirements contained in either 42 CFR 405.1811 or 42 CFR 405.1835, whichever is applicable. In accordance with the applicable regulations, any such appeal must be filed to the appropriate authority no later than 180 days from the date of the contractor's determination. If a provider properly pursues and exhausts the administrative appeals process and receives a final agency decision, the final agency decision is subject to judicial review in accordance with 42 CFR part 405, subpart R and 42 U.S.C. 1395oo.

In addition, all hospice cap determinations based on application of a patient-by-patient proportional methodology are subject to reopening (for up to 3 years in accordance with the requirements of 42 CFR 405.1885). Thus, a hospice cap payment determination made pursuant to this Ruling may be reopened at a later time (e.g., to revise the proportional allocations to account for additional days of care after the year in question, which would increase the denominators of some proportions and thus decrease some fractional allocations). We recognize that this might increase uncertainty, but this concern must be balanced against other considerations such as payment accuracy and timeliness of payment determinations. Nothing in this Ruling, however, shall be construed as requiring reopening and recalculation of cap determinations for an earlier year when there is a recalculation for any given year.

Ruling

First, it is CMS' Ruling that the agency and the Medicare contractors will resolve and grant relief in each properly pending appeal in which a hospice provider seeks review of a final determination of overpayment for a cap year ending on or before October 31, 2011 by challenging the validity of the methodology set forth in 42 CFR 418.309(b)(1). CMS will grant relief in each appeal by directing its Medicare contractors to recalculate the final overpayment determination in accordance with the patient-by-patient proportional methodology described in Section 2 of this Ruling.

Second, it is also CMS' Ruling that the pertinent administrative appeals tribunal (that is, the PRRB, the Administrator of CMS, the fiscal intermediary hearing officer, or the CMS reviewing official) and the appropriate Medicare contractor will process, in

accordance with the instructions set forth in Sections 3 and 4 of this Ruling, each appeal (including any interlocutory appeals) and each putative claim (in such appeal) seeking review of a hospice cap overpayment determination for a cap year ending on or before October 31, 2011 on the basis that the methodology set forth in 42 CFR 418.309(b)(1) is invalid.

Third, it is CMS' further Ruling that the agency and the appropriate Medicare contractor will process, in accordance with the instructions set forth in Section 5 of this Ruling, each properly pending appeal seeking review of a hospice cap overpayment determination for a cap year ending on or before October 31, 2011 on the basis that the methodology set forth in 42 CFR 418.309(b)(1) is invalid and that is remanded by the administrative appeals tribunal and is found to qualify for relief under this Ruling.

Fourth, it is CMS' further Ruling that, pursuant to 42 CFR 405.1801(a), 405.1885(c)(1), (2), this Ruling is not an appropriate basis for the reopening of final determinations of the Secretary or a Medicare contractor or of any decision by a reviewing entity, except to the extent that this Ruling provides for reopening in accordance with existing regulations and policy; accordingly, it is hereby held that this Ruling does not provide an independent basis for the administrative appeals tribunals, the fiscal intermediaries, and other Medicare contractors to reopen any final hospice cap determination in a manner inconsistent with existing regulations and policy.

Fifth, it is also CMS' Ruling that, pursuant to 42 CFR 401.108, this Ruling is a final precedent opinion and order and a binding statement of policy that does not give rise to any putative retroactive rulemaking issues; in any event, it is hereby held that, if this Ruling were deemed to implicate potential retroactive rulemaking issues, then, in accordance with 42 U.S.C. 1395hh(e)(1)(A), retroactive application of this Ruling is necessary to ensure continuing compliance with 42 U.S.C. 1395f(i)(2) and to serve the public interest.

Sixth, it is also CMS' Ruling that, pursuant to 42 CFR 401.108, this Ruling is a final precedent opinion and order and a binding statement of policy. This Ruling is not a substantive or legislative rule requiring notice and comment; to the extent that this Ruling is deemed to be a substantive or legislative rule, it is CMS's Ruling that good cause exists to dispense with rulemaking procedures pursuant to 42 U.S.C. 1395hh(b)(2)(C) and 5 U.S.C. 553(b)(B) to ensure

continued compliance with 42 U.S.C. 1395f(i)(2).
