POSTAL SERVICE

Privacy Act of 1974; System of Records

AGENCY: Postal Service.

ACTION: Notice of modification to existing systems of records and the addition of one new system of records.

SUMMARY: The United States Postal Service is proposing to modify nine of its General Privacy Act Systems of Records: USPS 100.000, General Personnel Records; USPS 100.100, Recruiting, Examining, and Placement Records; USPS 100.200, Employee Performance Records; USPS 100.300, Employee Development and Training Records; USPS 100.400, Personnel Compensation and Payroll Records; USPS 100.500, Personnel Resource Management Records; USPS 100.600, Personnel Research Records; USPS 100.700, Medical Records and Related Documents; and USPS 100.950, Employee Assistance Program (EAP) Records. These modifications reflect the changes that have been made in changing from a primarily paper-based record keeping system to an electronic record keeping system.

The United States Postal Service is also amending one Customer Privacy Act System of Records, USPS 810.200, www.usps.com Ordering, Payment, and Fulfillment, which was last updated on May 12, 2009 (74 FR 22186), where the standard routine uses were mistakenly deleted. The change to USPS 810.200 will add the standard routine uses that applied to the system prior to the May 12, 2009, revisions, and will update the retention period from 6 months to 12 months for online user information, and update one of the titles in the System Manager(s) and Address section.

Lastly, the United States Postal Service is adding a new system of records to its General Privacy Act Systems of Records: 500.050 HSPD-12: Identity Management System is being established to support implementation of HSPD-12 identification cards.

DATES: The revision will become effective without further notice on July 18, 2011 unless comments received on or before that date result in a contrary determination.

ADDRESSES: Comments may be mailed or delivered to the Records Office, United States Postal Service, 475 L'Enfant Plaza, SW., Room 4541, Washington, DC 20260-2201. Copies of all written comments will be available at this address for public inspection and photocopying between 8 a.m. and 4 p.m., Monday through Friday.

FOR FURTHER INFORMATION CONTACT: Jane Eyre, Manager, Records Office, 202-268-2608.

SUPPLEMENTARY INFORMATION: This notice is in accordance with the Privacy Act requirement that agencies publish their amended systems of records in the **Federal Register** when there is a revision, change, or addition. The Postal Service has reviewed its systems of

records and has determined that the Human Resource records system should be revised to modify existing routine uses of records maintained in the system, including system location; categories of individuals; categories of records in the system; purposes; routine uses of records maintained in the system, including categories of users and the purposes of such uses; storage; retrievability; safeguards; retention and disposal; system manager(s) and address; notification procedure; and record source categories of such uses.

I. Background

In 2005, Human Resources and the Privacy Office partnered under the Human Capital Steering Committee to improve all general (non-customer) systems of records. General systems cover all employee systems. Since that last revision, the Postal Service has undertaken a total modernization of how it collects and stores information about employees. The Postal Service has automated personnel actions, implemented an electronic Official Personnel Folder (eOPF), and changed how it tests and hires employees. Redesign of all the processes requires changes to the current systems of records. The Privacy Office worked closely with systems managers to develop the revised general systems. These changes are proposed for the reasons discussed below.

II. Rationale for Changes to USPS Privacy Act Systems of Records

Many businesses and other Federal agencies have automated their Human Resource (HR) processes in order to maintain competitiveness and ensure the most efficient use of resources. The Postal Service, like any other large organization, must cope with the constant demand for information from employees, management, and third parties. These applications assist the Postal Service in ensuring accuracy of data and quick retrieval of data in order to meet that demand. In addition, the introduction of automated systems provides improved service, quick development of reports required for benefits administration, government requirements, and strategic planning. Customized reports enhance analysis, forecasting, and planning.

The other changes outlined update retention periods, administrative changes, and system locations due to the abolishment of local HR offices and movement to a central location for all HR processing in Greensboro, North Carolina. The revisions to 810.200, the only customer system of records in this notice, are required due an inadvertent

error that occurred when the system of records was last revised on May 12, 2009, and the routine uses were deleted. This change reinstates those routine uses. Also, 810.200 has an updated retention period from 6 months to 12 months for online user information and an update to one of the titles in the System Manager(s) and Address section.

