Background and Purpose

The Coast Guard Maritime Transportation Act (CGMTA) of 2006 (section 421) authorized U.S.-documented purse seine vessels fishing for highly migratory species (under a license issued pursuant to the 1987

South Pacific Tuna Treaty [SPTT]) to use foreign licensed personnel, except for the master, to meet manning requirements. That authorization was for a 48-month period and ended on July 11, 2010. Section 904 of the 2010 Coast Guard Authorization Act (CGAA, signed into law (Pub. L. 111–281) on October 15, 2010) reauthorized the use of foreign officers, excluding the master, on U.S.-documented purse seine vessels in the Distant Water Tuna Fleet. The CGAA reauthorization added a safety examination requirement such that a vessel’s owner/operator may not employ a foreign national to meet a manning requirement unless it first successfully completes an annual dockside safety examination by an individual authorized to enforce part B of subtitle II of title 46, United States Code. Additionally, the 2010 CGAA also amended Title 46 United States Code Section 4502 by establishing requirements for an individual in charge of a vessel to keep a record of equipment maintenance, and required instruction and drills, and for a vessel to be issued a certificate of compliance upon successfully completing a dockside safety examination. The reauthorization retained the restriction that a foreign officer engaged to fill a position must hold a valid license or certificate issued in accordance with STCW 95 standards and by an authority recognized by the Coast Guard. Also, the manning exemption is only applicable to vessels operating in and out of America Samoa. The manning exemption reauthorization is set to expire December 31, 2012.
