

model year after MY 1996. The final rule became effective September 1, 2006.

Prior to September 1, 2006, manufacturers were only allowed to petition NHTSA for high-theft vehicles lines. In its April 6, 2004 final rule, the agency amended part 543 to allow vehicle manufacturers to file petitions to exempt all vehicle lines that would become subject to parts-marking requirements beginning with the effective date of the final rule. As a result of this amendment, vehicle manufacturers are allowed to file petitions to exempt all vehicle lines that would become subject to the parts-marking requirements regardless of their theft status (high or low).

There are approximately 27 vehicle manufacturers that could request an exemption (one exemption per manufacturer per model year), although 23 petitions for exemption from the parts-marking requirements were received by the agency for MYs 2011–2013. This is an average of approximately 8 responses per year. NHTSA anticipates that this will remain the average number of yearly responses that will be received by the agency.

NHTSA estimates that the average hours per submittal will be 226, for a total annual burden of 1,808. This is a decrease from the previous OMB inventory of 3,164 hours. NHTSA estimates that the cost associated with the burden hours is \$36.62 per hour, for a total cost of approximately \$66,209.

Affected Public: Motor vehicle manufacturers.

Estimated Total Annual Burden: NHTSA estimates that the vehicle manufacturers will incur a total annual reporting hour and cost burden of 1,808 hours and \$66,209. There would be no additional cost to motor vehicle manufacturers that would require it to comply to this regulation.

Receipt of Petition for Decision That Nonconforming 2007–2011 Suzuki GSX1300R Motorcycles Are Eligible for Importation

AGENCY: National Highway Traffic Safety Administration, DOT.

ACTION: Notice of receipt of petition for decision that nonconforming 2007–2011 Suzuki GSX1300R Motorcycles are eligible for importation.

SUMMARY: This document announces receipt by the National Highway Traffic Safety Administration (NHTSA) of a petition for a decision that 2007–2011 Suzuki GSX1300R Motorcycles that were not originally manufactured to comply with all applicable Federal Motor Vehicle Safety Standards (FMVSS) are eligible for importation into the United States because (1) they are substantially similar to vehicles that were originally manufactured for sale in the United States and that were certified by their manufacturer as complying with the safety standards, and (2) they are capable of being readily altered to conform to the standards.

DATE: The closing date for comments on the petition is June 23, 2011.

SUPPLEMENTARY INFORMATION:

Background

Under 49 U.S.C. 30141(a)(1)(A), a motor vehicle that was not originally manufactured to conform to all applicable FMVSS shall be refused admission into the United States unless NHTSA has decided that the motor vehicle is substantially similar to a motor vehicle originally manufactured for sale in the United States, certified under 49 U.S.C. 30115, and of the same model year as the model of the motor vehicle to be compared, and is capable of being readily altered to conform to all applicable FMVSS.

Petitions for eligibility decisions may be submitted by either manufacturers or importers who have registered with NHTSA pursuant to 49 CFR part 592. As specified in 49 CFR 593.7, NHTSA publishes notice in the **Federal Register** of each petition that it receives, and affords interested persons an opportunity to comment on the petition. At the close of the comment period, NHTSA decides, on the basis of the petition and any comments that it has received, whether the vehicle is eligible for importation. The agency then publishes this decision in the **Federal Register**.

US SPECS, LLC (“US SPECS”), of Havre de Grace, Maryland (Registered Importer 03–321) has petitioned NHTSA to decide whether non-U.S. certified 2007–2011 Suzuki GSX1300R motorcycles are eligible for importation into the United States. The vehicles that US SPECS believes are substantially similar are 2007–2011 Suzuki GSX1300R motorcycles that were manufactured for sale in the United States and certified by their

manufacturer as conforming to all applicable FMVSS.

The petitioner claims that it carefully compared non-U.S. certified 2007–2011 Suzuki GSX1300R motorcycles to their U.S. certified counterparts, and found the vehicles to be substantially similar with respect to compliance with most FMVSS.

US SPECS submitted information with its petition intended to demonstrate that non-U.S. certified 2007–2011 Suzuki GSX1300R motorcycles, as originally manufactured, conform to many FMVSS in the same manner as their U.S. certified counterparts, or are capable of being readily altered to conform to those standards.

Specifically, the petitioner claims that non-U.S. certified 2007–2011 Suzuki GSX1300R motorcycles are identical to their U.S. certified counterparts with respect to compliance with Standard Nos. 106 *Brake Hoses*, 116 *Brake Fluid*, 119 *New Pneumatic Tires for Vehicles other than Passenger Cars*, and 122 *Motorcycle Brake Systems*.

The petitioner further contends that the vehicles are capable of being readily altered to meet the following standards, in the manner indicated below:

Standard No. 108 *Lamps, Reflective Devices and Associated Equipment*: installation of the following U.S.-certified components on vehicles not already so equipped: (a) Headlamp; (b) front and rear side-mounted reflex reflectors; (c) rear-mounted reflex reflector; (d) rear turn signal lamps; (e) stoplamp; (f) taillamp; and (g) license plate lamp.

Standard No. 111 *Rearview Mirrors*: inspection of all vehicles, and installation of U.S.-model mirrors on vehicles that are not already so equipped.

Standard No. 120 *Tire Selection and Rims for Vehicles other than Passenger Cars*: installation of a tire information placard.

Standard No. 123 *Motorcycle Controls and Displays*: installation of a U.S.-model speedometer/odometer unit and installation of a lighting control assembly mounted on the left-hand side of the handlebars to meet the requirements of this standard on vehicles that are not already so equipped.

Standard No. 205 *Glazing Materials*: inspection of all vehicles, and removal of noncompliant glazing or replacement of the glazing with U.S.-certified components on vehicles that are not already so equipped.

All comments received before the close of business on the closing date indicated above will be considered, and

will be available for examination in the docket at the above addresses both before and after that date. To the extent possible, comments filed after the closing date will also be considered. Notice of final action on the petition will be published in the **Federal Register** pursuant to the authority indicated below.

Authority: 49 U.S.C. 30141(a)(1)(A) and (b)(1); 49 CFR 593.8; delegations of authority at 49 CFR 1.50 and 501.8.

Issued on: May 19, 2011.

Director, Office of Vehicle Safety Compliance.
