BILLING CODE 4410-09-P

DEPARTMENT OF JUSTICE

Federal Bureau of Prisons

Notice of the Availability of the Finding of No Significant Impact Concerning a Proposal To Award a Contract to House Federal, Low-Security, Criminal Aliens in a Contractor-Owned/ Contractor-Operated Correctional Facility

AGENCY: U.S. Department of Justice, Federal Bureau of Prisons.

ACTION: Finding of No Significant Impact.

SUMMARY: The U.S. Department of Justice, Federal Bureau of Prisons (BOP) announces the availability of the Finding of No Significant Impact (FONSI) concerning the Environmental Assessment (EA) for the proposal to award one or more contracts to house 900 to approximately 3,000 federal, low-security, adult male, non-U.S. citizen, criminal aliens within one or more existing contractor-owned and operated correctional facilities.

Background Information

Pursuant to Section 102, 42 U.S.C. 4332, of the National Environmental Policy Act (NEPA) of 1969, as amended and the Council on Environmental Quality Regulations (40 CFR parts 1500-1508), the BOP published an EA concerning a proposal to award one or more contracts to house 900 to approximately 3,000 Federal, low-security, adult male, non-U.S. citizen, criminal aliens within one or more existing contractor-owned and operated correctional facilities.

The 30-day public comment period began on January 28, 2011 and was extended by 10 days at the request of a member of the public in order to submit comments to the BOP concerning the EA. By March 9, 2011, the BOP received comment letters from several government agencies and a member of

the public which raised technical and non-technical issues and questions.

Following a thorough review of all public comments and environmental documentation amassed in support of the proposed action, the BOP determined that it was appropriate and in the best interests of the public to prepare a new EA. The new EA incorporated additional information prepared in response to public comments. The new EA also provided the most current information available regarding the alternative facilities as well as the BOP's Preferred Alternative.

Project Information

Under the proposed action, the contractor(s) selected to house the approximately 3,000 Federal, low-security, adult male, criminal aliens would be responsible for ensuring that the correctional facility(s) is operated in a manner consistent with the mission of the BOP and state and federal laws and regulations. It is anticipated that the BOP will predominantly assign Federal, low-security, adult male, criminal aliens (comprised primarily of persons with a year or less remaining to serve) to the selected facility. However, the BOP may designate any inmate within its custody utilizing the same designation criteria as used at other BOP facilities. All inmate services and programs would be developed and implemented to comply with the BOP's contract requirements and all applicable federal, state and local laws and regulations.

Following publication of the solicitation for the Short Term Sentences procurement, the BOP received responses from contractors representing nine alternative facilities. Of the nine alternative locations, six were either withdrawn by contractor(s) or eliminated from consideration by the BOP on the basis of non-environmental criteria. Three existing correctional facilities, located in Oklahoma and Texas, were considered worthy of further consideration. Possible use of each of three existing facilities, in addition to the No Action alternative, were evaluated in an EA prepared by the BOP. The BOP would select one or more contractors for contract award from among the three offerors:

- Diamondback Correctional Center, Watonga, Oklahoma.
- Great Plains Correctional Facility, Hinton, Oklahoma.
- Willacy County Processing Center, Raymondville, Texas.

No other facilities were under consideration by the BOP. The BOP reserves the right to make multiple awards. In the event it is in the

Government's best interest, the BOP may make up to two (based on proposals received) contract awards as long as the total quantity is within the scope of approximately 3,000 beds.

The BOP issued the EA on May 2, 2011, with publication of the Notice of Availability (NOA) in newspapers serving the area surrounding each of the alternative locations. The NOA included information concerning the 30-day public comment period which began on May 2, 2011, and ended on May 31, 2011. The BOP also distributed copies of the EA to federal agencies, state and local governments, elected officials, interested organizations, public libraries and individuals.

BILLING CODE P

DEPARTMENT OF LABOR

Comment Request for Information Collection for Enhanced Transitional Jobs Demonstration, New Collection

AGENCY: Employment and Training Administration, Labor.

ACTION: Notice.

SUMMARY: The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden conducts a preclearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) [44 U.S.C. 3506(c)(2)(A)]. This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly

understood, and the impact of collection requirements on respondents can be properly assessed. Currently, the Employment and Training Administration is soliciting comments concerning the collection of data to support the Enhanced Transitional Jobs Demonstration project (ETJD).

A copy of the proposed information collection request can be obtained by contacting the office listed below in the addressee section of this notice.

DATES: Written comments must be submitted to the office listed in the addressee’s section below on or before August 1, 2011.

ADDRESSES: Submit written comments to the Employment and Training Administration, 200 Constitution Avenue, NW., Suite N-4511, Washington, DC 20210, Attention: Jenn Smith, Telephone number: (202) 693-3597 (this is not a toll-free number). Fax: (202) 693-3113. E-mail: smith.jenn@dol.gov.

SUPPLEMENTARY INFORMATION:

I. Background

In applying for the Enhanced Transitional Jobs Demonstration grants, grantees agree to submit participant data and quarterly aggregate reports for individuals who receive services through ETJD programs and their partnerships with One-Stop Career Centers, local workforce investment boards, employment providers, the criminal justice system, and child support enforcement agencies, among others. The reports include aggregate data on demographic characteristics, types of services received, placements, outcomes, and follow-up status. Specifically, they summarize data on participants who received subsidized employment and training, placement services, child support assistance and family reunification services, mentoring, and other services essential to successful unsubsidized employment of ex-offender and non-custodial parent participants through ETJD programs.

This requests an approval for a new information collection to meet the reporting and recordkeeping requirements of the Enhanced Transitional Jobs Demonstration through an ETA-provided, Web-based Management Information System (MIS). In addition to reporting participant information and performance-related outcomes, ETJD grantees will be part of an extensive random assignment evaluation to test the effectiveness of a transitional jobs “bump-up” model that provides an enhanced approach to the traditional transitional jobs model, in order to demonstrate the effectiveness of transitional jobs in serving specific hard-to-employ populations.

Five outcome measures are used to measure success in the ETJD grants: Entered employment rate, employment retention rate, average six-month post-program earnings, recidivism rate, and rate of child support order modifications. Several of these conform to the common performance measures implemented across Federal job training programs as of July 1, 2005. By standardizing the reporting and performance requirements of different programs, the common measures give ETA the ability to compare across programs the core goals of the workforce system—how many people entered jobs; how many stayed employed; and how many successfully completed an educational program. Although the common measures are an integral part of ETA’s performance accountability system, these measures provide only part of the information necessary to effectively oversee the workforce investment system. ETA also collects data from ETJD grantees on program activities, participants, and outcomes that are necessary for program management and the random assignment evaluation process and for conveying full and accurate information on the performance of ETJD programs to policymakers and stakeholders.

This information collection maintains a reporting and record-keeping system for a minimum level of information collection that is necessary to comply with Equal Opportunity requirements, to hold ETJD grantees appropriately accountable for the Federal funds they receive, including common performance measures, and to allow the Department to fulfill its oversight and management responsibilities.

II. Review Focus

The Department of Labor is particularly interested in comments which:

- * Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

- * Evaluate the accuracy of the agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

- * Enhance the quality, utility, and clarity of the information to be collected; and

- * Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.
