

any minor agricultural use before granting the request, unless:

1. The registrants request a waiver of the comment period, or
2. The EPA Administrator determines that continued use of the pesticide would pose an unreasonable adverse effect on the environment.

The formetanate HCl and acephate registrants have requested that EPA waive the 180-day comment period. Accordingly, EPA will provide a 30-day comment period on the proposed requests.

V. Procedures for Withdrawal of Requests

Registrants who choose to withdraw a request for product cancellation or use deletion should submit the withdrawal in writing to the person listed under **FOR FURTHER INFORMATION CONTACT**. If the products have been subject to a previous cancellation action, the effective date of cancellation and all other provisions of any earlier cancellation action are controlling.

VI. Provisions for Disposition of Existing Stocks

Existing stocks are those stocks of registered pesticide products that are currently in the United States and that were packaged, labeled, and released for shipment prior to the effective date of the action. If the requests for amendments to delete uses are granted, the Agency intends to publish the cancellation order in the **Federal Register**.

In any order issued in response to these requests for amendments to delete uses, EPA proposes to include the following provisions for the treatment of any existing stocks of the products listed in Table 1 of Unit III.

Formetanate HCl registrants will be permitted to sell and distribute existing stocks of products under the previously approved labeling until November 30, 2011. Thereafter, registrants will be prohibited from selling or distributing the products whose labels include the deleted uses identified in Table 1 of Unit III., except for export consistent with FIFRA section 17 or for proper disposal.

Persons other than the registrant may sell, distribute, or use existing stocks of products, including those of (24c) Special Local Needs Registration, whose labels include the deleted uses until December 31, 2013, provided that such sale, distribution, or use is consistent with the terms of the previously approved labeling on, or that accompanied, the deleted uses.

Once EPA has approved amended acephate product labels reflecting the

requested amendments to delete the succulent green bean use, registrants will be permitted to sell or distribute products under the previously approved labeling for a period of 18 months after the date of **Federal Register** publication of the cancellation order, unless other restrictions have been imposed.

Thereafter, registrants will be prohibited from selling or distributing the products whose labels include the deleted uses identified in Table 1 of Unit III., except for export consistent with FIFRA section 17 or for proper disposal.

The FCC may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to

any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a currently valid OMB control number.

DATES: Written Paperwork Reduction Act (PRA) comments should be submitted on or before August 12, 2011. If you anticipate that you will be submitting PRA comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the FCC contact listed below as soon as possible.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-1120.

Title: Service Quality Measure Plan for Interstate Special Access Quarterly Reporting Requirements.

Form No.: N/A.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit.

Number of Respondents: 3 respondents; 12 responses.

Estimated Time per Response: 25 hours.

Frequency of Response: Quarterly reporting requirement, recordkeeping requirement and third party disclosure requirement.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained in 47 U.S.C. 151,152,

154(i), 154(j), 201–204, 214, 220(a), 251, 252, 271, 272, and 303(r).

Total Annual Burden: 300 hours.

Total Annual Cost: N/A.

Privacy Act Impact Assessment: N/A.

Nature and Extent of Confidentiality:

The Commission anticipates that the Bell Operating Companies (BOCs) which are AT&T, Quest and Verizon, may request confidentiality protection for the special access performance information.

Needs and Uses: The Commission will submit this information collection to the Office of Management and Budget (OMB) in order to obtain the full three year clearance from them. The Commission is requesting OMB approval for a revision of this information collection.

The Commission previously adopted two new information collection requirements that received OMB approval. The monthly usage information requirement has expired, pursuant to the terms of the Section 272 Sunset Order. The burden for the monthly reporting requirement has been eliminated and we now seek continued OMB approval for the special access performance metric information requirement (quarterly reporting requirement) will be extended (continued).

The Commission has established a new framework to govern the provision of in-region, long-distance services that allows the BOCs to provide in-region, interstate, long distance services either directly or through affiliates that are neither section 272 separate affiliates nor rule 64.1903 affiliates, see Section 272 Sunset Order, FCC 07–159. Because the BOCs are no longer required to comply with the section 272 structural safeguards, the Commission established special access performance metrics reporting requirements, *i.e.*, ordering, provisioning, and repair and maintenance to ensure that the BOCs and their independent incumbent LEC affiliates do not engage in non-price discrimination in the provision of special access services to unaffiliated entities.

The information gleaned from these performance metrics will provide the Commission and other interested parties with reasonable tools to monitor each BOC's performance in providing these special access services to itself and its competitors.

Federal Communications Commission.

Bulah P. Wheeler,

Deputy Manager, Office of the Secretary, Office of Managing Director.

FEDERAL COMMUNICATIONS COMMISSION

Information Collection Being Reviewed by the Federal Communications Commission

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: The Federal Communications Commission (FCC), as part of its continuing effort to reduce paperwork burdens, invites the general public and other Federal agencies to take this opportunity to comment on the following information collection, as required by the Paperwork Reduction Act (PRA) of 1995. Comments are requested concerning (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and (e) ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.

The FCC may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid Office of Management and Budget (OMB) control number.

DATES: Written PRA comments should be submitted on or before September 12, 2011. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Submit your PRA comments to Nicholas A. Fraser, Office of Management and Budget, via fax at 202–395–5167 or via Internet at Nicholas_A.Fraser@omb.eop.gov and to Paul Laurenzano, FCC, via e-mail PRA@fcc.gov and to Paul.Laurenzano@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection, contact Paul Laurenzano at (202) 418–1359.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060–0770.

Title: Sections 61.49 and 69.4, Price Cap Performance Review for Local Exchange Carriers, FCC 99–206 (New Services).

Form Number: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit.

Number of Respondents and Responses: 21 respondents; 21 responses.

Estimated Time per Response: 10 hours.

Frequency of Response: On occasion reporting requirement.

Obligation To Respond: Required to obtain or retain benefits.

Total Annual Burden: 210 hours.

Annual Cost Burden: \$17,115.

Privacy Act Impact Assessment: No impact.

Nature and Extent of Confidentiality: There is no need for confidentiality. The Commission is not requesting that the respondents submit confidential information to the FCC. However, respondents who wish to request confidential treatment of the information they believe to be confidential, may do so under 47 CFR 0.459 of the Commission's rules.

Needs and Uses: This collection will be submitted as an extension (no change in reporting requirements) after this 60 day comment period to Office of Management and Budget (OMB) in order to obtain the full three year clearance. In the Fifth Report and Order in FCC 99–206, the Commission permitted price cap local exchange carriers (LECs) to introduce new services on a streamlined basis, without prior approval. The Commission adopted rules to eliminate the public interest showing required by section 69.4(g) and eliminated the new services test (except in the case of loop-based new services) required under sections 69.49(f) and (g). These modifications eliminated delays that existed for the introduction of new services as well as encouraging efficient investment and innovation. The information is used by the Commission to determine whether this is in the public interest for the incumbent LEC to offer a proposed new switched access service.
