

ACTION: Notice of an open meeting.

SUMMARY: The Manufacturing Council will hold a meeting to discuss workforce development issues, a clean energy standard, energy efficiency, energy regulation reform, trade agreements and other issues affecting the U.S. manufacturing sector and to receive briefings from the Departments of Commerce, the Treasury, Labor, and Energy on their activities relating to the U.S. manufacturing sector.

DATES: July 22, 2011.

Time: 10:30 a.m.–12:30 p.m. PDT.

ADDRESSES: United Streetcar, 9700 SE. Lawnfield Road, Clackamas, Oregon 97015. All guests are requested to register in advance. This program will be physically accessible to people with disabilities. Seating is limited and will be on a first come, first served basis. Requests for sign language interpretation, other auxiliary aids, or pre-registration, should be submitted no later than July 14, 2011, to Jennifer Pilat, the Manufacturing Council, Room 4043, 1401 Constitution Avenue, NW., Washington, DC 20230, telephone 202–482–4501, *jennifer.pilat@trade.gov*. Last minute requests will be accepted, but may be impossible to fill.

FOR FURTHER INFORMATION CONTACT: Jennifer Pilat, the Manufacturing Council, Room 4043, 1401 Constitution Avenue, NW., Washington, DC 20230, telephone: 202–482–4501, e-mail: *jennifer.pilat@trade.gov*.

SUPPLEMENTARY INFORMATION: The Council was re-chartered on April 8, 2010, to advise the Secretary of Commerce on matters relating to the U.S. manufacturing industry. No time will be available for oral comments from members of the public attending the meeting. Any member of the public may submit pertinent written comments concerning the Council's affairs at any time before or after the meeting. Comments may be submitted to Jennifer Pilat at the contact information indicated above. To be considered during the meeting, comments must be received no later than 5 p.m. Eastern Time on July 14, 2011, to ensure transmission to the Council prior to the meeting. Comments received after that date will be distributed to the members but may not be considered at the meeting.

Copies of Council meeting minutes will be available within 90 days of the meeting.

Dated: June 30, 2011.

Jennifer Pilat,
Executive Secretary, The Manufacturing Council.

Certain Activated Carbon From the People's Republic of China: Notice of Partial Rescission of Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

DATES: *Effective Date:* July 7, 2011.

FOR FURTHER INFORMATION CONTACT: Catherine Bertrand, AD/CVD Operations, Office 9, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230; telephone—(202) 482–3207.

Background

On May 27, 2011, the Department of Commerce (“Department”) published in the **Federal Register** a notice of initiation of an administrative review of the antidumping duty order on certain activated carbon from the People's Republic of China (“PRC”) covering the period April 1, 2010, to March 31, 2011. *See Initiation of Antidumping and Countervailing Duty Administrative Reviews*, 76 FR 30912, 30913 (May 27, 2011) (“*Initiation Notice*”).

On June 10, 2011, Petitioners¹ withdrew their request for an administrative review for the following companies: Calgon Carbon (Tianjin) Co., Ltd. (“CCT”) and Ningxia Huahui Activated Carbon Co., Ltd. (“Huahui”). On June 10, 2011, Huahui withdrew its request for a review of itself that was originally submitted on April 29, 2011. Then, on June 10, 2011, Albemarle Corporation (“Albemarle”), a company we previously determined to be a wholesaler of the domestic-like product, withdrew its request for review of CCT previously submitted on April 29, 2011. Likewise, on June 15, 2011, CCT withdrew its request for a review of itself originally submitted on April 29, 2011.

¹ Petitioners are Calgon Carbon Corporation & Norit Americas Inc., collectively.

Partial Rescission

Pursuant to 19 CFR 351.213(d)(1), the Secretary will rescind an administrative review, in whole or in part, if a party who requested the review withdraws the request within 90 days of the date of publication of notice of initiation of the requested review. The aforementioned requests for review were withdrawn within the 90-day period. Because the requests for review were timely withdrawn and because no other party requested a review of the aforementioned companies, in accordance with 19 CFR 351.213(d)(1), we are partially rescinding this review with respect to CCT and Huahui.

Assessment Rates

The Department will instruct U.S. Customs and Border Protection (“CBP”) to assess antidumping duties on all appropriate entries. Both CCT and Huahui have a separate rate from a prior segment of this proceeding; therefore, antidumping duties shall be assessed at rates equal to the cash deposit of estimated antidumping duties required at the time of entry, or withdrawal from warehouse, for consumption, in accordance with 19 CFR 351.212(c)(2). Accordingly, the Department intends to issue appropriate assessment instructions directly to CBP 15 days after publication of this notice for CCT and Huahui.

Notification to Importers

This notice serves as a final reminder to importers for whom this review is being rescinded, as of the publication date of this notice, of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of the antidumping duties occurred and the subsequent assessment of double antidumping duties.

Notification Regarding Administrative Protective Orders

This notice also serves as a reminder to parties subject to administrative protective orders (“APO”) of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305, which continues to govern business proprietary information in this segment of the proceeding. Timely written notification of the return/destruction of APO materials or conversion to judicial

protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.

This notice is issued and published in accordance with section 777(i)(1) of the Tariff Act of 1930, as amended, and 19 CFR 351.213(d)(4).

Dated: June 30, 2011.

Christian Marsh,

Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.

