(10) If you are a U.S. importer or a trade/business association of U.S. importers of the Subject Merchandise from the Subject Country, provide the following information on your firm's(s') operations on that product during calendar year 2010 (report quantity data in metric tons and value data in U.S. dollars). If you are a trade/business association, provide the information, on an aggregate basis, for the firms which are members of your association.

(a) The quantity and value (landed, duty-paid but not including antidumping duties) of U.S. imports and, if known, an estimate of the percentage of total U.S. imports of Subject Merchandise from the Subject Country accounted for by your firm's(s')

imports;

(b) The quantity and value (f.o.b. U.S. port, including antidumping duties) of U.S. commercial shipments of *Subject Merchandise* imported from the *Subject Country*; and

(c) The quantity and value (f.o.b. U.S. port, including antidumping duties) of U.S. internal consumption/company transfers of Subject Merchandise imported from the Subject Country.

- (11) If you are a producer, an exporter, or a trade/business association of producers or exporters of the *Subject Merchandise* in the *Subject Country*, provide the following information on your firm's(s') operations on that product during calendar year 2010 (report quantity data in metric tons and value data in U.S. dollars, landed and duty-paid at the U.S. port but not including antidumping duties). If you are a trade/business association, provide the information, on an aggregate basis, for the firms which are members of your association.
- (a) Production (quantity) and, if known, an estimate of the percentage of total production of *Subject Merchandise* in the *Subject Country* accounted for by your firm's(s') production;
- (b) Capacity (quantity) of your firm to produce the Subject Merchandise in the Subject Country (i.e., the level of production that your establishment(s) could reasonably have expected to attain during the year, assuming normal operating conditions (using equipment and machinery in place and ready to operate), normal operating levels (hours per week/weeks per year), time for downtime, maintenance, repair, and cleanup, and a typical or representative product mix); and
- (c) The quantity and value of your firm's(s') exports to the United States of Subject Merchandise and, if known, an estimate of the percentage of total

exports to the United States of Subject Merchandise from the Subject Country accounted for by your firm's(s') exports.

(12) Identify significant changes, if any, in the supply and demand conditions or business cycle for the Domestic Like Product that have occurred in the United States or in the market for the Subject Merchandise in the Subject Country after 2005, and significant changes, if any, that are likely to occur within a reasonably foreseeable time. Supply conditions to consider include technology; production methods; development efforts; ability to increase production (including the shift of production facilities used for other products and the use, cost, or availability of major inputs into production); and factors related to the ability to shift supply among different national markets (including barriers to importation in foreign markets or changes in market demand abroad). Demand conditions to consider include end uses and applications; the existence and availability of substitute products; and the level of competition among the Domestic Like Product produced in the United States, Subject Merchandise produced in the Subject Country, and such merchandise from other countries.

(13) (OPTIONAL) A statement of whether you agree with the above definitions of the *Domestic Like Product* and *Domestic Industry*; if you disagree with either or both of these definitions, please explain why and provide alternative definitions.

Antitrust Division

Notice Pursuant to the National Cooperative Research and Production Act of 1993—Global Climate and Energy Project

Notice is hereby given that, on April 8, 2011, pursuant to Section 6(a) of the National Cooperative Research and Production Act of 1993, 15 U.S.C. 4301 et seq. ("the Act"), Global Climate and Energy Project ("GCEP") has filed written notifications simultaneously with the Attorney General and the

Federal Trade Commission disclosing changes in its membership and its nature and objectives. The notifications were filed for the purpose of extending the Act's provisions limiting the recovery of antitrust plaintiffs to actual damages under specified circumstances. Specifically, Toyota Motor Corporation, Aichi, Japan, has withdrawn as a party to this venture. The change in its nature and objectives is that the members of GCEP have amended the agreement between them to extend the termination of GCEP, which currently will terminate August 31, 2013.

No other changes have been made in either the membership or planned activity of the group research project. Membership in this group research project remains open, and GCEP intends to file additional written notifications disclosing all changes in membership.

