

interest would best be served by a direct sale. This could include the need to recognize an authorized use, such as an existing business which could suffer a substantial economic loss if the tract were purchased by someone other than the authorized user. In accordance with 43 CFR 2710, the BLM authorized officer finds that the public interest would best be served by authorizing the direct sale to Todd and Bridget Buschhorn, which would allow the identified lands to be consolidated with Todd and Bridget Buschhorn's adjacent private property to continue to be used for agricultural and residential purposes.

It has been determined that the subject parcel contains no known mineral values; therefore, the BLM proposes that the conveyance of the Federal mineral interests occur simultaneously with the sale of the land. On April 29, 2010, the above described land was segregated from appropriation under the public land laws, including the mining laws. The segregation will terminate (1) Upon issuance of a patent, (2) publication in the **Federal Register** of a termination of the segregation, or (3) 2 years from the date of segregation, whichever occurs first. The lands will not be sold until at least July 22, 2011. Todd and Bridget Buschhorn will be required to pay a \$50 nonrefundable filing fee for the conveyance of the mineral interests. Any patent issued will contain the following terms, conditions, and reservations:

a. A reservation of right-of-way to the United States for ditches and canals constructed by the authority of the United States under the Act of August 30, 1890, 43 U.S.C. 945;

b. A condition that the conveyance be subject to all valid existing rights of record;

c. A notice and indemnification statement under the Comprehensive Environmental Response, Compensation and Liability Act (42 U.S.C. 9620(W)), indemnifying and holding the United States harmless from any release of hazardous materials that may have occurred; and

d. Additional terms and conditions that the authorized officer deems appropriate.

Detailed information concerning the proposed land sale including the appraisal, planning and environmental documents, and a mineral report are available for review at the BLM Shoshone Field Office at the location identified in the **ADDRESSES** section above. Normal business hours are 7:45 a.m. to 4:30 p.m., Monday through Friday, except for Federal holidays.

Public Comments

Public comments regarding the proposed sale may be submitted in writing to the BLM Shoshone Field Manager (see **ADDRESSES** above) on or before July 7, 2011. Comments received in electronic form, such as e-mail or facsimile, will not be considered. Any adverse comments regarding the proposed sale will be reviewed by the BLM Idaho State Director or other authorized official of the Department of the Interior, who may sustain, vacate, or modify this realty action in whole or in part. In the absence of timely filed objections, this realty action will become the final determination of the Department of the Interior.