Certain Large Diameter Carbon and Alloy Seamless Standard, Line, and Pressure Pipe (Over 4½ Inches) From Japan: Preliminary Results of the Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: On July 28, 2010, the U.S. Department of Commerce (“the Department”) published a notice of initiation of an administrative review of the antidumping duty order on certain large diameter carbon and alloy seamless standard, line, and pressure pipe (over 4½ inches) from Japan. The review covers four manufacturers/exporters: JFE Steel Corporation (“JFE”); Nippon Steel Corporation (“Nippon”); NKK Tubes (“NKK”); and Sumitomo Metal Industries, Ltd. (“SMI”). The period of review (“POR”) is June 1, 2009, through May 31, 2010. Following the receipt of certifications of no shipments from all four of the potential respondents, we sought further clarification of specific entries indicated by U.S. Customs and Border Protection (“CBP”) data. After analyzing parties’ explanations of these entries, we have reached a preliminary determination of no shipments in this administrative review. If the preliminary results are adopted in our final results of this administrative review, we will instruct CBP to assess antidumping duties on all appropriate entries. Interested parties are invited to comment on the preliminary results.

DATES: *Effective Date:* Insert date of publication in the **Federal Register**.

FOR FURTHER INFORMATION CONTACT: Joshua Morris, AD/CVD Operations, Office 1, Import Administration, International Trade Administration,

U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230; *telephone:* (202) 482-1779.

SUPPLEMENTARY INFORMATION:

Background

On June 1, 2010, the Department published a notice of opportunity to request an administrative review of the antidumping duty order on carbon and alloy seamless standard, line, and pressure pipe (over 4½ inches) from Japan for the period June 1, 2009, through May 31, 2010. *See Antidumping or Countervailing Duty Order, Finding or Suspended Investigation; Opportunity To Request Administrative Review*, 75 FR 30383 (June 1, 2010). On June 30, 2010, United States Steel Corporation (“U.S. Steel”), a domestic producer of the subject merchandise, made a timely request that the Department conduct an administrative review of JFE, Nippon, NKK, and SMI. On July 28, 2010, in accordance with section 751(a) of the Tariff Act of 1930, as amended (“the Act”), the Department published in the **Federal Register** a notice of initiation of this antidumping duty administrative review. *See Initiation of Antidumping and Countervailing Duty Administrative Reviews and Requests for Revocations in Part*, 75 FR 44224 (July 28, 2010). On August 18, and 31, 2010, Nippon and SMI, respectively, submitted letters to the Department certifying that each company made no shipments or entries for consumption in the United States of subject merchandise during the POR. On August 31, 2010, the Department issued its antidumping duty questionnaire to JFE and NKK. On September 8, and 21, 2010, JFE and NKK, respectively, submitted letters to the Department certifying that each company made no shipments or entries for consumption in the United States of subject merchandise during the POR.

Scope of the Order

The products covered by the order are large diameter seamless carbon and alloy (other than stainless) steel standard, line, and pressure pipes produced, or equivalent, to the American Society for Testing and Materials (“ASTM”) A-53, ASTM A-106, ASTM A-333, ASTM A-334, ASTM A-589, ASTM A-795, and the American Petroleum Institute (“API”) 5L specifications and meeting the physical parameters described below, regardless of application. The scope of the order also includes all other products used in standard, line, or pressure pipe applications and meeting the physical parameters described

below, regardless of specification, with the exception of the exclusions discussed below. Specifically included within the scope of the order are seamless pipes greater than 4.5 inches (114.3 mm) up to and including 16 inches (406.4 mm) in outside diameter, regardless of wall-thickness, manufacturing process (hot finished or cold-drawn), end finish (plain end, beveled end, upset end, threaded, or threaded and coupled), or surface finish.

The seamless pipes subject to the order are currently classifiable under the subheadings 7304.10.10.30, 7304.10.10.45, 7304.10.10.60, 7304.10.50.50, 7304.19.10.30, 7304.19.10.45, 7304.19.10.60, 7304.19.50.50, 7304.31.60.10, 7304.31.60.50, 7304.39.00.04, 7304.39.00.06, 7304.39.00.08, 7304.39.00.36, 7304.39.00.40, 7304.39.00.44, 7304.39.00.48, 7304.39.00.52, 7304.39.00.56, 7304.39.00.62, 7304.39.00.68, 7304.39.00.72, 7304.51.50.15, 7304.51.50.45, 7304.51.50.60, 7304.59.20.30, 7304.59.20.55, 7304.59.20.60, 7304.59.20.70, 7304.59.60.00, 7304.59.80.30, 7304.59.80.35, 7304.59.80.40, 7304.59.80.45, 7304.59.80.50, 7304.59.80.55, 7304.59.80.60, 7304.59.80.65, and 7304.59.80.70 of the Harmonized Tariff Schedule of the United States (“HTSUS”).

Specifications, Characteristics, and Uses: Large diameter seamless pipe is used primarily for line applications such as oil, gas, or water pipeline, or utility distribution systems. Seamless pressure pipes are intended for the conveyance of water, steam, petrochemicals, chemicals, oil products, natural gas and other liquids and gasses in industrial piping systems. They may carry these substances at elevated pressures and temperatures and may be subject to the application of external heat. Seamless carbon steel pressure pipe meeting the ASTM A-106 standard may be used in temperatures of up to 1000 degrees Fahrenheit, at various American Society of Mechanical Engineers (“ASME”) code stress levels. Alloy pipes made to ASTM A-335 standard must be used if temperatures and stress levels exceed those allowed for ASTM A-106. Seamless pressure pipes sold in the United States are commonly produced to the ASTM A-106 standard.

Seamless standard pipes are most commonly produced to the ASTM A-53 specification and generally are not intended for high temperature service. They are intended for the low temperature and pressure conveyance of water, steam, natural gas, air and other
