**Title:** Confidential Financial Disclosure Form 3110.48 for Special Government Employees (SGE) Serving on Federal Advisory Committees at the Environmental Protection Agency (Renewal).

**ICR numbers:** EPA ICR No. 2260.04, OMB Control No. 2090-0029.

**ICR Status:** This ICR is scheduled to expire on 5/31/2011. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not

conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

**Abstract:** The purpose of this information collection is to assist the United States Environmental Protection Agency (EPA or the Agency) in selecting Federal advisory committee members who will be appointed as Special Government Employees (SGEs), mostly to EPA's scientific and technical committees. To select SGE members as efficiently and cost effectively as possible, the Agency needs to evaluate potential conflicts of interest before a candidate is hired as an SGE and appointed as a member to a committee by EPA's Administrator or Deputy Administrator. Agency officials developed the "Confidential Financial Disclosure Form for Special Government Employees serving on Federal Advisory Committees at the U.S. Environmental Protection Agency," also referred to as Form 3110-48, for greater inclusion of information to discover any potential conflicts of interest as recommended by the Government Accountability Office.

**Burden Statement:** The annual public reporting and recordkeeping burden for this collection of information is estimated to average one hour per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

• **Respondents/Affected Entities:** Entities potentially affected by this action are approximately 300 candidates

for membership as Special Government Employees (SGEs) on EPA Federal Advisory Committees.

• *Estimated Number of Respondents:* 257.

• *Frequency of Response:* Annual.

• *Estimated Total Annual Hour Burden:* 257.

• *Estimated Total Annual Cost:* \$27,139. There is no capital investment or maintenance and operational costs.

*Changes in the Estimates:* The burden estimates have been changed to reflect an increase of respondent costs to complete the form to cover the next three years. There is no increase of hours in the total estimated respondent burden compared with that identified in the ICR currently approved by OMB.

Dated: May 12, 2011.

**John Moses,**

Director, Collection Strategies Division.

**Abstract:** When EPA establishes new regulations with tighter engine emission standards, engine manufacturers often need to change the design of their engines to achieve the required emissions reductions. Consequently, original equipment manufacturers (OEMs) may also need to redesign their products to accommodate these engine design changes. Sometimes, OEMs have trouble making the necessary adjustments by the effective date of the regulations. In an effort to provide OEMs with some flexibility in complying with the regulations, EPA created the Transition Program for Equipment Manufacturers (TPERM). Under this program, OEMs are allowed to delay compliance with the new standards for up to seven years as long as they comply with certain limitations. Participation in the program is voluntary. Participating OEMs and engine manufacturers who provide the noncompliant engines are required to keep records and submit reports of their activities under the program.

The information is collected for compliance purposes by the Engine Programs Group, Certification and Compliance Division, Office of Transportation and Air Quality, Office of Air and Radiation. Confidentiality of proprietary information is granted in accordance with the Freedom of Information Act, EPA regulations at 40 CFR 2, and class determinations issued by EPA's Office of General Counsel.
