

snowcoaches per day). Alternative 4 would allow for commercially guided wheeled vehicles, in addition to OSVs (100 commercially wheeled vehicles, 110 snowmobiles and 30 snowcoaches per day). Alternative 5 would initially allow for the same level of use as alternative 2 (318 snowmobiles and 78 snowcoaches per day), but would provide for a transition to snowcoaches only if user demand is present to support such a transition or at the discretion of the Superintendent. Upon complete transition, there would be zero snowmobiles and up to 120 snowcoaches per day. Alternative 6 would provide for use levels that vary each day, with a seasonal limit of up to 32,000 snowmobiles and 4,600 snowcoaches, and a daily limit of up to 540 snowmobiles and 78 snowcoaches. Up to 25 percent of snowmobile permits under alternative 6 would be for unguided or non-commercially guided use.

Alternative 7 is the agency preferred alternative and would provide a variety of use levels and experiences for visitors. Four different use levels for snowmobiles and snowcoaches would be implemented, the combination of which may vary by day. Snowmobile use would range from 110 to 330 vehicles per day and snowcoach use would range from 30 to 80 vehicles per day. The varying use levels would provide for high and low use days, allowing for a variety of motorized and non-motorized visitor experiences throughout the winter season. Commercial guide requirements would continue. All snowmobiles and snowcoaches would need to enter the park by 10:30 a.m. A requirement to limit nitrogen oxides (NO_x) emissions would be added to the current Best Available Technology requirements for snowmobiles. By 2014–2015, all snowcoaches would have to employ model year 2010 engine and emission control systems, and all snowcoaches' sound would be limited to 73 decibels, similar to the current BAT requirements for snowmobiles. During the first winter of implementation, the provisions of the interim plan that was in effect for the past two winters would continue. Up to 318 best available technology, commercially guided snowmobiles and up to 78 commercially guided snowcoaches would be allowed to enter the park each day during the transition winter.

More information regarding Yellowstone in the winter, including educational materials and a detailed history of winter use in Yellowstone, is available at <http://www.nps.gov/yell/planvisit/winteruse/index.htm>.

Dated: May 5, 2011.

Peggy O'Dell,

Deputy Director, National Park Service.

BILLING CODE 4312-CT-P

INTERNATIONAL TRADE COMMISSION

Submission for OMB Review; Comment Request—Agency Proposal for the Collection of Information Submitted to the Office of Management and Budget (OMB) for Review; Comment Request.

AGENCY: United States International Trade Commission.

ACTION: Notice.

SUMMARY: In accordance with the provisions of the Paperwork Reduction Act of 1995 (Pub. L. 104–13), the Commission has submitted a proposal for the collection of information to OMB for approval. The proposed information collection is a 3-year extension of the current “generic clearance” (approved by the Office of Management and Budget under control No. 3117–0016) under which the Commission can issue information collections (specifically, producer, importer, purchaser, and foreign producer questionnaires and certain institution notices) for the following types of import injury investigations: antidumping, countervailing duty, escape clause, market disruption, NAFTA safeguard, and “interference with programs of the USDA.” Any comments submitted to OMB on the proposed information collection should be specific, indicating which part of the questionnaires or study plan are objectionable, describing the issue in detail, and including specific revisions or language changes.

DATES: To be assured of consideration, comments should be submitted to OMB within 30 days of the date this notice appears in the **Federal Register**.

ADDRESSES: Comments about the proposal should be directed to the Office of Information and Regulatory Affairs, Office of Management and Budget, New Executive Office Building, Washington, DC 20503. *Attention:* Wendy Liberante, Desk Officer for U.S. International Trade Commission. Copies of any comments should be provided to Andrew Martin (U.S. International Trade Commission, 500 E Street, SW., Washington, DC 20436).

FOR FURTHER INFORMATION CONTACT: Copies of the proposed collection of information and supporting documentation may be obtained from

Jennifer Merrill (U.S. International Trade Commission, tel. no. 202–205–3188). Hearing-impaired persons can obtain information on this matter by contacting the Commission's TDD terminal on 202–205–1810. Persons with mobility impairments who will need special assistance in gaining access to the Commission should contact the Office of the Secretary at 202–205–2000. General information concerning the Commission may also be obtained by accessing its Internet server (<http://www.usitc.gov>).

SUPPLEMENTARY INFORMATION: (1) The proposed information collection consists of five forms, namely the *Sample Producers'*, *Sample Importers'*, *Sample Purchasers'*, and *Sample Foreign Producers' questionnaires* (separate forms are provided for questionnaires issued for the five-year reviews) and *Sample Notice of Institution for Five-Year Reviews*.

(2) The types of items contained within the sample questionnaires and institution notice are largely determined by statute. Actual questions formulated for use in a specific investigation depend upon such factors as the nature of the industry, the relevant issues, the ability of respondents to supply the data, and the availability of data from secondary sources.

(3) The information collected through questionnaires issued under the generic clearance for import injury investigations is consolidated by Commission staff and forms much of the statistical base for the Commission's determinations. Affirmative Commission determinations in antidumping and countervailing duty investigations result in the imposition of duties on imports entering the United States, determined by The Department of Commerce, which are in addition to any normal customs duties. If the Commission makes an affirmative determination in a five-year review, the existing antidumping or countervailing duty order remains in place. The data developed in escape-clause, market disruption, and interference-with-USDA-program investigations (if the Commission finds affirmatively) are used by the President/U.S. Trade Representative to determine the type of relief, if any, to be provided to domestic industries. The submissions made to the Commission in response to the notices of institution of five-year reviews form the basis for the Commission's determination as to whether a full or expedited review should be conducted.

(4) Likely respondents consist of businesses (including foreign businesses) or farms that produce,

import, or purchase products under investigation. Estimated total annual

reporting burden for the period July 2011–June 2014 that will result from the

collection of information is presented below.

TABLE 1—PROJECTED ANNUAL BURDEN DATA, BY TYPE OF INFORMATION COLLECTION, JULY 2011–JUNE 2014

Item	Producer questionnaires	Importer questionnaires	Purchaser questionnaires	Foreign producer questionnaires	Institution notices for 5-year reviews	Total
Number of respondents ...	751	1,279	988	1,119	84	4,221
Frequency of response	1	1	1	1	1	1
Total annual responses ...	751	1,279	988	1,119	84	4,221
Hours per response	71.5	40.1	35.1	40.6	10.9	44.1
Total hours	53,672	51,292	34,678	45,443	917	186,002

No recordkeeping burden is known to result from the proposed collection of information.

By order of the Commission,

Issued: May 4, 2011.

James R. Holbein,

Acting Secretary to the Commission.
