GENERAL SERVICES ADMINISTRATION

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[OMB Control No. 9000-0144; Docket 2011-0079; Sequence 17]

Federal Acquisition Regulation; Information Collection; Payment by Electronic Fund Transfer

AGENCY: Department of Defense (DOD), General Services Administration (GSA), and National Aeronautics and Space Administration (NASA).

ACTION: Notice of request for public comments regarding an extension to an existing OMB clearance.

SUMMARY: Under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35), the Regulatory Secretariat (MVCB) will be submitting to the Office of Management and Budget (OMB) a request to review and approve an extension of a previously approved information collection requirement concerning payment by electronic fund transfer.

Public comments are particularly invited on: Whether this collection of information is necessary for the proper performance of functions of the FAR, and whether it will have practical utility; whether our estimate of the public burden of this collection of information is accurate, and based on valid assumptions and methodology; ways to enhance the quality, utility, and clarity of the information to be collected; and ways in which we can minimize the burden of the collection of information on those who are to respond, through the use of appropriate technological collection techniques or other forms of information technology.

DATES: Submit comments on or before August 15, 2011.

ADDRESSES: Submit comments identified by Information Collection 9000-0144, Payment by Funds Transfer, by any of the following methods:

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Administration for Children and Families

Submission for OMB Review; Comment Request

Title: Innovative Strategies for Increasing Self-Sufficiency: Baseline Data Collection.

OMB No.: New Collection.

Description: The Administration for Children and Families (ACF), U.S. Department of Health and Human Services (HHS), is proposing a data collection activity as part of the Innovative Strategies for Increasing Self-Sufficiency (ISIS) demonstration and

evaluation. The ISIS project will test a range of promising strategies to promote employment, self-sufficiency, and reduce dependence on cash welfare. The ISIS project will evaluate multiple employment-focused strategies that build on previous approaches and are adapted to the current Federal, State, and local policy environment. The major goals of the project include increasing the empirical knowledge about the effectiveness of a variety of programs for low-income families to sustain employment and advance to positions that enable self-sufficiency, as well as producing useful findings for both policymakers and program administrators.

This proposed information collection activity focuses on collecting baseline data elements. Two data collection instruments will be completed by all participants prior to random assignment, and a third will be an interview guide to collect information from program staff. The first is a short baseline information form (BIF) that will collect basic identification, demographic, and contact information. The form will include relatively standard items from prior evaluations and national surveys. The second instrument will be a self-administered questionnaire (SAQ), covering information related to the project goals. The third instrument, baseline

implementation data collection interviews, will be used to collect information from knowledgeable informants about the service context for each evaluation site using a baseline implementation guide. The purpose of such interviews is to document and assess the service environment in which the evaluation is implemented and the opportunities for control group members to access the same or similar services as the treatment group members.

Respondents: Individuals enrolled in ISIS demonstration interventions, control group members, ISIS program operators (BIF and SAQ) and State and local informants (interviews).

ANNUAL BURDEN ESTIMATES

Instrument	Annual number of respondents	Number of responses per respondent	Average burden hours per response	Total annual burden hours
Baseline Information Form	4,800	1	0.75	3,600
Self-Administered Questionnaire	4,800	1	0.75	3,600
Baseline Implementation Data Collection Interviews	30	1	1	30

Estimated Total Annual Burden Hours: 7,230

Additional Information: Copies of the proposed collection may be obtained by writing to the Administration for Children and Families, Office of Planning, Research and Evaluation, 370 L'Enfant Promenade, SW., Washington, DC 20447, Attn: OPRE Reports Clearance Officer. All requests should be identified by the title of the information collection. E-mail address: OREinfocollection@acf.hhs.gov.

OMB Comment: OMB is required to make a decision concerning the collection of information between 30 and 60 days after publication of this document in the **Federal Register**. Therefore, a comment is best assured of having its full effect if OMB receives it within 30 days of publication. Written comments and recommendations for the proposed information collection should be sent directly to the following: Office of Management and Budget, Paperwork Reduction Project, Fax: 202-395-6974, Attn: Desk Officer for the Administration for Children and Families.

Dated: June 10, 2011.

Title: Implementation, Systems and Outcome Evaluation of the Tribal and Low-Income Health Profession Opportunity Grants (HPOG).

OMB No.: New Collection.
Description: The Administration for Children and Families (ACF) is proposing information collection activities as part of the Implementation, Systems and Outcome Evaluation of the Health Profession Opportunity Grants (HPOG). Through this information collection, ACE seeks to develop comprehensive management and performance reports on the HPOG

initiative and design a feasible and reliable evaluation design to produce accurate evidence of the effect of HPOG on individuals and health job training programs systems.

The goals of the HPOG evaluation are to establish a performance management reporting process for HPOG, and design an evaluation of HPOG. Both goals require collecting information from HPOG grantees on a regular basis. The information collection proposed is an Internet-based collection of information from HPOG grantees on (1) program participants: Baseline characteristics, program participation and patterns, and participant outputs and outcomes; and (2) program designs and operating characteristics. The performance management system would collect information from grantees on their programs and participants on a bi-annual basis.

Respondents: Participant data to be collected by program staff in the 32 grantee organizations (higher education institutions, workforce investment boards, private training institutions, and tribal entities).

ANNUAL BURDEN ESTIMATES

Instrument	Annual number of respondents	Number of responses per respondent	Average burden hours per response	Total annual burden hours
Semi-annual HPOG Program Performance Report	32	2	31.25	2,000
