

Estimated cost burden to respondents is \$10,952 (160 hours/2080 hours per year times \$142,372 per year average per employee = \$10,952 (rounded)). The estimated annual cost per respondent is \$685 (rounded).

The reporting burden includes the total time, effort, or financial resources expended to generate, maintain, retain, disclose, or provide the information including: (1) Reviewing instructions; (2) developing, acquiring, installing, and utilizing technology and systems for the purposes of collecting, validating, verifying, processing, maintaining, disclosing and providing information; (3) adjusting the existing ways to comply with any previously applicable instructions and requirements; (4) training personnel to respond to a collection of information; (5) searching data sources; (6) completing and reviewing the collection of information; and (7) transmitting, or otherwise disclosing the information.

The estimate of cost for respondents is based upon salaries for professional and clerical support, as well as direct and indirect overhead costs. Direct costs include all costs directly attributable to providing this information, such as administrative costs and the cost for information technology. Indirect or overhead costs are costs incurred by an organization in support of its mission. These costs apply to activities which benefit the whole organization rather than any one particular function or activity.

Comments are invited on: (1) Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology e.g. permitting electronic submission of responses.

Dated: July 18, 2011.

**Kimberly D. Bose,**  
Secretary.

## DEPARTMENT OF ENERGY

### Federal Energy Regulatory Commission

[Project Nos. 8865-006 and 8865-007;  
Project Nos. 8866-006 and 8866-007]

#### N. Stanley Standal and Loretta M. Standal; Lynn E. Stevenson; Notice of Change in Docket Numbers

1. On March 18, 1986, the Commission issued two licenses to the Lynn E. Stevenson, one for Project No. 1, FERC Project No. 8865<sup>1</sup> and the other for Project No. 2, FERC Project No. 8866.<sup>2</sup> Both projects are located on different unnamed tributaries to the Snake River in Gooding County, Idaho.

2. Several years later, Mr. Stevenson died and, on March 18, 2004, the Commission issued an Order Approving Transfer of License<sup>3</sup> for Project No. 2, FERC Project No. 8866 approving the transfer of license from the estate of Lynn E. Stevenson to N. Stanley and Loretta M. Standal. Shortly thereafter, on July 20, 2004, the Commission issued an Order Amending License<sup>4</sup> for Project No. 2, FERC Project No. 8866, for the replacement of the single 85 kW turbine/generator unit with three units totaling 70 kW. However, these orders misidentified the transferred and amended license as Project No. 2, FERC Project No. 8866, when the orders should have identified the project and license as Project No. 1, FERC Project No. 8865. The transfer of license and amendment orders were also incorrectly docketed as P-8866-006 and P-8866-007, respectively, when the orders should have been docketed as P-8865-006 and P-8865-007.

3. Accordingly, the Commission corrects the record in this notice by substituting Project No. 1, FERC Project No. 8865, instead of Project No. 2, FERC Project No. 8866, in the transfer and amendment orders. N. Stanley and Loretta M. Standal are correctly identified as the licensees for Project No. 1, FERC Project No. 8865 and Lynn E. Stevenson is still the license of record for Project No. 2, FERC Project No. 8866.

4. In order to correct the record based on this earlier misidentification, all filings and issuances since the filing of the transfer of license application, on November 12, 2003, made in P-8866 are moved into record for P-8865 and all filings made in P-8865 are moved in the record for P-8866.

<sup>1</sup> 34 FERC ¶ 62,531 (1986).

<sup>2</sup> 34 FERC ¶ 62,530 (1986).

<sup>3</sup> 106 FERC ¶ 62,212 (2004).

<sup>4</sup> 108 FERC ¶ 62,059 (2004).

Dated: July 18, 2011.

## DEPARTMENT OF ENERGY

### Federal Energy Regulatory Commission

[ Docket No. ER11-4047-000]

#### Invernergy Wind Development Michigan LLC; Supplemental Notice That Initial Market-Based Rate Filing Includes Request for Blanket Section 204 Authorization

This is a supplemental notice in the above-referenced proceeding of Invernergy Wind Development Michigan LLC's application for market-based rate authority, with an accompanying rate tariff, noting that such application includes a request for blanket authorization, under 18 CFR part 34, of future issuances of securities and assumptions of liability.

