

have received to date were considered during development of the Draft CCP/EA.

### Draft CCP Alternatives We Are Considering

#### *Alternative A, No Action*

Under Alternative A, we would continue current management. This includes focusing threatened and endangered species management on protection and successful nesting, in support of the statewide effort to implement the Hawaiian Waterbird Recovery Plan. Public use programs would remain virtually unchanged. Units would remain closed to general public entry except for seasonal docent-guided tours and Special Use Permits issued on a case-by-case basis for environmental education, research, and other compatible uses. Newly acquired expansion lands would receive custodial oversight only, no habitat restoration would occur, and no additional visitor services would be provided. Both current commercial aquaculture leases would remain in effect until 2023 at which time, by prior agreement, they would expire.

#### *Alternative B, Partial Restoration and Management of Refuge Expansion Lands*

Current habitat management programs would continue. On newly acquired Refuge lands, only the highest priority wetlands and coastal dunes would be restored and fenced to exclude large predators. Within five years of acquiring new Refuge lands, a Visitor Services Plan (VSP) would be developed to identify, evaluate, and carefully select the types of wildlife-oriented activities we would provide the public, and the sites and locations for infrastructure needed to fully support safe, meaningful, and high-quality programs for the public. Infrastructure needs identified by the VSP would include safe roads, parking areas, trails, and an overlook. We would also identify and develop any new special regulations in the VSP, which may be needed to protect sensitive wildlife resources, the fragile coastline, and the visiting public. During the interim five-year period until the VSP is prepared, the current public use program would continue under Alternative B, with slight increases in opportunities for wildlife observation and photography. The Refuge would participate and partner with other agencies and the community of Kahuku, to develop, evaluate, and implement projects to mitigate flood damage to the local area, if practical and feasible. Both current commercial aquaculture leases

will remain in effect until 2023, at which time, by prior agreement, they will expire.

#### *Alternative C, Full Restoration and Management of Refuge Expansion Lands*

In addition to management actions identified in Alternative B, all wetlands, coastal dunes/strand, and scrub/shrub habitats would be restored and managed. Trial use of predator-proof fencing would be initiated on selected dune or wetland sites, to protect seabirds or waterbirds. Abandoned aquaculture facilities would be cleaned up, and the habitat would be restored to natural conditions or other approved uses.

### Public Availability of Documents

We encourage you to stay involved in the CCP planning process by reviewing and commenting on the proposals we have developed in the Draft CCP/EA. Copies of the Draft CCP/EA are available by request from David Ellis, Project Leader, O'ahu National Wildlife Refuge Complex, 66-590 Kamehameha Highway, Room 2C, Hale'iwa, HI 96712. The Draft CCP/EA will also be available for viewing and downloading on the Internet at <http://www.fws.gov/pacific/planning>.

### Next Steps

After this comment period ends, we will analyze the comments and address them in the Final CCP and decision document.

### Public Availability of Comments

Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

#### Notice of Filing of Plats of Survey; Montana

**AGENCY:** Bureau of Land Management, Interior.

**ACTION:** Notice of filing of plats of survey.

**SUMMARY:** The Bureau of Land Management (BLM) will file the plat of survey of the lands described below in the BLM Montana State Office, Billings, Montana, on August 1, 2011.

**DATES:** Protests of the survey must be filed before August 1, 2011 to be considered.

**ADDRESSES:** Protests of the survey should be sent to the Branch of Cadastral Survey, Bureau of Land Management, 5001 Southgate Drive, Billings, Montana 59101-4669.

**FOR FURTHER INFORMATION CONTACT:** Marvin Montoya, Cadastral Surveyor, Branch of Cadastral Survey, Bureau of Land Management, 5001 Southgate Drive, Billings, Montana 59101-4669, telephone (406) 896-5124 or (406) 896-5009, *Marvin\_Montoya@blm.gov*. Persons who use a telecommunications device for the deaf (TDD) may call the

Federal Information Relay Service (FIRS) at 1-800-877-8339 to contact the above individual during normal business hours. The FIRS is available 24 hours a day, 7 days a week, to leave a message or question with the above individual. You will receive a reply during normal business hours.

**SUPPLEMENTARY INFORMATION:** This survey was executed at the request of the U.S. Department of Agriculture, U.S. Forest Service, Region 1, Bozeman, Montana, and was necessary to determine the boundaries of Federal interest lands.

The lands we surveyed are:

#### Principal Meridian, Montana

T. 6 S., R. 10 E.

The plat, in three sheets, representing the dependent resurvey of a portion of the subdivisional lines and Homestead Entry Survey No. 866 and the survey of a portion of the westerly boundary of the Absaroka-Beartooth Wilderness and certain tracts and parcels, in Protraction Block 39, in Township 6 South, Range 10 East, Principal Meridian, Montana, was accepted June 21, 2011.

We will place a copy of the plat, in three sheets, and related field notes we described in the open files. They will be available to the public as a matter of information. If the BLM receives a protest against this survey, as shown on this plat, in three sheets, prior to the date of the official filing, we will stay the filing pending our consideration of the protest.

We will not officially file this plat, in three sheets, until the day after we have accepted or dismissed all protests and they have become final, including decisions or appeals.

#### Notice of Segregation of Public Lands in the States of Arizona, California, Colorado, Nevada, New Mexico, and Utah

**AGENCY:** Bureau of Land Management, Interior.

**ACTION:** Notice.

**SUMMARY:** The Bureau of Land Management (BLM) is segregating public lands located in six States from appropriation under the public land and mining laws, but not the mineral leasing or material sales acts, for a period of 2 years for the purpose of protecting potential sites for future solar energy development.

**DATES:** *Effective Date:* This segregation is effective on June 30, 2011.

The FIRS is available 24 hours a day, 7 days a week, to leave a message or question with the above individual. You will receive a reply during normal business hours.

**SUPPLEMENTARY INFORMATION:** The BLM has requested the Secretary of the Interior to withdraw, subject to valid existing rights, approximately 677,384 acres of public lands located in the States of Arizona, California, Colorado, Nevada, New Mexico, and Utah from settlement, sale, location, or entry under the public land laws, including the mining laws, but not the mineral leasing, geothermal leasing, and the mineral material laws for a period of 5 years. On June 30, 2009, a Notice of Proposed Withdrawal and Opportunity for Public Meeting was published in the **Federal Register** (74 FR 31308), which closed the lands from surface entry and mining for a 2-year period. This closure period will expire on June 29, 2011. In order to prevent opening of the lands on this date, the BLM is segregating the lands under the authority contained in 43 CFR 2091.3-1(e) and 43 CFR 2804.25(e) for a period of 2 years, subject to valid existing rights. This 2-year segregation period will commence on June 30, 2011. The public lands involved in this notice will be segregated from appropriation under the public land and mining laws, but not the mineral leasing or material sale laws. It has been determined that this segregation is necessary for the orderly administration of the public lands that have been identified by the BLM as having the potential for solar energy generation.

The segregation period will terminate and the lands will automatically reopen to appropriation under the public land laws, including the mining laws, 2 years
