A Report and Order, FCC 02-78, adopted and released in March 2002 (Order), set forth the procedures for common carriers requiring authorization under section 214 of the Communications Act of 1934, as amended, to acquire domestic interstate transmission lines through a transfer of control. Under section 214 of the Act, carriers must obtain FCC approval before constructing, acquiring, or operating an interstate transmission line. Acquisitions involving interstate common carriers require affirmative action by the Commission before the acquisition can occur. This information collection contains filing procedures for domestic transfer of control applications under sections 63.03 and 63.04. (a) Section 63.03 and 63.04 requires domestic section 214 applications involving domestic transfers of control, at a minimum, should specify: (1) The name, address and telephone number of each applicant; (2) the government, state, or territory under the laws of which each corporate or partnership applicant is organized; (3) the name, title, post office address, and telephone number of the officer or contact point, such as legal counsel, to whom correspondence concerning the

application is to be addressed; (4) the name, address, citizenship and principal business of any person or entity that directly or indirectly owns at least ten percent of the equity of the applicant, and the percentage of equity owned by each of those entities (to the nearest one percent); (5) certification pursuant to 47 CFR 1.2001 that no party to the application is subject to a denial of Federal benefits pursuant to section 5301 of the Anti-Drug Abuse Act of 1988; (6) a description of the transaction; (7) a description of the geographic areas in which the transferor and transferee (and their affiliates) offer domestic telecommunications services, and what services are provided in each area; (8) a statement as to how the application fits into one or more of the presumptive streamlined categories in section 63.03 or why it is otherwise appropriate for streamlined treatment; (9) identification of all other Commission applications related to the same transaction; (10) a statement of whether the applicants are requesting special consideration because either party to the transaction is facing imminent business failure; (11) identification of any separately filed waiver request being sought in conjunction with the transaction; and (12) a statement showing how grant of the application will serve the public interest, convenience, and necessity, including any additional information that may be necessary to show the effect of the proposed transaction on competition in domestic markets. Where an applicant wishes to file a joint international section 214 transfer of control application and domestic section 214 transfer of control application, the applicant must submit information that satisfies the requirements of 47 CFR 63.18. In the attachment to the international application, the applicant must submit information described in 47 CFR 63.04(a)(6). When the Commission, acting through the Wireline Competition Bureau, determines that applicants have submitted a complete application qualifying for streamlined treatment, it shall issue a public notice commencing a 30-day review period to consider whether the transaction serves the public interest, convenience and necessity. Parties will have 14 days to file any comments on the proposed transaction, and applicants will be given 7 days to respond. (b) Applicants are not required to file post-consummation notices of pro forma transactions, except that a post transaction notice must be filed with the Commission within 30 days of a pro forma transfer to a

bankruptcy trustee or a debtor-in-possession. The notification can be in the form of a letter (in duplicate to the Secretary, Federal Communications Commission). The letter or other form of notification must also contain the information listed in sections (a)(1). A single letter may be filed for more than one such transfer of control. The information will be used by the Commission to ensure that applicants comply with the requirements of 47 U.S.C. 214.

Additional ARMIS Reports were added in 1991 and 1992. Incumbent LECs must submit the ARMIS reports to the Commission annually on or before April 1. See Reporting Requirements of Certain Class A and Tier I Telephone Companies (Parts 31, 43, 67 and 69 of the FCC's Rules), Order, 2 FCC Rcd 5770 (1987).

Frequency of Response: Annual reporting requirements.

Nature of Extent of Confidentiality: This collection addresses information of a confidential nature for two of these reports. Respondents have requested and filed for confidential treatment of information they believe should be withheld from public inspection under 47 CFR 0.459 of the Commission's rules.

Needs and Uses: FCC Report 43-02 is prescribed for each incumbent local

exchange carrier with annual operating revenues for the preceding year equal to or above the indexed revenue threshold. The report collects the operating results of the carrier's total activities for every account in the Uniform System of Accounts at the operating company level, as specified in Part 32 of the Commission's Rules. There are no changes to the ARMIS Report 43-02.

ARMIS Report 43-05 is prescribed for every mandatory price cap ILEC and local exchange carriers electing the incentive regulation plan. This report is designed to capture trends in service quality under price cap regulation. It provides service quality information in the areas of interexchange access service installation and repair intervals, local service installation and repair intervals, trunk blockage, and total switch downtime for price cap companies. We are adjusting the number of respondents submitting the 43-05 from 14 to 15 to reflect a carrier that was not included in the prior approval process.

ARMIS Report 43-07 is prescribed for every ILEC for whom price cap regulation is mandatory. The report is designed to capture trends in telephone industry infrastructure development under price cap regulation. It provides switch deployment and capabilities data. The information is also part of the data necessary to support the Commission's audit and other oversight functions. The data provide the necessary detail to enable the Commission to fulfill its regulatory responsibility. There are no changes to the ARMIS Report 43-07.
