On March 1, 2011, Free Flow Power Corporation filed an application, pursuant to section 4(f) of the Federal Power Act, proposing to study the feasibility of hydropower on the Mississippi River, near the town of Plaquemine, in Iberville Parish, Louisiana. On June 13, 2011, the Commission issued an order in this proceeding granting rehearing of its April 12, 2011 order,¹ for further consideration, and establishing a technical conference to explore the issues raised on rehearing regarding the applicability of the PJM Interconnection, LLC (PJM) Minimum Offer Price Rule (MOPR) as it relates to self-supply Sell Offers for Planned Generation Capacity Resources submitted into PJM's Reliability Pricing Model base residual auction.²

Parties will have 21 days after the technical conference to respond to the issues raised. A subsequent notice will be issued announcing panelists and the format of the conference.
