BILLING CODE 9110-12-P

DEPARTMENT OF HOMELAND SECURITY

Federal Emergency Management Agency

44 CFR Part 67

[Docket ID FEMA-2011-0002; Internal Agency Docket No. FEMA-B-1021]

Proposed Flood Elevation Determinations

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Proposed rule; correction.

SUMMARY: On November 24, 2008, FEMA published in the **Federal Register** a proposed rule that contained an erroneous table. This notice provides corrections to that table, to be used in lieu of the information published at 73 FR 70944. The table provided here represents the flooding sources, location of referenced elevations, effective and

modified elevations, and communities affected for Menifee County, Kentucky, and Incorporated Areas. Specifically, it addresses the flooding source Licking River (Cave Run Lake).

DATES: Comments are to be submitted on or before August 8, 2011.

ADDRESSES: You may submit comments, identified by Docket No. FEMA-B-1021, to Luis Rodriguez, Chief, Engineering Management Branch, Federal Insurance and Mitigation Administration, Federal Emergency Management Agency, 500 C Street, SW., Washington, DC 20472, (202) 646-4064 or (e-mail) luis.rodriguez1@dhs.gov.

FOR FURTHER INFORMATION CONTACT: Luis Rodriguez, Chief, Engineering Management Branch, Federal Insurance and Mitigation Administration, Federal Emergency Management Agency, 500 C Street, SW., Washington, DC 20472, (202) 646-4064 or (e-mail) luis.rodriguez1@dhs.gov.

SUPPLEMENTARY INFORMATION: The Federal Emergency Management Agency (FEMA) publishes proposed determinations of Base (1% annual-chance) Flood Elevations (BFEs) and modified BFEs for communities participating in the National Flood Insurance Program (NFIP), in accordance with section 110 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and 44 CFR 67.4(a).

These proposed BFEs and modified BFEs, together with the floodplain management criteria required by 44 CFR 60.3, are minimum requirements. They should not be construed to mean that the community must change any existing ordinances that are more

stringent in their floodplain management requirements. The community may at any time enact stricter requirements of its own or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations are used to meet the floodplain management requirements of the NFIP and also are used to calculate the appropriate flood insurance premium rates for new buildings built after these elevations are made final, and for the contents in those buildings.

Correction

In the proposed rule published at 73 FR 70944 in the November 24, 2008,

issue of the **Federal Register**, FEMA published a table under the authority of 44 CFR 67.4. The table, entitled “Menifee County, Kentucky, and Incorporated Areas,” addressed the flooding source Licking River (Cave Run Lake). That table contained inaccurate information as to the location of referenced elevation, effective and modified elevation in feet, and/or communities affected for that flooding source. In this notice, FEMA is publishing a table containing the accurate information, to address these prior errors. The information provided below should be used in lieu of that previously published.

Flooding source(s)	Location of referenced elevation**	*Elevation in feet (NGVD) +Elevation in feet (NAVD) #Depth in feet above ground ^Elevation in meters (MSL)		Communities affected
		Effective	Modified	
Menifee County, Kentucky, and Incorporated Areas				
Licking River (Cave Run Lake).	At the Buck Creek confluence	None	+765	City of Frenchburg, Unincorporated Areas of Menifee County.
	At the North Fork Licking River confluence	None	+765	

* National Geodetic Vertical Datum.

+ North American Vertical Datum.

Depth in feet above ground.

^ Mean Sea Level, rounded to the nearest 0.1 meter.

** BFEs to be changed include the listed downstream and upstream BFEs, and include BFEs located on the stream reach between the referenced locations above. Please refer to the revised Flood Insurance Rate Map located at the community map repository (see below) for exact locations of all BFEs to be changed.

Send comments to Luis Rodriguez, Chief, Engineering Management Branch, Federal Insurance and Mitigation Administration, Federal Emergency Management Agency, 500 C Street, SW., Washington, DC 20472.

ADDRESSES

City of Frenchburg

Maps are available for inspection at 157 Old Campus Road, Frenchburg, KY 40322.

Unincorporated Areas of Menifee County

Maps are available for inspection at the Menifee County Courthouse, 12 Main Street, Frenchburg, KY 40322.

BILLING CODE 9110-12-P

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Parts 1, 2, 22, 24, 27, 90 and 95

[WT Docket No. 10-4; FCC 11-53]

Improving Wireless Coverage Through the Use of Signal Boosters

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: In this document the Federal Communications Commission (Commission) seeks comment on revisions to its rules to help fill gaps in

wireless coverage and expand broadband in rural and difficult-to-serve areas, and protect wireless networks from harm. The development and deployment of well-designed signal boosters holds great potential to empower consumers in rural and underserved areas to improve their wireless coverage in their homes, at their jobs, and when they travel by car, recreational vehicle, or boat.

DATES: Submit comments on or before June 24, 2011, and reply comments on or before July 25, 2011. For additional information concerning proposed information collections contained in this document, contact Judith-B.Herman
