

in the SPNS Enhancing Linkages Initiative will be continued through a non-competitive extension with funds to 10 existing grantees of record. This is a one-time extension with Part F Funds, as the grant recipients did not begin enrolling clients until late into the second year of the project period due to delays in receiving required human subjects research approvals. The SPNS Enhancing Linkages Initiative grantees are the best qualified to ensure the continuity of care, and provide critical services to the service population until all clients are successfully transitioned to routine Ryan White HIV/AIDS Program care and services.
