AGENCY: Office of the Secretary, HHS.
 In compliance with the requirement of section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, the Office of the Secretary (OS), Department of Health and Human Services, is publishing the following summary of a proposed collection for public comment. Interested persons are invited to send comments regarding this burden estimate or any other aspect of this collection of information, including any of the following subjects: (1) The

necessity and utility of the proposed information collection for the proper performance of the agency's functions; (2) the accuracy of the estimated burden; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection burden.

To obtain copies of the supporting statement and any related forms for the proposed paperwork collections referenced above, e-mail your request, including your address, phone number, OMB number, and OS document identifier, to *Sherette.funncoleman@hhs.gov*, or call the Reports Clearance Office on (202) 690-5683. Send written comments and recommendations for the proposed information collections within 30 days of this notice directly to the OS OMB Desk Officer; faxed to OMB at 202-395-5806.

Proposed Project: Provide Services for the Dissemination of CER to Patients and Providers to Increase Adoption—

OMB No. 0990-New—Assistant Secretary for Planning and Evaluation (ASPE).

Abstract: This research leverages best practices in behavior change, interaction design, and service innovation to increase the understanding and adoption of Comparative Effectiveness Research (CER) information by physicians and patients. By truly understanding the desires, behaviors and attitudes of patients and care providers across various segments, this project can significantly improve the dissemination, translation, and adoption of evidence-based, outcomes-oriented CER findings.

The purpose of this project is “to strengthen the link between evidence production and strategies for conveying this information in ways that encourage evidence-based behavior change among providers and patients. The central question is how best to get CER information to physicians and patients in a way they understand. This task is considered critical to capitalizing on the Department’s CER investment.”
