

arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's Internet comment form (<http://www.sec.gov/rules/sro.shtml>); or
- Send an e-mail to rule-comments@sec.gov. Please include File Number SR-BX-2011-033 on the subject line.

Paper Comments

- Send paper comments in triplicate to Elizabeth M. Murphy, Secretary, Securities and Exchange Commission, 100 F Street, NE., Washington, DC 20549-1090.

All submissions should refer to File Number SR-BX-2011-033. This file number should be included on the subject line if e-mail is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's Internet Web site (<http://www.sec.gov/rules/sro.shtml>). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for Web site viewing and printing in the Commission's Public Reference Room, 100 F Street, NE., Washington, DC 20549, on official business days between the hours of 10 a.m. and 3 p.m. Copies of such filing also will be available for inspection and copying at the principal office of the Exchange. All comments received will be posted without change; the Commission does not edit personal identifying information from submissions. You should submit only information that you wish to make available publicly. All submissions should refer to File Number SR-BX-2011-033 and should be submitted on or before July 5, 2011.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.¹¹

Cathy H. Ahn,

Deputy Secretary.

DEPARTMENT OF TRANSPORTATION

ITS Joint Program Office; Webinar on Connected Vehicle Infrastructure Deployment Analysis Report Review; Notice of Public Meeting

AGENCY: Research and Innovative Technology Administration, U.S. Department of Transportation.

ACTION: Notice.

The U.S. Department of Transportation (USDOT) ITS Joint Program Office (ITS JPO) will host a free public webinar on June 24, 2011 at 1 p.m. (EDT) to discuss the Connected Vehicle Infrastructure Deployment Analysis Report. The webinar will provide an opportunity for stakeholders to hear about and provide feedback on the American Association of State Highway and Transportation Officials (AASHTO) *Connected Vehicle Infrastructure Deployment Analysis Report* developed by the AASHTO Connected Vehicle Working Group with support from USDOT. The purpose of the report is to explore infrastructure deployment approaches and potential issues for state and local transportation agencies, primarily from a state DOT perspective. The analysis does not significantly consider the needs and interests of transit and trucking stakeholders, as these communities' visions and issues are being considered elsewhere in the ITS program in conjunction with their respective stakeholder organizations.

The AASHTO Working Group is made up of representatives of eleven state agencies, along with three local transportation agencies, and one metropolitan planning organization. Automotive representatives from the Vehicle Infrastructure Integration Consortium (VIIC), private sector equipment manufacturers, and telecommunications service providers were also invited to the Deployment Plan meetings, and they actively and constructively participated in the discussions leading to this report.

The report covers connected vehicle applications of most interest to the states, current state and local programs underway, deployment readiness in the vehicle market, aftermarket devices and communications, the magnitude of effort to upgrade the nation's signal controllers with Dedicated Short Range Communications (DSRC) capabilities, and a set of deployment scenarios with corresponding strategies and actions for the state and local transportation community.

Connected Vehicle research at the USDOT is a multimodal program that
