

below ground containing one reversible pump turbine with a total installed generating capacity of 250 MW; (6) a transformer hall; (7) a lower reservoir with a storage capacity of 4,200 to 5,000 acre-feet; (8) a ventilation shaft and ventilation building at the northern end of the lower reservoir; and (9) various ancillary access shafts and tunnels. The proposed Stage 3 would generate over 500 gigawatt-hours per year.

(d) Stage 4 would be a separate development with identical features as of Stage 3, including the following: (1) The lower reservoir utilized in Stage 2, located 1,700 feet below the ground surface, would serve as the upper reservoir in Stage 4 and would have a total storage capacity of 4,000 to 5,000 acre-feet. The upper reservoir would be filled with water pumped out of the Mount Hope Mine Complex and have a normal maximum water surface elevation at 1,600 feet below the ground surface. The Mount Hope inactive mine would provide access to the lower reservoir located at 2,500 feet below the ground surface; (2) a reinforced concrete intake/outlet structure capable of discharging 1,500 cfs; (3) a 10-foot-diameter, 1,100-foot-long reinforced concrete vertical intake shaft; (4) an 8-foot-diameter underground penstock; (5) a powerhouse approximately 2,800 feet below ground containing a reversible pump turbine with a total installed generating capacity of 250 MW; (6) a transformer hall; (7) a lower reservoir which consist of the lower reservoir of Stage 3; (8) a ventilation shaft and ventilation building at the northern end of the lower reservoir; and (9) various ancillary access shafts and tunnels. The proposed Stage 4 would generate over 500 gigawatt-hours per year.

The total rated capacity of the turbines and generators of the project is 1,000 MW. Upon completion, the proposed project would generate over 2,000 gigawatt-hours annually. The proposed project would also include two parallel 10.60-mile-long, 500-kilovolt transmission lines interconnecting with the proposed Jefferson Substation, located approximately 5.3 miles north-northwest of Mt. Hope Lake. The transmission line right-of-way would parallel an existing transmission line owned by Public Services Electric and Gas Company for 4.3 miles and would traverse mostly undeveloped forest lands, two lakes and five streams. The primary transmission line of the proposed project would be located in part on federal land. Specifically, the transmission line would traverse a portion of the northern and eastern edge

of the U.S. Army's Picatinny Arsenal for a total of approximately 2.4 miles.

*Applicant Contact:* Ms. Ramya Swaminathan, Reliable Storage, LLC, 239 Causeway Street, Boston, MA 02114; phone: (978) 252-7631.

*FERC Contact:* Monir Chowdhury; phone: (202) 502-6736.

Deadline for filing comments, motions to intervene, competing applications (without notices of intent), or notices of intent to file competing applications: 60 days from the issuance of this notice. Competing applications and notices of intent must meet the requirements of 18 CFR 4.36. Comments, motions to intervene, notices of intent, and competing applications may be filed electronically via the Internet. See 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site <http://www.ferc.gov/docs-filing/efiling.asp>. Commenters can submit brief comments up to 6,000 characters, without prior registration, using the eComment system at <http://www.ferc.gov/docs-filing/ecomment.asp>. You must include your name and contact information at the end of your comments. For assistance, please contact FERC Online Support at [FERCOnlineSupport@ferc.gov](mailto:FERCOnlineSupport@ferc.gov) or toll free at 1-866-208-3676, or for TTY, (202) 502-8659. Although the Commission strongly encourages electronic filing, documents may also be paper-filed. To paper-file, mail an original and seven copies to: Kimberly D. Bose, Secretary, Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

More information about this project, including a copy of the application, can be viewed or printed on the "eLibrary" link of the Commission's Web site at <http://www.ferc.gov/docs-filing/elibrary.asp>. Enter the docket number (P-14114-000) in the docket number field to access the document. For assistance, contact FERC Online Support.

Dated: May 17, 2011.

