SUPPLEMENTARY INFORMATION:

Title of Collection: MARAD Maritime Operator Survey Concerning Mariner Availability.

Type of Request: Extension of currently approved information collection.

OMB Control Number: 2133-0537.

Form Numbers: MA-1048.

Expiration Date of Approval: Three years after date of approval by the Office of Management and Budget.

Summary of Collection of Information: Part of the stated statutory policy of the Merchant Marine Act, 1936, is to foster the development and maintenance of an adequate U.S.-flag merchant marine manned with trained and efficient citizen mariners. In order to successfully meet this mandate, the Maritime Administration (MARAD) must determine whether a current or projected shortage of mariners exists and the possible impact of such a shortage on the merchant marine. MARAD believes that a survey is necessary because it has received an abundance of anecdotal information indicating there is a serious existing and projected mariner shortage in different market sectors.

Need and Use of the Information: The information will be used by MARAD to determine if a current and/or projected mariner shortage exists. If there is a projected shortage that appears to be more short-term, MARAD will follow up with a more detailed survey to ascertain the best means to address the shortage.

Description of Respondents: The target population for the survey will be approximately 100 vessel operating companies representing different sectors of the U.S. maritime industry.

Annual Responses: 100 responses.

Annual Burden: 33 hours.
