

satisfactory completion of the COC examination, the Coast Guard will issue the MODU a certificate valid for a period of 2 years. In addition, the Coast Guard will conduct a mid-period examination a year later to ensure the MODU remains in full compliance.

Before the issuance of this policy letter, aside from this annual exam requirement, there was no process in place to identify a foreign-flagged MODU that may require additional Coast Guard oversight while operating on the U.S. OCS (*i.e.* based on inspection history or other related factors). In response to April 2010 MACONDO 252 incident, the Coast Guard has taken steps to improve oversight of foreign-flagged MODUs.

Office of Vessel Activities Policy Letter 11–06 addresses this issue by detailing inspection procedures using the newly developed MODU Safety and Environmental Protection Compliance Targeting Matrix. This targeting matrix will enable the Coast Guard to rationally and systematically determine the probable risk posed by foreign flagged MODUs operating on the U.S. OCS by identifying foreign-flagged MODUs that may require increased oversight.

The matrix operates by recording five variables that the Coast Guard will use to determine whether a MODU should be subject to more frequent examinations to ensure compliance with safety regulations. If a MODU exhibits characteristics indicative of poor safety or environmental compliance, points are assigned for that variable. If a MODU accumulates a certain number of points, it is assigned “priority” status and will be subject to more frequent inspections by the Coast Guard. These variables, which are described in detail in the policy advisory, include:

- Management: points will be assigned if the MODUs management company has a history of vessels detained in the U.S. in the previous 12 months.
- Flag: points will be assigned if the MODU’s Flag Administration is a country with a higher than average rate of vessel detention.
- Classification Society/Recognized Organization: points will be assigned if MODU is certified by a Classification Society/Recognized Organization that has a high safety detention ratio.
- Vessel History: points will be assigned for 1st time to U.S., no history of Coast Guard examinations, or history of operational controls, marine casualties or violations.
- MODU Particulars: points may be assigned based on certain characteristics of the MODU, such as propulsion,

design (*e.g.* semi-submersible, jack-up), or age.

This policy letter also contains information collection procedures for Coast Guard personnel and documentation for use in examinations of foreign-flagged MODUs.

Owners and operators of foreign flagged MODUs should review Policy Letter 11–06 and ensure their vessels are in compliance with the applicable regulations. MODUs that maintain their vessels consistently within the applicable regulations should not be subject to increased inspections.
