

NHTSA has decided that the motor vehicle is substantially similar to a motor vehicle originally manufactured for importation into and sale in the United States, certified under 49 U.S.C. 30115, and of the same model year as the model of the motor vehicle to be compared, and is capable of being readily altered to conform to all applicable FMVSS.

Petitions for eligibility decisions may be submitted by either manufacturers or importers who have registered with NHTSA pursuant to 49 CFR part 592. As specified in 49 CFR 593.7, NHTSA publishes notice in the **Federal Register** of each petition that it receives, and affords interested persons an opportunity to comment on the petition. At the close of the comment period, NHTSA decides, on the basis of the petition and any comments that it has received, whether the vehicle is eligible for importation. The agency then publishes this decision in the **Federal Register**.

J.K. Technologies, LLC ("JK"), of Baltimore, Maryland (Registered Importer 90-006) has petitioned NHTSA to decide whether nonconforming 2006 Mercedes-Benz CLS class passenger cars manufactured prior to September 1, 2006, are eligible for importation into the United States. The vehicles which JK believes are substantially similar are 2006 Mercedes-Benz CLS class passenger cars manufactured prior to September 1, 2006, that were manufactured for sale in the United States and certified by their manufacturer as conforming to all applicable FMVSS.

The petitioner claims that it compared non-U.S. certified 2006 Mercedes-Benz CLS class passenger cars manufactured prior to September 1, 2006, to their U.S.-certified counterparts, and found the vehicles to be substantially similar with respect to compliance with most FMVSS.

JK submitted information with its petition intended to demonstrate that non-U.S. certified 2006 Mercedes-Benz CLS class passenger cars manufactured prior to September 1, 2006, as originally manufactured, conform to many FMVSS in the same manner as their U.S. certified counterparts, or are capable of being readily altered to conform to those standards.

Specifically, the petitioner claims that non-U.S. certified 2006 Mercedes-Benz CLS class passenger cars manufactured prior to September 1, 2006 are identical to their U.S. certified counterparts with respect to compliance with Standard Nos. 102 *Transmission Shift Lever Sequence, Starter Interlock, and Transmission Braking Effect*, 103

Windshield Defrosting and Defogging Systems, 104 *Windshield Wiping and Washing Systems*, 106 *Brake Hoses*, 109 *New Pneumatic Tires*, 113 *Hood Latch System*, 116 *Motor Vehicle Brake Fluids*, 124 *Accelerator Control Systems*, 135 *Light Vehicle Brake Systems*, 201 *Occupant Protection in Interior Impact*, 202 *Head Restraints*, 204 *Steering Control Rearward Displacement*, 205 *Glazing Materials*, 206 *Door Locks and Door Retention Components*, 207 *Seating Systems*, 210 *Seat Belt Assembly Anchorages*, 212 *Windshield Mounting*, 214 *Side Impact Protection*, 216 *Roof Crush Resistance*, 219 *Windshield Zone Intrusion*, 301 *Fuel System Integrity*, and 302 *Flammability of Interior Materials*.

The petitioner also contends that the vehicles are capable of being readily altered to meet the following standards, in the manner indicated:

Standard No. 101 *Controls Telltales, and Indicators*: installation of U.S. conforming instrument cluster and cruise control lever, and installation or activation of associated U.S.-version software in the vehicle's computer system.

Standard No. 108 *Lamps, Reflective Devices and Associated Equipment*: installation of the following U.S.-model components on vehicles not already so equipped: (a) Front sidemarker lamps with integral side reflex reflectors; (b) headlamps; (c) integral tail lamp housings that includes rear side marker, rear turn signal, and brake lamps, as well as rear and side reflex reflectors.

Standard No. 110 *Tire Selection and Rims for Motor Vehicles with a GVWR of 4,536 kilograms (10,000 pounds) or Less*: installation of a tire information placard.

Standard No. 111 *Rearview Mirrors*: installation of a U.S.-model passenger side rearview mirror, or inscription of the required warning statement on the face of that mirror.

Standard No. 114 *Theft Protection*: installation of a supplemental key warning buzzer, or installation or activation of U.S.-version software to meet the requirements of this standard.

Standard No. 118 *Power-Operated Window, Partition, and Roof Panel Systems*: installation or activation of U.S.-version software in the vehicle's computer system to meet the requirements of this standard.

Standard No. 208 *Occupant Crash Protection*: inspection of all vehicles and replacement of any non U.S.-conforming model seat belts, air bag control units, air bags, and sensors with U.S.-model components on vehicles that are not already so equipped; and (b) installation or activation of U.S.-version

software to ensure that the seat belt warning system meets the requirements of this standard.

Standard No. 209 *Seat Belt Assemblies*: inspection of all vehicles and replacement of any nonconforming model seat belts with U.S.-model components.

Standard No. 225 *Child Restraint Anchorage Systems*: installation of U.S.-model child restraint anchorage systems components.

Standard No. 401 *Interior Trunk Release*: installation of U.S.-model interior trunk release components.

The petitioner additionally states that a vehicle identification plate must be affixed to the vehicles near the left windshield post to meet the requirements of 49 CFR Part 565.

All comments received before the close of business on the closing date indicated above will be considered, and will be available for examination in the docket at the above addresses both before and after that date. To the extent possible, comments filed after the closing date will also be considered. Notice of final action on the petition will be published in the **Federal Register** pursuant to the authority indicated below.

Authority: 49 U.S.C. 30141(a)(1)(A) and (b)(1); 49 CFR 593.8; delegations of authority at 49 CFR 1.50 and 501.8.

Issued on: May 19, 2011.