III. Description of Changes to Systems of Records

The Postal Service is modifying ten systems of records: USPS 100.000, General Personnel Records; USPS 100.100, Recruiting, Examining, and Placement Records; USPS 100.200, Employee Performance Records; USPS 100.300, Employee Development and Training Records; USPS 100.400, Personnel Compensation and Payroll Records; USPS 100.500, Personnel Resource Management Records; USPS 100.600, Personnel Research Records; USPS 100.700, Medical Records and Related Documents; USPS 100.950, Employee Assistance Program (EAP) Records; and USPS 810.200 www.usps.com Ordering, Payment, and Fulfillment. Pursuant to 5 U.S.C. 552a(e) (11), interested persons are invited to submit written data, views, or arguments on this proposal. A report of the proposed modification has been sent to Congress and to the Office of Management and Budget for their evaluation. The Postal Service does not expect this amended notice to have any adverse effect on individual privacy rights. The Postal Service proposes amending the systems as shown below:

IV. Description of New System of Records

Accordingly, the Postal Service proposes changes in existing systems of records and addition of a new system of records as follows:

2. *Official Personnel Folder (OPF) or eOPF (electronic version):* Records related to appointment support, prior federal civilian employment, postal employment, personnel actions, anniversary dates, retirement, benefits, and compensation.

3. *Automated employee information:* Records generated, approved, and stored by electronic means such as *Notification of Personnel Actions*, health benefit elections, tax withholding changes, and address changes.

4. *Reference copies of all discipline or adverse actions:* Letters of warning; notices of removal, suspension and/or reduction in grade or pay; letters of

decisions; and documents relating to these actions. These are used only to refute inaccurate statements by witnesses before a judicial or administrative body. They may not be maintained in the employee's OPF or eOPF but must be maintained in a separate file by Labor Relations.

[INSERT NEW TEXT]

8. *Level 2 supervisors' notes:* Records of discussions, letters of warning, and any other relevant official records being maintained at the supervisor's discretion for the purpose of enabling effective management of personnel. (A level 2 supervisor directly supervises bargaining unit employees.)

[CHANGE TO READ]

2. To maintain a source of readily available information on employees for administrative purposes.

* * * * *

STORAGE:

[CHANGE TO READ]

Automated database, computer storage media, digital files, and paper files. Duplicates of records in the OPF or eOPF and automated employee data may be maintained for localized employee administration or supervision. Records may be filed at offices other than where OPF or eOPF is located, or may be duplicated at a site closer to where the employee works.

SAFEGUARDS:

[INSERT NEW TEXT]

Paper records, computers, and computer storage media are located in controlled-access areas under supervision of program personnel. Access to these areas is limited to authorized personnel, who must be identified with a badge. Nonbargaining unit employee discipline, grievance, and appeals records maintained outside the OPF (hard or soft copy) are kept in locked filing cabinets or secured record storage rooms; and related automated records are protected with password security. Computers are protected by mechanical locks, card key systems, or other physical access control methods. The use of computer systems is regulated with installed security software, computer logon identifications, and operating system controls including access controls, terminal and transaction logging, and file management software.

RETENTION AND DISPOSAL:

[CHANGE TO READ]

1. Permanent OPF or eOPF records are permanently retained. Temporary OPF

or eOPF records are generally retained 2 years and are purged upon the employee's separation from USPS.

2. Except as otherwise provided by a collective bargaining agreement, original or copies of discipline or adverse actions are maintained up to 2 years; or, if an additional or more recent disciplinary action has been taken, for a longer period. After 2 years, or lesser time specified in the decision, the employee may request the disciplinary record be purged from the OPF or eOPF provided no subsequent discipline was issued. Records that support a PS Form 50, *Notification of Personnel Action*, e.g., the separation of an employee for cause or the resignation of an employee pending charges, are considered permanent records and may not be purged at the request of an employee.

3. Reference copies of discipline or adverse actions. These records are kept for historical purposes and are not to be used for decisions about the employee. The retention of these records may not exceed 10 years beyond the employee's separation date. The records are maintained longer if the employee is rehired during the 10-year period. They may not be maintained in the employee's OPF or eOPF, but must be maintained in a separate file by Labor Relations.

All biographic and biometric data collected prior to and during the enrollment process is transmitted to the PIV IDMS over a private network in an encrypted format. Facilities and equipment are secured by limiting physical access to the workspace and

system, and by requiring an appropriate verification of identity. Where appropriate, this method uses the PIV card providing up to three factors of authentication. Where necessary, this method also consists of two components (*e.g.*, user id + password). Physical security measures are employed to protect enrollment equipment, facilities, material, and information systems, including locks, ID badges, fire protection, redundant power and climate control to protect IT equipment. The PIV IDMS sends confirmed enrollment information to the card production facility via a secure FTP connection. Cards that are not active cannot be used for access to federal facilities. Certifications are revoked when they are reported lost, stolen, damaged beyond use, or when a cardholder has failed to meet the terms and conditions of enrollment. Cards will be deactivated upon collection of damaged cards or if the employee no longer requires a PIV card.