## DEPARTMENT OF ENERGY

### Federal Energy Regulatory Commission

[Docket No. CP11-473-000]

#### Transcontinental Gas Pipe Line Company, LLC; Notice of Request Under Blanket Authorization

Take notice that on May 5, 2011 Transcontinental Gas Pipe Line Company, LLC (Transco), Post Office Box 1396, Houston, Texas 77251, pursuant to section 7 of the Natural Gas Act, the prior notice procedures prescribed by sections 157.205 and 157.216 of the Federal Energy Regulatory Commission's Regulations, and Transco's blanket certificate issued in Docket No. CP82-426, filed a request for authorization to abandon by sale to Williams Field Services—Gulf Coast Company, L.P.<sup>1</sup> (WFS) an existing 10-inch natural gas pipeline located in St. Charles, St. James and St. John the Baptist Parishes, Louisiana extending eastward 18.55 miles and appurtenant facilities. Transco states that the total cost of the abandonment is estimated to be approximately \$125,000, all as more fully set forth in the application, which is open to the public for inspection. The filing may also be viewed on the Web at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, contact FERC at [FERCOnlineSupport@ferc.gov](mailto:FERCOnlineSupport@ferc.gov) or call toll-free, (866) 208-3676 or TTY, (202) 502-8659.

Any questions regarding this prior notice should be directed to Nan Mikovsky, Transcontinental Gas Pipe Line Company, LLC, P.O. Box 1396, Houston, Texas 77251, or by telephone no. (713) 215-3422.

Any person may, within 60 days after the issuance of the instant notice by the Commission, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention. Any person filing to intervene or the Commission's staff may, pursuant to section 157.205 of the Commission's Regulations under the NGA (18 CFR 157.205) file a protest to the request. If no protest is filed within the time allowed therefore, the proposed activity shall be deemed to be authorized effective the day after the time allowed for protest. If a protest is filed and not withdrawn within 30 days after the time allowed for filing a

<sup>1</sup> WFS is a Delaware limited partnership having an address of One Williams Center, Tulsa, Oklahoma 74172.

protest, the instant request shall be treated as an application for authorization pursuant to section 7 of the NGA.

The Commission strongly encourages electronic filings of comments, protests, and interventions via the Internet in lieu of paper. See 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site (<http://www.ferc.gov>) under the "e-Filing" link. Persons unable to file electronically should submit an original and 14 copies of the protest or intervention to the Federal Energy regulatory Commission, 888 First Street, NE., Washington, DC 20426.

*Comment Date:* June 7, 2011.

Dated: May 17, 2011.

**Kimberly D. Bose,**  
Secretary.

## ENVIRONMENTAL PROTECTION AGENCY

[FRL-9309-8]

### Science Advisory Board Staff Office Notification of a Public Meeting of the SAB Mercury Review Panel

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** The Environmental Protection Agency (EPA or Agency) Science Advisory Board (SAB) Staff Office announces a public meeting of the SAB Mercury Review Panel.

**DATES:** The meeting will be held on June 15, 2011 and June 16, 2011 from 9 a.m. to 5 p.m. and on June 17, 2011 from 8:30 a.m. to 2:30 p.m. (Eastern Time).

**ADDRESSES:** The Panel meeting will be held at the Marriott at Research Triangle Park, 4700 Guardian Drive, Durham, NC, 27703.

**FOR FURTHER INFORMATION CONTACT:**

Members of the public who wish to obtain further information regarding this meeting may contact Dr. Angela Nugent, Designated Federal Officer (DFO), SAB Staff Office, by telephone/voice mail at (202) 564-2188; by fax at (202) 565-2098 or via e-mail at [nugent.angela@epa.gov](mailto:nugent.angela@epa.gov). General information concerning the EPA Science Advisory Board can be found at the EPA SAB Web site at <http://www.epa.gov/sab>.

**SUPPLEMENTARY INFORMATION:**

*Background:* The SAB was established pursuant to the Environmental Research, Development,

and Demonstration Authorization Act (ERDAA), codified at 42 U.S.C. 4365, to provide independent scientific and technical advice to the Administrator on the technical basis for Agency positions and regulations. The SAB is a Federal Advisory Committee chartered under the Federal Advisory Committee Act (FACA), 5 U.S.C., App. 2. Pursuant to FACA and EPA policy, notice is hereby given that the SAB Mercury Review Panel will hold a public meeting to review EPA's *Technical Support Document: National-Scale Mercury Risk Assessment Supporting the Appropriate and Necessary Finding for Coal and Oil-Fired Electric Generating Units—March 2011*. The Panel will comply with the provisions of FACA and all appropriate SAB Staff Office procedural policies.

