DEPARTMENT OF COMMERCE**Submission for OMB Review; Comment Request**

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: Alaska Pacific Halibut Fisheries: Special Subsistence Permits and Harvest Logs.

OMB Control Number: 0648-0512.

Form Number(s): NA.

Type of Request: Regular submission (extension of a current information collection).

Number of Respondents: 33.

Average Hours per Response: Applications, 10 minutes; logs, 30 minutes; appeals, 4 hours.

Burden Hours: 17.

Needs and Uses: This information collection concerns special permits issued to participants in the Pacific halibut subsistence fishery in waters off the coast of Alaska and any appeals resulting from denials. The National Marine Fisheries Service (NMFS) designed the permits to work in conjunction with other halibut harvest assessment measures. Subsistence fishing for halibut has occurred for many years among the Alaska Native people and non-Native people. Special permits in this collection are initiated in response to the concerns of Native and community groups regarding increased restrictions in International Pacific Halibut Commission Area 2C and include Community Harvest Permits, Ceremonial Permits, and Educational Permits.

A Community Harvest Permit allows the community or Alaska Native tribe to appoint one or more individuals from its respective community or tribe to harvest subsistence halibut from a single vessel under reduced gear and harvest restrictions. Ceremonial and Educational Permits are available exclusively to Alaska Native tribes. Eligible Alaska Native tribes may appoint only one Ceremonial Permit Coordinator per tribe for Ceremonial Permits or one authorized Instructor per tribe for Educational Permits.

Except for enrolled students fishing under a valid Educational Permit, special permits require persons fishing under them to also possess a Subsistence Halibut Registration Certificate (SHARC) (see OMB Control No. 0648-0460) which identifies those

persons who are currently eligible for subsistence halibut fishing. Each of the instruments is designed to minimize the reporting burden on subsistence halibut fishermen while retrieving essential information.

Affected Public: Individuals or households.

Frequency: Annually and on occasion.
Respondent's Obligation: Required to obtain or retain benefits.

OMB Desk Officer:

OIRA_Submission@omb.eop.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

The Economic Development Administration's (EDA) mission is to lead the federal economic development agenda by promoting innovation and competitiveness, preparing American regions for growth and success in the worldwide economy. EDA accomplishes its mission by helping our partners across the nation (states, regions, and communities) create wealth and minimize poverty by promoting a favorable business environment to attract private capital investment and jobs through world-class capacity building, planning, infrastructure, research grants, and strategic initiatives.

EDA's strategic investments in public infrastructure and local capital markets provide lasting benefits for economically disadvantaged areas. Acting as catalysts to mobilize public and private investments, EDA's investments address problems of high unemployment, low per capita income, and other forms of severe economic distress in local communities. EDA also provides special economic adjustment assistance to help communities and businesses respond to major layoffs, plant shutdowns, trade impacts, natural disasters, military facility closures, and other severe economic dislocations.

EDA must comply with the Government Performance and Results Act of 1993 which requires Federal agencies to develop performance measures, and report to Congress and stakeholders the results of the agency's performance. EDA must collect specific data from grant recipients to report on its performance in meeting its stated goals and objectives.

Foreign-Trade Zones Board

[Docket 33-2011]

Foreign-Trade Zone 59—Lincoln, NE; Application for Reorganization Under Alternative Site Framework

An application has been submitted to the Foreign-Trade Zones (FTZ) Board (the Board) by the Lincoln Foreign-Trade Zone, Inc., grantee of FTZ 59, requesting authority to reorganize the zone under the alternative site framework (ASF) adopted by the Board (74 FR 1170-1173, 01/12/09 (correction 74 FR 3987, 01/22/09); 75 FR 71069-71070, 11/22/10). The ASF is an option for grantees for the establishment or reorganization of general-purpose zones and can permit significantly greater flexibility in the designation of new "usage-driven" FTZ sites for operators/

users located within a grantee's "service area" in the context of the Board's standard 2,000-acre activation limit for a general-purpose zone project. The application was submitted pursuant to the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a-81u), and the regulations of the Board (15 CFR part 400). It was formally filed on May 12, 2011.

FTZ 59 was approved by the Board on August 27, 1980 (Board Order 163,45 FR 58637, 09/04/80), and expanded on June 25, 1993 (Board Order 646, 58 FR 36389, 07/07/93). The current zone project includes the following sites: Site 1 (5.7 acres)—Lincoln Airpark West Industrial Park, 4521 NW. 36th Street, Lincoln; and, Site 2 (372 acres)—Lincoln Airpark North Industrial Park, 2400 West Adams Street, Lincoln.

The grantee's proposed service area under the ASF would be Lancaster, Otoe and Seward Counties, Nebraska. If approved, the grantee would be able to serve sites throughout the service area based on companies' needs for FTZ designation. The proposed service area is within and adjacent to the Omaha Customs and Border Protection port of entry.

The applicant is requesting authority to reorganize its existing zone project to include the existing sites as "magnet" sites. The ASF allows for the possible exemption of one magnet site from the "sunset" time limits that generally apply to sites under the ASF, and the applicant proposes that Site 2 be so exempted. Because the ASF only pertains to establishing or reorganizing a general-purpose zone, the application would have no impact on FTZ 59's authorized subzones.

In accordance with the Board's regulations, Camille Evans of the FTZ Staff is designated examiner to evaluate and analyze the facts and information presented in the application and case record and to report findings and recommendations to the Board.

Public comment is invited from interested parties. Submissions (original and 3 copies) shall be addressed to the Board's Executive Secretary at the address below. The closing period for their receipt is July 18, 2011. Rebuttal comments in response to material submitted during the foregoing period may be submitted during the subsequent 15-day period to August 2, 2011.

A copy of the application will be available for public inspection at the Office of the Executive Secretary, Foreign-Trade Zones Board, Room 2111, U.S. Department of Commerce, 1401 Constitution Avenue, NW., Washington, DC 20230-0002, and in the "Reading Room" section of the Board's Web site,