RETENTION AND DISPOSAL:

1. Building access records are retained according to the policies of the agencies visited.

SECURITIES AND EXCHANGE COMMISSION

Release No. 34-64653; File No. SR-CBOE-2011-041

Self-Regulatory Organizations; Chicago Board Options Exchange, Inc.; Order Granting Approval of Proposed Rule Change Establishing Qualified Contingent Cross Orders

June 13, 2011.

I. Introduction

On April 18, 2011, the Chicago Board Options Exchange, Inc. ("CBOE" or "Exchange") filed with the Securities and Exchange Commission ("Commission"), pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act")¹ and Rule 19b-4 thereunder,² a proposed rule change to establish qualified contingent cross orders ("QCC Order"). The proposed rule change was published in the *Federal Register* on May 4, 2011.³ The Commission received four comments on the proposal.⁴ CBOE submitted a comment response letter on June 6, 2011.⁵ This order grants approval of the proposed rule change.

¹ 15 U.S.C. 78s(b)(1).

² 17 CFR 240.19b-4.

⁴ See Letters to Elizabeth M. Murphy, Secretary, Commission, from Martin Galivan, dated May 4, 2011 ("Galivan Letter"); Ron March, dated May 4, 2011 ("March Letter"); Jesse L. Stamer, dated May 8, 2011 ("Stamer Letter"); and Michael J. Simon, Secretary, International Securities Exchange ("ISE"), dated May 27, 2011 ("ISE Letter").

⁵ See Letter to Elizabeth M. Murphy, Secretary, Commission, from Jennifer M. Lamie, Assistant

II. Description of the Proposal

CBOE proposes to amend CBOE Rule 6.53 to adopt rules related to a new QCC Order type that will be available to CBOE Trading Permit Holders ("TPHs").⁶ CBOE Rule 6.53 would permit QCC Orders to be submitted electronically from either on or off the floor through the CBOE Hybrid Trading System. The QCC Order would permit a TPH to cross the options leg(s) of a qualified contingent trade ("QCT")⁷ in a Regulation NMS stock, on CBOE immediately without exposure if the order is: (i) For at least 1,000 contracts; (ii) is part of a QCT;⁸ (iii) is executed at a price at least equal to the national best bid or offer ("NBBO"); and (iv) there are no public customer orders resting in the Exchange's electronic book at the same price. Specifically, the QCC Order type would permit TPHs to provide their customers a net price for the stock-option trade, and then allow the TPH to execute the options leg(s) of the trade on CBOE at a price at least equal to the NBBO while using the QCT exemption to effect the trade in the

General Counsel, CBOE, dated June 6, 2011 ("CBOE Response Letter").

⁶ In the Notice, the Exchange states that the proposal will permit CBOE to remain competitive with ISE, which has a QCC Order type that is submitted from off the floor, and other options exchanges that may adopt a similar order type. See Notice, *supra* note 3, at 25393.

⁷ The Commission has granted an exemption for QCTs that meet certain requirements from Rule 611(a) of Regulation NMS, 17 CFR 242.611(a). See Securities Exchange Act Release No. 57620 (April 4, 2008), 73 FR 19271 (April 9, 2008) ("QCT Release," which supersedes a release initially granting the QCT exemption, Securities Exchange Act Release No. 54389 (August 31, 2006), 71 FR 52829 (September 7, 2006) ("Original QCT Release").

⁸ CBOE is proposing to define a qualified contingent cross trade substantively identical to the Commission's definition in the QCT Release. A qualified contingent cross trade must meet the following conditions: (i) At least one component must be an NMS stock, as defined in Rule 600 of Regulation NMS, 17 CFR 242.600; (ii) all components must be effected with a product or price contingency that either has been agreed to by all the respective counterparties or arranged for by a broker-dealer as principal or agent; (iii) the execution of one component must be contingent upon the execution of all other components at or near the same time; (iv) the specific relationship between the component orders (*e.g.*, the spread between the prices of the component orders) is determined by the time the contingent order is placed; (v) the component orders must bear a derivative relationship to one another, represent different classes of shares of the same issuer, or involve the securities of participants in mergers or with intentions to merge that have been announced or cancelled; and (vi) the transaction must be fully hedged (without regard to any prior existing position) as a result of other components of the contingent trade. Consistent with the QCT Release, TPHs would be required to demonstrate that the transaction is fully hedged using reasonable risk-valuation methodologies. See QCT Release, *supra* note 7, at footnote 9.
