Carbon and Certain Alloy Steel Wire Rod From Mexico: Extension of Time Limits for the Preliminary Results of Fifth Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

FOR FURTHER INFORMATION CONTACT: Eric Greynolds or Jolanta Lawska, AD/CVD Operations, Office 3, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230; telephone: (202) 482-6071 and (202) 482-8362, respectively.

Background

On November 29, 2010, the Department of Commerce ("Department") published in the **Federal Register** a notice of initiation of the administrative review of the antidumping duty order on carbon and certain alloy steel wire rod from Mexico, covering the period October 1, 2009, through September 30, 2010. See *Initiation of Antidumping and Countervailing Duty Administrative Reviews*, 75 FR 73036 (November 29, 2010) ("*Initiation Notice*"). The preliminary results of the review are currently due no later than July 3, 2011.

Extension of Time Limit of Preliminary Results

Section 751(a)(3)(A) of the Tariff Act of 1930, as amended ("the Act"), requires the Department to make a preliminary determination within 245 days after the last day of the anniversary month of an order for which a review is requested. Section 751(a)(3)(A) of the Act further states that if it is not practicable to complete the review within the time period specified, the administering authority may extend the 245 day period to issue its preliminary results by up to 120 days.

We determine that completion of the preliminary results of this review within the 245 day period is not practicable for the following reasons. This review requires the Department to gather and analyze a significant amount of information pertaining to the company's sales practices, manufacturing costs, and corporate relationships. Given the number and complexity of issues in this case, and in accordance with section 751(a)(3)(A) of the Act, we are extending the time period for issuing the

preliminary results of review by 120 days. The preliminary results will now be due no later than October 31, 2011, the first business day following 120 days from the current deadline. See *Notice of Clarification: Application of "Next Business Day" Rule for Administrative Determination Deadlines Pursuant to the Tariff Act of 1930, as Amended*, 70 FR 24533 (May 10, 2005). The final results continue to be due 120 days after the publication of the preliminary results.

This notice is issued and published in accordance with sections 751(a)(3)(A) and 777(i)(1) of the Act.

Dated: June 3, 2011.

Christian Marsh,

Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.

Citric Acid and Certain Citrate Salts From Canada: Final Results of Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: On February 2, 2011, the Department of Commerce (Department) published the preliminary results of the first administrative review of the antidumping duty order on citric acid and certain citrate salts (citric acid) from Canada. The review covers one manufacturer/exporter of the subject merchandise to the United States: Jungbunzlauer Canada Inc. (JBL Canada). The review covers the period November 20, 2008, through May 19, 2009, and May 29, 2009, through April 30, 2010. The final weighted-average dumping margin for the manufacturer/exporter is listed below in the "Final Results of Review" section of this notice.

DATES: *Effective Date:* June 10, 2011.

FOR FURTHER INFORMATION CONTACT: Rebecca Trainor or Kate Johnson, AD/CVD Operations, Office 2, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC, 20230; telephone (202) 482-4007 or (202) 482-4929, respectively.

SUPPLEMENTARY INFORMATION:

Background

On February 2, 2011, the Department published in the **Federal Register** the preliminary results of the 2008-2010 administrative review of the antidumping duty order on citric acid from Canada. See *Citric Acid and Certain Citrate Salts From Canada: Preliminary Results of Antidumping Duty Administrative Review*, 76 FR 5782 (February 2, 2011) ("*Preliminary Results*"). We invited parties to comment on the preliminary results of the review. We received case briefs from the petitioners (*i.e.*, Archer Daniels Midland Co., Cargill, Inc. and Tate & Lyle Americas LLC) and the respondent, JBL Canada, on March 4, 2011. We received rebuttal briefs from the petitioners and the respondent on March 9, 2011.

On March 4, 2011, both parties requested that a public hearing be held in this proceeding. On March 18, and 21, 2011, the petitioners and JBL Canada, respectively, withdrew their hearing requests.

The Department has conducted this administrative review in accordance with section 751 of the Tariff Act of 1930, as amended (the Act).

Scope of the Order

The scope of this order includes all grades and granulation sizes of citric acid, sodium citrate, and potassium citrate in their unblended forms, whether dry or in solution, and regardless of packaging type. The scope also includes blends of citric acid, sodium citrate, and potassium citrate; as well as blends with other ingredients, such as sugar, where the unblended form(s) of citric acid, sodium citrate, and potassium citrate constitute 40 percent or more, by weight, of the blend. The scope of this order also includes all forms of crude calcium citrate, including dicalcium citrate monohydrate, and tricalcium citrate tetrahydrate, which are intermediate products in the production of citric acid, sodium citrate, and potassium citrate. The scope of this order does not include calcium citrate that satisfies the standards set forth in the United States Pharmacopeia and has been mixed with a functional excipient, such as dextrose or starch, where the excipient constitutes at least 2 percent, by weight, of the product. The scope of this order includes the hydrous and anhydrous forms of citric acid, the dihydrate and anhydrous forms of sodium citrate, otherwise known as citric acid sodium salt, and the monohydrate and monopotassium forms of potassium citrate. Sodium citrate also includes both trisodium citrate and monosodium