EPA's Office of Air and Radiation has requested peer review of the March 2011 draft risk assessment for mercury, entitled *Technical Support Document: National-Scale Mercury Risk Assessment Supporting the Appropriate and Necessary Finding for Coal and Oil-Fired Electric Generating Units—March 2011*. This technical document was developed to support a proposed rule concerning regulation of hazardous air pollutants (HAPs) released from coal-burning electric generating units in the United States (U.S. EGUs) under Section 112(n)(1)(A) of the Clean Air Act (CAA). This regulation may potentially use a Maximally Achievable Control Device (MACT) approach to set a technology-based standard for reducing HAP emissions.

The SAB announced this peer review and requests for public nomination of experts to serve on an *ad hoc* review panel on February 28, 2011 (76 FR 10896-10897) and March 30, 2011 (76 FR 17649-17650). Information about formation of the Mercury Review Panel can be found at [http://yosemite.epa.gov/sab/sabproduct.nsf/fedrgstr\\_activites/A%26N%20Hg%20Risk%20Assessment%20TSD?OpenDocument](http://yosemite.epa.gov/sab/sabproduct.nsf/fedrgstr_activites/A%26N%20Hg%20Risk%20Assessment%20TSD?OpenDocument).

*Availability of Meeting Materials:* The agenda will be available on the SAB Web site at [http://yosemite.epa.gov/sab/sabproduct.nsf/fedrgstr\\_activites/A%26N%20Hg%20Risk%20Assessment%20TSD?OpenDocument](http://yosemite.epa.gov/sab/sabproduct.nsf/fedrgstr_activites/A%26N%20Hg%20Risk%20Assessment%20TSD?OpenDocument) in advance of the meeting.

*EPA contact for background on the draft document to be reviewed:* For questions concerning the development of EPA's mercury assessment, on the Web site at [http://www.epa.gov/ttn/atw/utility/pro/hg\\_risk\\_tsd\\_3-17-11.pdf](http://www.epa.gov/ttn/atw/utility/pro/hg_risk_tsd_3-17-11.pdf), please contact Dr. Zachary Pekar at (919) 541-3704 or [pekar.zachary@epa.gov](mailto:pekar.zachary@epa.gov).

*Procedures for Providing Public Input:* Public comment for consideration by EPA's federal advisory committees and panels has a different purpose from public comment provided to EPA program offices. Therefore, the process for submitting comments to a federal advisory committee is different from the process used to submit comments to an EPA program office.

Federal advisory committees and panels, including scientific advisory committees, provide independent advice to EPA. Members of the public can submit comments for a federal advisory committee to consider as it develops advice for EPA. Input from the public to the SAB will have the most impact if it provides specific scientific or technical information or analysis for SAB panels to consider or if it relates to the clarity or accuracy of the technical information. Members of the public wishing to provide comment should contact the Designated Federal Officer for the relevant advisory committee directly. *Oral Statements:* In general, individuals or groups requesting an oral presentation at this public meeting will be limited to five minutes per speaker. Interested parties should contact Dr. Angela Nugent, DFO, in writing (preferably via e-mail), at the contact information noted above, by June 10, 2011 to be placed on the list of public speakers for the meeting.

*Written Statements:* Written statements should be received in the SAB Staff Office by June 10, 2011 so that the information may be made available to the Panel for their consideration. Written statements should be supplied to the DFO in electronic format via e-mail (acceptable file formats: Adobe Acrobat PDF, WordPerfect, MS Word, MS PowerPoint, or Rich Text files in IBM-PC/Windows 98/2000/XP format). It is the SAB Staff Office general policy to post written comments on the Web page for the advisory meeting or teleconference. Submitters are requested to provide an unsigned version of each document because the SAB Staff Office does not publish documents with signatures on its Web sites. Members of the public should be aware that their personal contact information, if included in any written comments, may be posted to the SAB Web site. Copyrighted material will not be posted without explicit permission of the copyright holder.

*Accessibility:* For information on access or services for individuals with disabilities, please contact Dr. Angela Nugent at the phone number or e-mail address noted above, preferably at least ten days prior to the meeting, to give
