SUPPLEMENTARY INFORMATION: The following public land is proposed for competitive sale in accordance with Sections 203 and 209 of the Federal Land Policy and Management Act (FLPMA) (43 U.S.C. 1713 and 1719):

Mount Diablo Meridian

T. 12 N., R. 6 W.,

Sec. 15, SW $\frac{1}{4}$ NW $\frac{1}{4}$, NW $\frac{1}{4}$ SW $\frac{1}{4}$.

The area described contains 80 acres, more or less, in Lake County.

This land has been identified as suitable for disposal in the BLM's September 2006 Ukiah Resource Management Plan (RMP), as amended, and is not needed for any Federal purpose. The purpose of the sale is to dispose of land which is difficult and uneconomic to manage. Although the land is adjacent to other public land that has been identified for retention in the RMP, the lands proposed for sale are considered to be difficult and uneconomic to manage because ongoing public use of an access road has contributed to trespass on adjacent private land. Disposal of this land would be in the public interest.

The BLM has completed a mineral potential report which concluded that, with the exception of oil, gas and geothermal resources, there are no known mineral values in the land. The BLM proposes to reserve oil, gas and geothermal mineral interests to the United States and convey all other Federal mineral interests with the sale of the land. On June 1, 2011, the above described land will be segregated from appropriation under the public land laws, including the mining laws, except the sale provisions of the FLPMA. Until completion of the sale or termination of the segregation, the BLM will no longer accept land use applications affecting the public land, except applications for the amendment of previously filed right-of-way (ROW) applications or existing authorizations to increase the term of
