

The USFWS is responsible for regulating the take of the southern sea otter. The MBNMS consulted with the USFWS pursuant to section 7 of the ESA regarding impacts to that species. The USFWS issued a biological opinion on June 22, 2005, which concluded that the authorization of fireworks displays, as proposed, is not likely to jeopardize the continued existence of endangered and threatened species within the sanctuary or to destroy or adversely modify any listed critical habitat. The USFWS further found that MBNMS would be unlikely to take any southern sea otters, and therefore issued neither an incidental take statement under the ESA nor an IHA.

National Environmental Policy Act

In compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*), as implemented by the regulations published by the Council on Environmental Quality (40 CFR parts 1500–1508), and NOAA Administrative Order 216–6, NMFS and MBNMS prepared an Environmental Assessment (EA) on the Issuance of Regulations Authorizing Incidental Take of Marine Mammals and Issuance of National Marine Sanctuary Authorizations for Coastal Commercial Fireworks Displays within the Monterey Bay National Marine Sanctuary, to consider the direct, indirect and cumulative effects to the human environment resulting from issuance of sanctuary permits for fireworks displays and issuance of an IHA to MBNMS. NMFS signed a Finding of No Significant Impact (FONSI) on June 21, 2006. NMFS has reviewed MBNMS's application and determined that there are no substantial changes to the proposed action and that there are no new direct, indirect, or cumulative effects to the human environment resulting from issuance of an IHA to MBNMS. Therefore, NMFS has determined that a new or supplemental EA or Environmental Impact Statement is unnecessary, and reaffirms the existing FONSI for this action. The existing EA and FONSI for this action are available for review at <http://www.nmfs.noaa.gov/pr/permits/incidental.htm>.

Proposed Authorization

As a result of these preliminary determinations, NMFS proposes to authorize the take of marine mammals incidental to coastal fireworks displays, provided the previously mentioned mitigation, monitoring, and reporting requirements are incorporated.
