SUPPLEMENTARY INFORMATION: The Regional Advisory Committees are established under section 206 of the Education Technical Assistance Act of 2002, (20 U.S.C. 9605). The RACs are to advise the Secretary by (1) conducting an educational needs assessment of each region identified in section 174(b) of the Education Sciences Reform Act of 2002; and (2) submitting reports for each region based on the regional assessments no later than four months after the committees are first convened.

Meeting Purpose: The purpose of these meetings is for each RAC to conduct a minimum of two 2-hour meetings to deliberate on the findings and to prepare their region's educational needs assessment report.

Meeting 1: The RACs will (1) review input received from stakeholders and, based on the information received, deliberate and make recommendations about the critical education needs of the region. The RACs will also (2) recommend how those educational needs could best be addressed.

Meeting 2: RAC members will meet to deliberate on and finalize the education needs assessment report for their region.

The public may listen to the proceedings of the meetings via real-time webinar conferencing. Registration for each meeting will be open two weeks prior to the scheduled date of the meeting and close two hours before the meeting convenes. The public may register for the webinar meetings at <http://www.seiservices.com/rac/>.

Preregistration is required. The number of public registrations is limited to 300, and requests will be accommodated on a first-come first-served basis.

Individuals who will need special accommodations to view meeting proceedings online (*i.e.* interpreting services, assistive listening devices, materials in an alternative format) should indicate what accommodation is needed at the time of registration, at least seven days prior to the webinar meeting. We will attempt to meet requests after this date, but cannot guarantee availability of the requested accommodation. Due to time constraints, there will not be an opportunity for public comment. However, members of the public are encouraged to submit written comments at <http://www.seiservices.com/rac/>.

A summary of each meeting will be available online at <http://www.seiservices.com/rac/> within fourteen days of the final meeting for public inspection. Feedback from this and other outreach will be used to inform the Comprehensive Centers Program competition in fiscal year (FY) 2012.

Thelma Meléndez de Santa Ana,

Assistant Secretary for Elementary and Secondary Education.

BILLING CODE 4000-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[OE Docket No. EA-381]

Application to Export Electric Energy; E-T Global Energy, LLC

AGENCY: Office of Electricity Delivery and Energy Reliability, DOE.

ACTION: Notice of application.

SUMMARY: E-T Global Energy, LLC (E-T Global) has applied for authority to transmit electric energy from the United States to Mexico pursuant to section 202(e) of the Federal Power Act.

DATES: Comments, protests, or motions to intervene must be submitted on or before June 9, 2011.

ADDRESSES: Comments, protests, or motions to intervene should be addressed to: Christopher Lawrence, Office of Electricity Delivery and Energy Reliability, Mail Code: OE-20, U.S. Department of Energy, 1000 Independence Avenue, SW., Washington, DC 20585-0350. Because of delays in handling conventional mail, it is recommended that documents be transmitted by overnight mail, by electronic mail to Christopher.Lawrence@hq.doe.gov, or by facsimile to 202-586-8008.

FOR FURTHER INFORMATION CONTACT: Christopher Lawrence (Program Office) 202-586-5260.

SUPPLEMENTARY INFORMATION: Exports of electricity from the United States to a foreign country are regulated by the Department of Energy (DOE) pursuant to sections 301(b) and 402(f) of the Department of Energy Organization Act (42 U.S.C. 7151(b), 7172(f)) and require authorization under section 202(e) of the FPA (16 U.S.C. 824a(e)).

On May 10, 2011, DOE received an application from E-T Global for authority to transmit electric energy from the United States to Mexico for five years as a power marketer using existing international transmission facilities. E-T Global does not own any electric transmission facilities nor does it hold a franchised service area.

The electric energy that E-T Global proposes to export to Mexico would be surplus energy purchased from electric utilities and other entities within the United States. The existing international transmission facilities to be utilized by E-T Global have previously been authorized by Presidential permits issued pursuant to Executive Order 10485, as amended, and are appropriate for open access transmission by third parties.

In its application, E-T Global requested that DOE expedite the processing of this application in order for E-T Global to begin exports in compliance with the terms of its Master Sale and Purchase Agreement with the Commission Federal de Electricidad (CFE). Accordingly, DOE has shortened the public comment period to 15 days.

Procedural Matters: Any person desiring to be heard in this proceeding

should file a comment or protest to the application at the address provided above. Protests should be filed in accordance with Rule 211 of the Federal Energy Regulatory Commission's (FERC) Rules of Practice and Procedures (18 CFR 385.211). Any person desiring to become a party to these proceedings should file a motion to intervene at the above address in accordance with FERC Rule 214 (18 CFR 385.211, 385.214). Fifteen copies of each comment, protest, or motion to intervene should be filed with DOE on or before the date listed above.

Comments, protests, or motions to intervene on the E-T Global application to export electric energy to Mexico should be clearly marked with Docket No. EA-381. An additional copy of each document is to be filed directly with Eduardo Padilla, Compliance Manager, E-T Global Energy, LLC, 505 North Big Spring, Suite 101, Midland, TX 79701. A final decision will be made on this application after the environmental impacts have been evaluated pursuant to DOE's National Environmental Policy Act Implementing Procedures (10 CFR Part 1021) and a determination is made by DOE that the proposed action will not have an adverse impact on the reliability of the U.S. electric power supply system.

Copies of this application will be made available, upon request, for public inspection and copying at the address provided above, by accessing the program Web site at http://www.oe.energy.gov/permits_pending.htm, or by e-mailing Odessa Hopkins at Odessa.hopkins@hq.doe.gov.

Issued in Washington, DC, on May 19, 2011.

Anthony J. Como,

Director, Permitting and Siting, Office of Electricity Delivery and Energy Reliability.
