Federal Emergency Management Agency

44 CFR Part 65

[Docket ID FEMA-2011-0002; Internal Agency Docket No. FEMA-B-1201]

Changes in Flood Elevation Determinations

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Interim rule.

SUMMARY: This interim rule lists communities where modification of the Base (1% annual-chance) Flood Elevations (BFEs) is appropriate because of new scientific or technical data. New flood insurance premium rates will be calculated from the modified BFEs for new buildings and their contents.

DATES: These modified BFEs are currently in effect on the dates listed in the table below and revise the Flood Insurance Rate Maps (FIRMs) in effect

prior to this determination for the listed communities.

From the date of the second publication of these changes in a newspaper of local circulation, any person has ninety (90) days in which to request through the community that the Deputy Federal Insurance and Mitigation Administrator reconsider the changes. The modified BFEs may be changed during the 90-day period.

ADDRESSES: The modified BFEs for each community are available for inspection at the office of the Chief Executive Officer of each community. The respective addresses are listed in the table below.

FOR FURTHER INFORMATION CONTACT: Luis Rodriguez, Chief, Engineering Management Branch, Federal Insurance and Mitigation Administration, Federal Emergency Management Agency, 500 C Street, SW., Washington, DC 20472, (202) 646-4064, or (e-mail) luis.rodriquez1@dhs.gov.

SUPPLEMENTARY INFORMATION: The modified BFEs are not listed for each community in this interim rule. However, the address of the Chief Executive Officer of the community where the modified BFE determinations are available for inspection is provided.

Any request for reconsideration must be based on knowledge of changed conditions or new scientific or technical data.

The modifications are made pursuant to section 201 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4105, and are in accordance with the National Flood Insurance Act of 1968, 42 U.S.C. 4001 *et seq.*, and with 44 CFR part 65.

For rating purposes, the currently effective community number is shown and must be used for all new policies and renewals.

The modified BFEs are the basis for the floodplain management measures that the community is required either to adopt or to show evidence of being already in effect in order to qualify or to remain qualified for participation in the National Flood Insurance Program (NFIP).

These modified BFEs, together with the floodplain management criteria required by 44 CFR 60.3, are the minimum that are required. They should not be construed to mean that the community must change any existing ordinances that are more stringent in their floodplain management requirements. The community may at any time enact stricter requirements of its own or pursuant to policies established by other

Federal, State, or regional entities. The changes in BFEs are in accordance with 44 CFR 65.4.

National Environmental Policy Act. This interim rule is categorically excluded from the requirements of 44 CFR part 10, Environmental Consideration. An environmental impact assessment has not been prepared.

Regulatory Flexibility Act. As flood elevation determinations are not within the scope of the Regulatory Flexibility Act, 5 U.S.C. 601–612, a regulatory flexibility analysis is not required.

Regulatory Classification. This interim rule is not a significant

regulatory action under the criteria of section 3(f) of Executive Order 12866 of September 30, 1993, Regulatory Planning and Review, 58 FR 51735.

Executive Order 13132, Federalism. This interim rule involves no policies that have federalism implications under Executive Order 13132, Federalism.

Executive Order 12988, Civil Justice Reform. This interim rule meets the applicable standards of Executive Order 12988.

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 73

[MB Docket No. 04-319; RM-10984; DA 11-1072]

Radio Broadcasting Services; Clinchco, VA, and Coal Run, KY

AGENCY: Federal Communications Commission.

ACTION: Final rule; petition for reconsideration, granted.

SUMMARY: The staff reinstates and grants a rulemaking petition filed by East Kentucky Broadcasting Corporation ("East Kentucky"), upgrading its Station WPKE-FM, Coal Run Kentucky, from Channel 276A to Channel 221C3.

DATES: Effective August 1, 2011.

FOR FURTHER INFORMATION CONTACT: Andrew J. Rhodes, Media Bureau, (202) 418-2180.

SUPPLEMENTARY INFORMATION: This is a synopsis of the Commission's Memorandum Opinion and Order, MB Docket No. 04-319, adopted June 16, 2011, and released June 17, 2011. The full text of this Commission decision is available for inspection and copying during normal business hours in the FCC Reference Information Center (Room CY-A257), 445 12th Street, SW., Washington, DC 20554. The complete text of this decision may also be purchased from the Commission's duplicating contractor, Best Copy and Printing, Inc., Portals II, 445 12th Street, SW., Room CY-B402, Washington, DC 20554, telephone 1-800-378-3160 or <http://www.BCPIWEB.com>.

The *Report and Order* denied East Kentucky's rulemaking petition because it proposed an effective radiated power ("ERP") below the minimum required

for Class C3 FM stations under § 73.211 of the Commission's rules. See 72 FR 16315 (April 4, 2007). The staff reversed the *Report and Order*, explaining that a station may have a height above average terrain ("HAAT") greater than the class reference provided that it reduces its ERP such that the distance to its 60 dBu contour exceeds the reference distance for the next lower class and does not exceed the reference distance for its class. Because East Kentucky's proposal met these requirements, the staff reinstated and granted the rulemaking petition. The document also rejected an argument that the proposal was not technically feasible due to a terrain obstruction.

To accommodate East Kentucky's upgrade, the staff involuntarily modified the license of Station WDIC-FM, Clinchco, Virginia, from Channel 221A to Channel 276A. The reference coordinates for Channel 221C3 at Coal Run, Kentucky, are 37-23-57 NL and 82-23-42 WL, and for Channel 276A at Clinchco, Virginia, are 37-08-42 NL and 82-23-22 WL.

East Kentucky's proposal was formerly a rule change to § 73.202(b), the FM Table of Allotments. See 69 FR 51414 (August 19, 2004). As a result of changes to the Commission's processing rules, modifications of FM channels for existing stations are no longer listed in § 73.202(b) and are instead reflected in the Media Bureau's Consolidated Data Base System. See *Revision of Procedures Governing Amendments to FM Table of Allotments and Changes of Community of License in the Radio Broadcast Services*, Report and Order, 71 FR 76208 (December 20, 2006).

This document is not subject to the Congressional Review Act. (The Commission is, therefore, not required to submit a copy of this Report and Order to GAO, pursuant to the Congressional Review Act, see 5 U.S.C. 801(a)(1)(A) because no changes are being made to 47 CFR 73.202(b)).
