Agency Forms Undergoing Paperwork Reduction Act Review

The Centers for Disease Control and Prevention (CDC) publishes a list of information collection requests under review by the Office of Management and Budget (OMB) in compliance with the Paperwork Reduction Act (44 U.S.C. Chapter 35). To request a copy of these requests, call the CDC Reports Clearance Officer at (404) 639-5960 or send an e-mail to omb@cdc.gov. Send written comments to CDC Desk Officer, Office of Management and Budget, Washington, DC 20503 or by fax to (202) 395-5806. Written comments should be received within 30 days of this notice.

Proposed Project

Crime Prevention Through Environmental Design: Linking Observed School Environments with Student and School-wide Experiences of Violence and Fear—New—National

Center for Injury Prevention and Control (NCIPC), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

Among the goals of the Centers for Disease Control and Prevention (CDC), National Center for Injury Prevention and Control (NCIPC) is to reduce the prevalence of violence among youth. Several important priorities included in the Center’s published research agenda focus on studying how physical environments influence behavior and risk for violence. The CDC has developed an observational tool called the Crime Prevention Through Environmental Design (CPTED) School Assessment (CSA) to assess the extent to which the physical characteristics of schools are consistent with Crime Prevention Through Environmental Design (CPTED) principles. The proposed research will allow an assessment of the validity of the CSA by examining the extent to which the CSA subscales, total CSA scores, and CPTED principles are related to fear and violence, and related variables. If the CSA tool is shown to measure characteristics of the school environment that are associated with fear and violence-related behaviors in school, then it may be used as the basis for research, design, and evaluation of interventions for schools seeking to prevent or reduce the occurrence of crime and violence. This may help formulate guidance for schools related

to (re)designing physical features of the environment and changing policies and procedures related to using the school environment.

In addition, an exploratory purpose of this research is to determine whether the CSA items can be divided reliably into supposedly distinct variables reflecting each of the CPTED principles. If we produce practical support for the assessment of these “CPTED variables,” then we will also assess validity by determining whether these variables are logically related to our measures of fear, violence and climate in schools.

Survey data from 75 students (25 each from 6th, 7th, and 8th grades) per school site will be collected from 50 middle schools selected and recruited from 13 school districts in the metro-Atlanta, Georgia area (approximately 3,750 total student participants), in addition to the observational (CSA) data collection. The student survey will assess variables such as school climate, and actual and perceived levels of school violence at each school. In addition, archival/ administrative data will be collected from each of the 50 schools on a School Site Data Form providing information on neighborhood and school characteristics from various sources (e.g., school site information reported by the school administrator, school district data available on the web, U.S. Census data, and school disciplinary records). There are no costs to respondents other than their time. The total annualized burden hours are 2650.

ESTIMATED ANNUALIZED BURDEN HOURS

Form name	Number of respondents	Number of responses per respondent	Average burden response (in hours)
CPTED Student Survey	3,750	1	40/60
CPTED Student Survey Data Collection Checklist (DCC)	150	1	20/60
CPTED School Site Data Form	50	1	2

Dated: May 9, 2011.

Proposed Data Collections Submitted for Public Comment and Recommendations

In compliance with the requirement of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 for opportunity for public comment on proposed data collection projects, the Centers for Disease Control and Prevention (CDC) will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of

the data collection plans and instruments, call 404-639-5960 or send comments to Daniel Holcomb, CDC Reports Clearance Officer, 1600 Clifton Road, MS D-74, Atlanta, GA 30333 or send an e-mail to *omb@cdc.gov*.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Written comments should be received within 60 days of this notice.

Proposed Project

Statements in Support of Application of Waiver of Inadmissibility (0920-0006, expiration date 12/31/2011)—

Revision—National Center for Emerging and Zoonotic Infectious Diseases (NCEZID), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

Section 212(a), (1) of the Immigration and Nationality Act states that aliens with specific health related conditions are ineligible for admission into the United States. The Attorney General may waive application of this inadmissibility on health-related grounds if an application for waiver is filed and approved by the U.S. Citizenship and Immigration Services office of the Department of Homeland Security having jurisdiction. CDC uses this application primarily to collect information to establish and maintain records of waiver applicants in order to notify the U.S. Citizenship and Immigration Services when terms, conditions and controls imposed by waiver are not met. CDC is requesting approval from OMB to collect this data for another 3 years.

There are no costs to respondents other than their time.

ESTIMATED ANNUALIZED BURDEN HOURS

Type of respondents	Form name	Number of respondents	Number of responses per respondent	Average burden per response (in hours)	Total burden (in hours)
U.S. medical facility or specialist (Part II)	Form CDC 4.422-1	200	1	10/60	33
Applicant/Applicant Sponsor (Part III). U.S. medical facility or specialist	Form CDC 4.422-1a	200	1	20/60	67
Total	100

Dated: May 9, 2011.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Medicare & Medicaid Services

[Document Identifier CMS-10380]

Agency Information Collection Activities: Proposed Collection; Comment Request

AGENCY: Centers for Medicare & Medicaid Services, HHS.
 In compliance with the requirement of section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, the Centers for Medicare & Medicaid Services (CMS) is publishing the

following summary of proposed collections for public comment. Interested persons are invited to send comments regarding this burden estimate or any other aspect of this collection of information, including any of the following subjects: (1) The necessity and utility of the proposed information collection for the proper performance of the agency's functions; (2) the accuracy of the estimated burden; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection burden.

1. *Type of Information Collection Request:* Revision of a currently approved collection; *Title of Information Collection:* Rate Review Grants to States and Territories Cycle I and II Funding Opportunity Announcement and

Reporting; *Use:* Under the Section 1003 of the Affordable Care Act (Section 2794 of the Public Health Service Act), the Secretary, in conjunction with the States and territories, is required to establish a process for the annual review, beginning with the 2010 plan year, of unreasonable increases in premiums for health insurance coverage. Section 2794(c) requires the Secretary to establish Premium Review Grants to States to assist States to implement this provision.

The U.S. Department of Health and Human Services (HHS) released the Rate Review Grants Cycle I funding opportunity twice; first to States (and the District of Columbia) in June 2010 and then to the territories and the five States that did not apply during the first release, (http://www.hhs.gov/ociio/initiative/final_premium_review_grant_solicitation.pdf). The second release was due to the decision that the territories were subject to provisions of
