

prohibiting the disposal, placement, or release of any hazardous substance; and will contain an appropriate indemnification clause protecting the United States from claims arising out of the lessee's use, occupancy or operations on the leased lands. It will also contain any other terms or conditions deemed necessary or appropriate by the authorized officer. As of May 23, 2011, the above-described land is segregated from all forms of appropriation under the public land laws, including the United States mining laws, except for lease under the R&PP Act.

Public Comments: Interested parties may submit written comments involving the suitability of the land for a runway and related improvements for flying radio-controlled model airplanes. Comments transmitted via e-mail, facsimile, or other electronic means will not be accepted. Comments on the classification are restricted to whether the land is physically suited for the proposal, whether the use will maximize future uses of the land, whether the use is consistent with local planning and zoning, or if the use is consistent with State and Federal programs.

Interested parties may also submit written comments regarding the specific use proposed in the application and plan of development, whether the BLM followed proper administrative procedures in reaching its decision or any other factor not directly related to the suitability of the land for R&PP Act use.

Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Any adverse written comments on the proposed classification and lease will be reviewed by the BLM Idaho State Director, who may sustain, vacate or modify this realty action and classification, and issue a final determination. In the absence of any objections, the classification of the land described in this notice will become effective on July 22, 2011. The land will not be available for lease until after the classification becomes effective.

Authority: 43 CFR 2741.5.

Environmental Impact Statement for the Big Cypress National Preserve Addition, Florida

AGENCY: National Park Service.

ACTION: Notice of Availability of the Record of Decision and Floodplain Statement of Findings for the General Management Plan/Wilderness Study/Off-Road Vehicle Management Plan/Environmental Impact Statement for the Big Cypress National Preserve Addition.

SUMMARY: Pursuant to the National Environmental Policy Act of 1969, the National Park Service (NPS) announces the availability of the Record of Decision (ROD) and Floodplain Statement of Findings for the General Management Plan/Wilderness Study/Off-Road Vehicle Management Plan/Environmental Impact Statement (EIS) for the Big Cypress National Preserve Addition, Florida. On February 4, 2011, the Regional Director, Southeast Region, approved the ROD for the project.

SUPPLEMENTARY INFORMATION: Four alternatives were evaluated in the Environmental Impact Statement. These include: Alternative A, No Action—continues current management; Alternative B—enables visitor participation in a wide variety of outdoor recreational experiences; Alternative F—emphasizes resource preservation, restoration, and research while providing recreational opportunities with limited facilities and support; and the Preferred Alternative—provides diverse frontcountry and backcountry recreational opportunities, enhances day use and interpretive opportunities along road corridors, and enhances recreational opportunities with new facilities and services. The Environmental Impact Statement also evaluated the impacts of a wilderness study and an off-road vehicle management plan.

The Preferred Alternative is NPS' selected alternative. The ROD includes a statement of the decision made, a description of mitigation measures and monitoring, synopses of other alternatives considered, the basis for the decision, a description of the

environmentally preferable alternative, an overview of public involvement in the decision-making process, the U.S. Fish and Wildlife Service's Biological Opinion for the project, a finding of no impairment of Preserve resources and values, and a Floodplain Statement of Findings.

ADDRESSES: The ROD is available online at <http://parkplanning.nps.gov/bicy>. You may request a hard copy by contacting Pedro Ramos, Superintendent, Big Cypress National Preserve, 33100 Tamiami Trail East, Ochopee, FL 34141-1000.

Bureau of Reclamation

Agency Information Collection; Activities Under OMB Review; Comment Request

AGENCY: Bureau of Reclamation, Interior.

ACTION: Notice of renewal of a currently approved collection (OMB No. 1006-0005).

SUMMARY: The Bureau of Reclamation (we, our, or us) has forwarded the following Information Collection Request (ICR) to the Office of Management and Budget (OMB) for review and approval: Individual Landholder's Certification and Reporting Forms for Acreage Limitation. The ICR describes the nature of the information collection and its expected cost and burden.

DATES: OMB has up to 60 days to approve or disapprove this information collection, but may respond after 30 days; therefore, public comments must be received on or before June 22, 2011 to assure maximum consideration.

ADDRESSES: Send written comments regarding the burden estimate, or any other aspect of the information collection, including suggestions for reducing the burden, to the Desk Officer for the Department of the Interior at the Office of Management and Budget, Office of Information and Regulatory Affairs, via facsimile to (202) 395-5806, or e-mail to OIRA_DOCKET@omb.eop.gov. A copy of your comments should also be directed to the Bureau of Reclamation, Attention: 84-53000, P.O. Box 25007, Denver, CO 80225-0007.

FOR FURTHER INFORMATION CONTACT: Stephanie McPhee at (303) 445-2897. The entire Information Collection Request may be found at <http://www.reginfo.gov>.

SUPPLEMENTARY INFORMATION:

Title: Individual Landholder's Certification and Reporting Forms for Acreage Limitation, 43 CFR part 426 and 43 CFR part 428.

Abstract: This information collection requires certain landholders (direct or indirect landowners or lessees) and farm operators to complete forms demonstrating their compliance with the acreage limitation provisions of Federal reclamation law, as required

under the Reclamation Reform Act of 1982 (RRA), Acreage Limitation Rules and Regulations, 43 CFR part 426, and Information Requirements for Certain Farm Operations In Excess of 960 Acres and the Eligibility of Certain Formerly Excess Land, 43 CFR part 428. Responses are required to retain or obtain a benefit. These forms are submitted to districts that use the information to establish each landholder's status with respect to landownership limitations, full-cost pricing thresholds, lease requirements, and other provisions of Federal reclamation law. In addition, forms are submitted by certain farm operators to provide information concerning the services they provide and the nature of their farm operating arrangements. All landholders whose entire westwide landholdings total 40 acres or less are exempt from the requirement to submit RRA forms. Landholders who are "qualified recipients" have RRA forms submittal thresholds of 80 acres or 240 acres depending on the district's RRA forms submittal threshold category where the land is held. Only farm operators who provide multiple services to more than 960 acres held in trusts or

by legal entities are required to submit forms.

Minor editorial changes were made to the forms and instructions prior to the 60-day comment period initiated by the notice published in the **Federal Register** (75 FR 59740, Sept. 28, 2010). These changes are designed to assist the respondents by increasing their understanding of the forms, clarifying the instructions for use when completing the forms, and clarifying the information that is required to be submitted to the districts with the forms. No public comments were received in response to that notice. The proposed revisions to the RRA forms will be effective in the 2012 water year.

Frequency: Annually.

Respondents: Landholders and farm operators of certain lands in our projects, whose landholdings exceed specified RRA forms submittal thresholds.

Comments

Comments are invited on:

(a) Whether the proposed collection of information is necessary for the proper performance of our functions, including whether the information will have practical use;

(b) Accuracy of our burden estimate for the proposed collection of information;

(c) Ways to enhance the quality, usefulness, and clarity of the information to be collected; and

(d) Ways to minimize the burden of the collection of information on respondents, including the use of automated collection techniques or other forms of information technology.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information

unless it displays a currently valid OMB control number. Reclamation will display a valid OMB control number on the RRA forms.

Before including your address, telephone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any

time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.