Any person desiring to intervene or to protest should file with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). Anyone filing a motion to intervene or protest must serve a copy of that document on the Applicant.

Notice is hereby given that the deadline for filing protests with regard to the applicant's request for blanket authorization, under 18 CFR part 34, of future issuances of securities and assumptions of liability, is August 8, 2011.

The Commission encourages electronic submission of protests and interventions in lieu of paper, using the FERC Online links at <http://www.ferc.gov>. To facilitate electronic service, persons with Internet access who will eFile a document and/or be listed as a contact for an intervenor must create and validate an eRegistration account using the eRegistration link. Select the eFiling link to log on and submit the intervention or protests.

Persons unable to file electronically should submit an original and 14 copies of the intervention or protest to the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

The filings in the above-referenced proceeding are accessible in the Commission's eLibrary system by clicking on the appropriate link in the

above list. They are also available for review in the Commission's Public Reference Room in Washington, DC. There is an eSubscription link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please e-mail [FERCOnlineSupport@ferc.gov](mailto:FERCOnlineSupport@ferc.gov) or call (866) 208-3676 (toll free). For TTY, call (202) 502-8659.

Dated: July 18, 2011.

## DEPARTMENT OF ENERGY

### Federal Energy Regulatory Commission

[Project No. 14064-000]

#### Amnor Hydro West Inc.; Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comments, Motions To Intervene, and Competing Applications

On January 24, 2011, and supplemented on April 25, 2011, May 3, 2011, and July 6, 2011, Amnor Hydro West Inc. filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act (FPA), proposing to study the feasibility of the Horn Rapids Dam Hydropower Project (Horn Rapids Project or project). The proposed project is located on the Yakima River, near Richland, Benton County, Washington. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission. The proposed project would utilize an U.S. Army Corps of Engineers dam on the Yakima reservoir.

The proposed project would utilize the existing dam and outlet works. The applicant proposes the following new structures: (1) Two intake conduits connecting to a new powerhouse near the left end of the dam; (2) two axial turbine/generator units with a combined capacity of 1.4 megawatts; (3) a tailrace discharge works returning flows to the Yakima River; (4) a 14.7-kilovolt, 3,000-foot-long transmission line extending from the powerhouse south to a proposed substation; and (5) appurtenant facilities. The estimated annual generation of the project would be 6.5 gigawatt-hours.

*Applicant Contact:* Mr. Adam T. Supronik, 42 Pearsall Street, Staten Island, New York 10305; phone: (347) 415-9600.

*FERC Contact:* Patrick Murphy;  
phone: (202) 502-8755.

Deadline for filing comments, motions to intervene, competing applications (without notices of intent), or notices of intent to file competing applications: 60 days from the issuance of this notice. Competing applications and notices of intent must meet the requirements of 18 CFR 4.36. Comments, motions to intervene, notices of intent, and competing applications may be filed electronically via the Internet. See 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site <http://www.ferc.gov/docs-filing/efiling.asp>. Commenters can submit brief comments up to 6,000 characters, without prior registration, using the eComment system at <http://www.ferc.gov/docs-filing/ecomment.asp>. You must include your name and contact information at the end of your comments. For assistance, please contact FERC Online Support at [FERCOnlineSupport@ferc.gov](mailto:FERCOnlineSupport@ferc.gov) or toll free at 1-866-208-3676, or for TTY, (202) 502-8659. Although the Commission strongly encourages electronic filing, documents may also be paper-filed. To paper-file, mail an original and seven copies to: Kimberly D. Bose, Secretary, Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

More information about this project, including a copy of the application, can be viewed or printed on the "eLibrary" link of Commission's Web site at <http://www.ferc.gov/docs-filing/elibrary.asp>. Enter the docket number (P-14064-000) in the docket number field to access the document. For assistance, contact FERC Online Support.
