SUPPLEMENTARY INFORMATION: The Occupational Employment Statistics (OES) program has been funded to collect and produce objective and reliable information on occupational employment and wages for green jobs at the establishment level. This is to be conducted through a special employer survey. This work is necessary to meet the publication objective outlined in the FY2010 Congressional Appropriation. The GTP Survey will collect information on jobs within firms that use green technologies and practices as a part of business operations, regardless of the products or services produced.

OMB clearance is being sought for the "BLS Green Technologies and Practices Survey." The goal of the BLS and its OES program is to produce economic statistics on employment related to the use of environmentally friendly technologies and practices across the U.S. economy. Using its business establishment register, the OES program intends to survey establishments about these green activities and the associated employment. The survey will identify employers performing green activities, determine whether they have any employees performing tasks associated with these activities, gather information to classify those employees according to the Standard Occupational Classification (SOC) system, and collect wage rate information.

This proposed information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information if the collection of information does not display a valid OMB control number. See 5 CFR 1320.5(a) and 1320.6. For additional information, see the related notice published in the **Federal Register** on February 3, 2011 (76 FR 6161).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the **ADDRESSES** section within 30 days of the publication of this notice in the **Federal Register**. In order to help ensure appropriate consideration, comments should reference ICR Reference Number 121103-1220-003. *The OMB is particularly interested in comments that:*

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected;