On March 12, 2003, GCEP filed its original notification pursuant to Section 6(a) of the Act. The Department of Justice published a notice in the **Federal Register** pursuant to Section 6(b) of the Act on April 4, 2003 (68 FR 16552).

The last notification was filed with the Department on February 26, 2009. A notice was published in the **Federal Register** pursuant to Section 6(b) of the Act April 3, 2009 (74 FR 15303).

Federal Bureau of Prisons

Notice of the Availability of the Finding of No Significant Impact Concerning a Proposal To Award a Contract to House Federal, Low-Security, Criminal Aliens in a Contractor-Owned/ Contractor-Operated Correctional Facility

AGENCY: U.S. Department of Justice, Federal Bureau of Prisons.

ACTION: Finding of No Significant Impact.

SUMMARY: The U.S. Department of Justice, Federal Bureau of Prisons (BOP) announces the availability of the Finding of No Significant Impact (FONSI) concerning the Environmental Assessment (EA) for the proposal to award one or more contracts to house 900 to approximately 3,000 federal, low-security, adult male, non-U.S. citizen, criminal aliens within one or more existing contractor-owned and operated correctional facilities.

Background Information

Pursuant to Section 102, 42 U.S.C. 4332, of the National Environmental Policy Act (NEPA) of 1969, as amended and the Council on Environmental Quality Regulations (40 CFR parts 1500–1508), the BOP published an EA concerning a proposal to award one or more contracts to house 900 to approximately 3,000 Federal, low-security, adult male, non-U.S. citizen, criminal aliens within one or more existing contractor-owned and operated correctional facilities.

The 30-day public comment period began on January 28, 2011 and was extended by 10 days at the request of a member of the public in order to submit comments to the BOP concerning the EA. By March 9, 2011, the BOP received comment letters from several government agencies and a member of

the public which raised technical and non-technical issues and questions.

Following a thorough review of all public comments and environmental documentation amassed in support of the proposed action, the BOP determined that it was appropriate and in the best interests of the public to prepare a new EA. The new EA incorporated additional information prepared in response to public comments. The new EA also provided the most current information available regarding the alternative facilities as well as the BOP's Preferred Alternative.

Project Information

Under the proposed action, the contractor(s) selected to house the approximately 3,000 Federal, lowsecurity, adult male, criminal aliens would be responsible for ensuring that the correctional facility(s) is operated in a manner consistent with the mission of the BOP and state and federal laws and regulations. It is anticipated that the BOP will predominantly assign Federal, low-security, adult male, criminal aliens (comprised primarily of persons with a year or less remaining to serve) to the selected facility. However, the BOP may designate any inmate within its custody utilizing the same designation criteria as used at other BOP facilities. All inmate services and programs would be developed and implemented to comply with the BOP's contract requirements and all applicable federal, state and local laws and regulations.

Following publication of the solicitation for the Short Term Sentences procurement, the BOP received responses from contractors representing nine alternative facilities. Of the nine alternative locations, six were either withdrawn by contractor(s) or eliminated from consideration by the BOP on the basis of non-environmental criteria. Three existing correctional facilities, located in Oklahoma and Texas, were considered worthy of further consideration. Possible use of each of three existing facilities, in addition to the No Action alternative, were evaluated in an EA prepared by the BOP. The BOP would select one or more contractors for contract award from among the three offerors:

—Diamondback Correctional Center, Watonga, Oklahoma.

—Great Plains Correctional Facility, Hinton, Oklahoma.

—Willacy County Processing Center, Raymondville, Texas.

No other facilities were under consideration by the BOP. The BOP reserves the right to make multiple awards. In the event it is in the Government's best interest, the BOP may make up to two (based on proposals received) contract awards as long as the total quantity is within the scope of approximately 3,000 beds.

The BOP issued the EA on May 2, 2011, with publication of the Notice of Availability (NOA) in newspapers serving the area surrounding each of the alternative locations. The NOA included information concerning the 30-day public comment period which began on May 2, 2011, and ended on May 31, 2011. The BOP also distributed copies of the EA to federal agencies, state and local governments, elected officials, interested organizations, public libraries and individuals.
