BILLING CODE 4910-06-P

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[Docket Number FRA-2011-0035]

Petition for Waiver of Compliance

In accordance with Part 211 of Title 49 of the Code of Federal Regulations (CFR), this document provides the public notice that by a document dated April 15, 2011, the American Short Line and Regional Railroad Association (ASLRRA), on behalf of seven of its member railroads, has petitioned the Federal Railroad Administration (FRA) for a waiver of compliance from certain provisions of the Federal hours of service laws contained at 49 U.S.C. 21103(a)(4). FRA assigned the petition Docket Number FRA-2011-0035.

In their petition, ASLRRA seeks the identical relief granted in FRA's March 5, 2010, decision in FRA Docket Number 2009-0078, related to 49 U.S.C. 21103(a)(4), for these additional seven railroads. In addition, subsequent to FRA's issuance of a final decision in Docket Number FRA-2009-0078, the York Railway submitted a comment in that docket seeking to become a party to the waiver. In its March 15, 2011, letter, FRA specifically indicated that "[i]f a railroad listed on ASLRRA's Second

Amended Exhibit A has not yet met the joint filing requirement of the [hours of service law] as outlined in FRA's March 5, 2010, letter, that railroad is not a party to this waiver." Recognizing that as a practical matter, the posting of FRA's final decision letter in Docket Number FRA-2009-0078 may have crossed with the submission of the York Railway's request to be included in the waiver. FRA is addressing that request in this docket (FRA-2011-0035). Accordingly, a copy of York Railway's submission has been placed in Docket Number FRA-2011-0035, and FRA will address that request for relief from the hours of service law requirements in conjunction with ASLRRA's April 15, 2011, petition.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at <http://www.regulations.gov> and in person at the Department of Transportation's Docket Operations Facility, 1200 New Jersey Ave., SE., W12-140, Washington, DC 20590. The Docket Operations Facility is open from 9 a.m. to 5 p.m., Monday through Friday, except Federal Holidays.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested party desires an opportunity for oral comment, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

All communications concerning these proceedings should identify the appropriate docket number and may be submitted by any of the following methods:

- *Hand Delivery:* 1200 New Jersey Avenue, SE., Room W12-140, Washington, DC 20590, between 9 a.m. and 5 p.m., Monday through Friday, except Federal Holidays.

Communications received by July 29, 2011 will be considered by FRA before final action is taken. Comments received after that date will be considered as far as practicable.

BILLING CODE 4910-06-P

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[Docket Number FRA-2005-21613]

Petition for Waiver of Compliance

In accordance with Part 211 of Title 49 of the Code of Federal Regulations (CFR), this document provides the public notice that by a document dated April 26, 2011, and an amending document dated May 3, 2011, the Association of American Railroads (AAR) has petitioned the Federal Railroad Administration (FRA) for a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR Part 229. FRA assigned the petition Docket Number FRA-2005-21613.

FRA granted an extension of waiver Docket Number FRA-2005-21613 to AAR on May 3, 2011, continuing an extensive testing and inspection program to determine extended clean, repair and test intervals for air brake valves and related components as required by the *Railroad Locomotive Safety Standards* at 49 CFR 229.27 *Annual tests* and 229.29 *Biannual tests*. Fourteen (14) separate groups of locomotives were identified for investigation in the waiver approval letter. Among the variables between groups are the model of electronic airbrake system used on the locomotives and whether the group of locomotives was manufactured by General Electric (GE) or ElectroMotive Diesel (EMD). AAR has now submitted additional requests for modification of this waiver. The first request is to add locomotives equipped with New York Air Brake (NYAB) CCB-26 model brake systems in the same group as locomotives equipped with CCB-II brake systems. Also, AAR has requested that the distinction between locomotive manufacturers be

dropped, thus reducing the number of groups to be tested.

In support of this petition, AAR submitted supporting documentation from NYAB attesting to the essential similarity of the CCB-26 brake system to the CCB-II brake system already covered under the waiver. In addition, AAR states that testing performed to date under this waiver has allayed concerns that air brake system performance would vary between EMD and GE locomotives.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at <http://www.regulations.gov> and in person at the Department of Transportation's Docket Operations Facility, 1200 New Jersey Ave., SE., W12-140, Washington, DC 20590. The Docket Operations Facility is open from 9 a.m. to 5 p.m., Monday through Friday, except Federal Holidays.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested party desires an opportunity for oral comment, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

All communications concerning these proceedings should identify the appropriate docket number and may be submitted by any of the following methods:
